

We all want to know  
We'll always have a home  
A solid ground beneath our feet

The Earth we walk upon  
Build our homes upon  
She can provide our every need

But we need to stop,  
and look around  
And marvel at all its beauty

Lets celebrate the joy of life  
We're born from the LAND  
You and I, and all of life  
We're born from the LAND

Abundance everywhere,  
Clean water and air,  
For the animals and plants to share

The earth so freely gives,  
Us land to grow and live,  
How can we preserve this gift?

Let there be beauty,  
Peace and joy,  
for all of our children

Lets celebrate the joy of life  
We're born from the LAND  
You and I, and all of life  
We're born from the LAND

Can't you see  
That everything we need  
Is right in the ground  
Beneath our feet

And when will we see  
Life can only be  
As good as the home we keep  
This home beneath our feet

Lets celebrate the joy of life  
We're born from the LAND  
You and I, and all of life  
We're born from the LAND
