

About the Editors

M. Dinesh Kumar received his Ph.D. in Water Management in 2006. He has 28 years of professional experience in the field of water resources, undertaking research, consulting, action research, and training. He is currently the Executive Director of Institute for Resource Analysis and Policy in Hyderabad. He has nearly 170 publications to his credit, including books from internationally renowned publishers, several book chapters, many articles in peer-reviewed international journals, research monographs, and conference papers. He has authored six books and is the lead editor of four edited volumes. He has published extensively in many international peer-reviewed journals, such as *Water Policy*, *Energy Policy*, *Food Security*, *Water International*, *Journal of Hydrology*, *Water Resources Management*, and *Journal of Resources, Energy, and Development*. He is currently also Associate Editor of *Water Policy*, and Member of the Editorial Board of *International Journal of Water Resources Development*.

V. Ratna Reddy is an economist by training with experience in the fields of environmental economics and natural resource management, climate change, livelihoods, and institutions. He is an Alexander von Humboldt Fellow at South Asian Institute, Germany. He is Visiting Fellow at the Institute of Development Studies, Sussex, and the University of Leeds, UK, and served as consultant to organizations like The World Bank, ADB, UNDP, DFID, EC, WWF, IWMI, ICRISAT, UNU, etc. He had served as a working group member in the preparation of 11th and 12th Plans for the Government of India. He has published 12 books and more than 150 research papers in international and national peer-reviewed journals. He has a Ph.D. in Economics. Since 2009, he is Director of Livelihoods and Natural Resource Management Institute, Hyderabad.

A.J. James holds a Ph.D. in Economics (University College, London); has taught at St. Stephen's College and the Delhi School of Economics; and has been a Visiting Fellow at the Institute of Economic Growth, Delhi. He has over 20 years of research and work experience in developmental issues, including water and sanitation, water pollution, watershed development, irrigation and drainage, health, education, adaptation to climate change, natural resource management, agriculture, forestry, and poverty alleviation. Another area of specialization is monitoring and evaluation, wherein he

had helped to develop innovative methodologies for community-level assessment of qualitative information. Besides India, he has worked in Nepal, Sri Lanka, Vietnam, Ethiopia, Tanzania, and Afghanistan. His clients are funding agencies (World Bank, DFID, UNDP, UNICEF, FAO, and ADB), research and development institutions (ENTRO, Addis Ababa), IRC International Water and Sanitation Centre (the Netherlands), Overseas Development Institute (London), Institute for Arable Crop Research, UK, and Natural Resources Institute, UK, consulting firms in India and abroad, nongovernmental organizations, and Indian government agencies. He has given several invited talks and seminars, besides editing books, contributing book chapters, and publishing articles in international peer-reviewed journals. He is an Honorary Visiting Professor at the Institute of Development Studies, Jaipur, since 2011.
