 - Performance indicator CONS-O-18 for Outcome 5.5
- Standard Financial Annex
 - Financial Commitment #1 — Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.
 - Financial Commitment #2 — “Three-North” Shelterbelts Forest Program (Phase IV).
 - Financial Commitment #3 — Natural Forest Protection Program.
 - Financial Commitment #4 — Conversion of Cropland to Forest and Grassland Program.
 - Financial Commitment #5 — National Soil and Water Conservation Program.
 - Financial Commitment #6 — Integrated Desertification Control Program in the old river-bed area of the Yellow River
 - Financial Commitment #7 — National Integrated Desertification Control Demonstration Area Program.
 - Financial Commitment #8 — Returning Grazing Land to Grassland Program.
 - Financial Commitment #9 — Sino-Japanese Integrated Ecological Control Program in Key Desertification Areas of Gansu by Loans.
 - Financial Commitment #10 — People’s Republic of China – Global Environment Facility (PRC-GEF) Partnership on Land Degradation in Dryland Ecosystems: Capacity Building Project to Combat Land Degradation.
 - Financial Commitment #11 — Integrated Management of Wetland in Zoige Plateau and the Altai Mountains to support biodiversity conservation and sustainable development.
 - Financial Commitment #12 — Sino-German Financial Cooperation “Afforestation Project in Tianshui, Gansu Province”.~~~
 - Financial Commitment #13 — Desertification Control Program in Bayannaouer, Inner Mongolia Autonomous Region.~~~
 - Financial Commitment #14 — Sino-Japanese Civil Green Cooperation Project
 - Financial Commitment #15 — “China's Desertification Control – Chagannuoer” Project.
- Programme and Project Sheets
 - Programme/Project #1 — Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.
 - Programme/Project #2 — "Three-North" Shelterbelts Forest Program (Phase IV)
 - Programme/Project #3 — Natural Forest Protection Program
 - Programme/Project #4 — Conversion of Cropland to Forest and Grassland Program

- Programme/Project #5 — National Soil and Water Conservation Program
- Programme/Project #6 — Integrated Desertification Control Program for Yellow River died-river way.
- Programme/Project #7 — National Integrated Desertification Control Demonstration Area Program
- Programme/Project #8 — Returning Grazing Land to Grassland Program
- Programme/Project #9 — Sino-Japanese Project on Integrated Ecological Control Program in Key Desertification Areas of Gansu
- Programme/Project #10 — People’s Republic of China – Global Environment Facility (PRC-GEF) Partnership on Land Degradation in Dryland Ecosystems: Capacity Building Project to Combat Land Degradation.
- Programme/Project #11 — Integrated Management of Wetland in Zoige Plateau and the Altai Mountains to support biodiversity conservation and sustainable development
- Programme/Project #12 — Sino-German Financial Cooperation “Afforestation Project in Tianshui, Gansu Province”~~~
- Programme/Project #13 — Desertification Control Program in Bayannaouer, Inner Mongolia Autonomous Region~~~
- Programme/Project #14 — Sino-Japanese Civil Green Cooperation Project
- Programme/Project #15 — “China’s Desertification Control – Chagannuoer” Project
- Additional Information
 - Reporting process-related issues
 - Accommodation of specific requests within COP decisions
 - Reporting on the implementation of NAP
 - Human resources
 - Financial resources
 - Any other country-specific issues
- Best Practices
 - Best Practice #1 — Grass Grid Sand Barrier-implemented jointly by governments and farmer households

GENERAL INFORMATION ON THE REPORTING ENTITY	
Reporting country *	China
Name and surname of the person submitting the report *	Jia Xiaoxia
Affiliation and contact details *	xiaoxia_jia@yahoo.com

Performance Indicators

C. Performance indicators

Performance indicators are for measuring progress against the five operational objectives of The Strategy, in line with decision 3/COP.8. The year 2008 (the first year of the Strategy) serves as the baseline year.

Affected country Parties are requested to report on the following fourteen performance indicators out of the eighteen consolidated performance indicators presented in ICCD/CRIC(8)/5/Add.1 and Add.2.

Reporting is guided by means of templates, one for each performance indicator. Within the templates, shaded areas contain information and explanatory texts and white areas are for reporting purposes and need to be filled in by affected country Parties with relevant quantitative data, selection of multiple choice boxes, or narrative information.

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Number and size of information events organized on the subject of DLDD and/or DLDD synergies with climate change and biodiversity, and audience reached by media addressing DLDD and DLDD synergies.

Understanding of the indicator

At the national and local level, the indicator measures the performance of Convention-related communication strategies, in particular, whether DLDD issues and synergies are being communicated and if so, whether the communication is considered to be effective. Effectiveness is assessed through the appraisal of the media campaigns carried out; the assumption is that the stronger the media campaigns on DLDD issues and synergies, the higher the probability of passing the messages on to the target audience. The focus of the indicator is on information activities specifically dedicated to DLDD and/or DLDD synergies with climate change and biodiversity. Other reporting entities will complement the information provided by affected country Parties by reporting on Convention-related communication strategies at subregional, regional and global level.

Data needed

Information on events/media specifically addressing DLDD and/or DLDD synergies with climate change and biodiversity.

Attendance lists of events (meetings, workshops, seminars), programmes/projects' documents, estimate of target audience for major media events (campaigns, radio and television programmes, etc.).

Events organized and media produced by the UNCCD NFP or organized/produced by third parties not directly reporting to the Convention (TV channels, newspaper editors, etc.) shall be considered.

Data sources (indicative only)

International and national media (newspapers) advertising the events at national and local level, the Internet, the organizers of the events, programmes/projects' final reports.

Check the glossary for

'NFP', 'ICT', 'Information events', 'Media products', 'STIs', 'CSOs'

Media products have been grouped into: (a) Paper media products (articles, press releases, leaflets, flyers, brochures and comics, etc.); (b) radio and television programmes; (c) other ICT (websites, CDs, DVD, etc.).

Overall target

By 2018, 30 per cent of the global population is informed about DLDD and DLDD synergies with climate change and biodiversity

Number of information events

Year	Number of information events	Estimated number of participants in the information events
2008	29	13036

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **From reports of the provincial governmental agencies in charge of desertification combating, conference documnets and website based inforamtion**

Attachments:

none

National contribution to the target

On the basis of the information you have provided above, estimate the proportion (%) of the population in your country which is informed about DLDD and DLDD synergies with climate change and biodiversity at the time of reporting?

Estimated share of total country population =
20 %

Qualitative assessment

Is the information you have provided on communication processes part of a national communication strategy addressing environmental issues?

No

Performance indicator CONS-O-3 for Outcome 1.3

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-3 for Outcome 1.3

Number of CSOs and science and technology institutions participating in the Convention processes.

Understanding of the indicator

At the national level, the indicator measures the level of participation of civil society organizations (CSOs) and science and technology institutions (STIs) in DLDD-related programmes and projects. The indicator will outline whether the active involvement of these stakeholders in country-based initiatives increases over time and whether programmes/projects are valid tools for the engagement of, and receiving contributions from, CSOs and STIs at the field level. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level; in particular, the secretariat and the GM will report on the involvement of CSOs and STIs at the institutional level.

Data needed

The specification of the organizations involved in the programmes/projects as reported in the PPSs.

Data sources (indicative only)

PPSs submitted to the UNCCD as part of the reporting exercise.

Check the glossary for

'STIs', 'CSOs', 'PPS', 'Convention processes'

Overall target

A steady growth in the participation of CSOs and science and technology institutions in the Convention processes is recorded along the implementation period of The Strategy.

In the PPSs you have specified the number of CSOs and the number of STIs involved in each programme/project. Add these numbers and give the totals by year in the table below.

Year	Number of CSOs involved in DLDD-related programmes/projects	Number of STIs involved in DLDD-related programmes/projects
2008	9	120
2009	9	120
2010		
2011		
2012		
2013		
2014		
2015		
2016		
2017		
2018		

Sources of information

Programme and project sheets (PPSs) submitted to UNCCD

No answer required

National contribution to the target

At the time of reporting, is your government undertaking concrete initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects?

Yes

Qualitative assessment

Specify the reasons for the increasing and/or decreasing trend of the participation of CSOs and STIs to DLDD-related programmes/projects. (tick as many boxes as necessary and rate the level of importance)

		Not important	Important	Very important
X	Increased networking and collaboration opportunities			X
X	Increased access to information and to national and/or international financing opportunities			X
X	Increased willingness of the government in working with CSOs			X
	Increased interest of donors in working with CSOs			
X	Strengthened organizational, project management and fund-raising capacity of CSOs		X	
X	Increased funding opportunities requiring partnership with the STIs			
	Strengthened organizational, project management and fund-raising capacity of the STIs			
	Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for CSOs

		Not important	Important	Very important
X	Costly participatory processes		X	
X	Low organizational, fund-raising and project management capacity of CSOs		X	
	Government policies and/or the legal environment do not foster the engagement of CSOs			
	Diminishing funding			
	Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for STIs

		Not important	Important	Very important
X	DLDD topics are not prioritized by national STIs			
X	Low organizational, fund-raising and project management capacity of STIs			
	Decreased networking opportunities at national and international level			
	Diminishing funding			
	Other			

Other (specify) (max 30 words)

No answer provided

Performance indicator CONS-O-4 for Outcome 1.3

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-4 for Outcome 1.3

Number and type of DLDD-related initiatives of CSOs and science and technology institutions in the field of education.

Understanding of the indicator

The indicator measures the number and type of DLDD-related initiatives undertaken by CSOs and STIs in the education sector at the national level. The assumption is that the higher the number of DLDD-related education initiatives undertaken by these stakeholders, the stronger their interest in addressing DLDD problems. A distinction is made between activities carried out in the formal education sector and in the non-formal education sector. This indicator focuses on “education” because “awareness” and “advocacy” are already measured through indicators CONS-O-1 and CONS-O-2, respectively. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level.

Data needed

Information on initiatives undertaken in the field of education that may be found in: written communications by CSOs and STIs to the NFP; contractual and/or programme/project-related documents; records of academic bodies and their curricula.

Only initiatives in the field of education (formal and non-formal) directly relating to DLDD issues are to be considered.

Data sources (indicative only)

CSOs and STIs operating in the country.

Check the glossary for

‘CSOs’, ‘STIs’, ‘NFP’, ‘Formal education’, ‘Non-formal education’.

Overall target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and science and technology institutions is recorded along the implementation period of The Strategy

Number of DLDD-related initiatives undertaken

Year	Number of DLDD-related initiatives undertaken by CSOs formal education	Number of DLDD-related initiatives undertaken by CSOs non-formal education	Number of DLDD-related initiatives undertaken by STIs formal education	Number of DLDD-related initiatives undertaken by STIs non-formal education

National contribution to the target

At the time of reporting, is your government undertaking concrete initiatives to increase the delivery of DLDD-related initiatives in the education sector by CSOs and STIs?

Yes

Qualitative assessment

Specify the reasons for the increasing and/or decreasing trend of DLDD-related education initiatives undertaken by CSOs and STIs.

(tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very important
X Increased access to funding		X	
X Increased awareness of DLDD-related problems and of the need for action			X
X Increased knowledge of DLDD-related topics and enhanced skills of trainers/teachers			X
X Government policies are more supportive of education initiatives			X
X International donors are more supportive of education-focussed initiatives.		X	
Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for CSOs

	Not important	Important	Very important
Lack of financial resources			
Insufficient awareness and knowledge by national CSOs of DLDD-related issues			
Limited capillary presence of national CSOs at the grass-root level			
Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for STIs

	Not important	Important	Very important
Lack of financial resources			
National STIs are more focussed on research activities than on education and training			
Other			

Other (specify) (max 30 words)

No answer provided

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of NAPs/SRAPs/RAPs aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks.

Understanding of the indicator

At the national level, the indicator measures the performance of affected country Parties in formulating or revising their NAPs in alignment with The Strategy. While providing information on this process, the indicator also outlines whether: (a) the analysis of DLDD drivers, barriers to possible solutions, and measures that may eventually overcome these barriers, has been carried out; (b) the alignment process has been supported by biophysical and socio-economic baseline information; (c) the action programmes have been included in integrated investment frameworks; and (d) the action programmes have been integrated with other existing national plans and policies. The indicator will inform on the extent to which Parties have responded to decision 3/COP.8, paragraph 45, and on the feasibility of assessing the progress of The Strategy over its implementation period (2008–2018). Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on formulation or revision of SRAPs and RAPs in alignment with The Strategy.

Data needed

UNCCD NAP. Only a NAP formally approved by the relevant governmental authorities is to be considered as 'finalized'. Other relevant planning documents.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'Finalized', 'NAP', 'NFP', 'driver', 'barrier', 'integrated investment framework', 'baseline'

Overall target

By 2014, at least 80 per cent of affected country Parties, subregional and regional entities have formulated/revise a NAP/SRAP/RAP aligned to The Strategy.

NAP Adoption and Revision

Had your country already adopted a NAP prior to The Strategy?

Yes

If yes, has your country revised the NAP in alignment with The Strategy?

No

If you have revised the NAP in alignment with The Strategy, specify the date of its approval.

No answer provided

If you have not revised the NAP in alignment with The Strategy, specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

		Not important	Important	Very Important
X	Not a priority for the government			
	Lack of capacities			
X	Lack of financial resources			

X	Understaffing			
X	Lack of time			
	Poor internal coordination among relevant ministries			
X	Other			

Other (specify) (max 30 words)

2010 is the last year of NAP from 2005-2010 in which some of the content of the strategy were reflected to some extent. The all round alignment work is planned to be done in the process of new NAP(2010-2020)formulation.

If your country had no NAP adopted prior to The Strategy, have you formulated an aligned NAP after The Strategy's adoption in 2008?

No answer provided

If yes, specify the date of its approval.

No answer provided

If at the time of reporting you have not formulated a NAP aligned to The Strategy specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very Important
Not a priority for the government			
Lack of capacities			
Lack of financial resources			
Understaffing			
Lack of time			
Poor internal coordination among relevant ministries			
Other			

Other (specify) (max 30 words)

No answer provided

The questions below apply only to those countries having a NAP aligned to The Strategy

If you have a NAP, is it supported by biophysical and socio-economic baseline information?

Yes

If you have a NAP, does it assess DLDD drivers?

Yes

If you have a NAP, does it assess the barriers to sustainable land management?

Yes

If yes, does the NAP include recommendations to remove these barriers?

Yes

If you have a NAP, has it been included into an integrated investment framework?

Yes

If you have a NAP, has it been integrated into national development planning and relevant sectoral and investment plans and policies?

Yes

If yes, has the NAP been integrated into your country's Poverty Reduction Strategy Paper?

No

Did you refer to the Guidelines on the alignment of action programmes with The Strategy as proposed in ICCD/COP(9)/2/Add.1 while developing or reviewing your action plan?

No

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- National bureau to combat Desertification
- the state Forestry Administration
- China

The secretariate of the CHina antional commiittee for the implementation of the UNCCD

Attachments:

none

National contribution to the target

If you do not have an approved NAP aligned to The Strategy at the time of reporting, when do you plan to have it developed and approved?

2010-11

Qualitative assessment

Has the formulation and/or alignment of the NAP been supported by external assistance?

No

If yes, did you receive assistance from one or more of the following institutions? (more than one box can be ticked)

No answer provided

If yes, which type of assistance did you receive?

No answer provided

Identify the major difficulties experienced in the formulation/alignment process (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
	Not a priority for the government			
X	Poor availability of biophysical and socio- economic baseline information			
X	Existing investment frameworks are not fully compatible with the NAP			
	Streamlining the NAP into existing plans and policies is too time-consuming			
X	Other			

Other (specify) (max 30 words)

Some part of the strategy are related to institutional arrangement and adjustment at international level, the partnership buidling could not only based on the efforets made by the affected countries only.

Performance indicator CONS-O-7 for Outcome 2.5

Operational Objective 2: Policy framework

Performance indicator CONS-O-7 for Outcome 2.5

Number of initiatives for synergistic planning/programming of the three Rio Conventions or mechanisms for joint implementation, at all levels.

Understanding of the indicator

The indicator measures the existence of synergistic processes through the number of instruments (i.e. joint planning/programming and/or operational mechanisms) in place at the national level which foster the introduction of or strengthen the mutually reinforcing measures among the three Rio Conventions. The assumption is that the higher the number of enabling instruments in place, the higher the possibility of achieving synergies in implementation. This information will be complemented by the reporting of other reporting entities on synergistic processes at the subregional, regional and global level.

Data needed

Planning/programming documents and legislative/regulatory documents.

Only operational mechanisms which have the achievement of joint implementation, synergies, convergence, and the introduction or strengthening of reinforcing measures among the Rio Conventions clearly stated in their objectives shall be considered under this indicator.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

“Joint planning/programming initiatives”, “Operational mechanisms for joint implementation or mutual reinforcement”

For an indicative list of activities by Parties to promote synergies among the Rio Conventions, refer to [target=' blank'>UNEP/CBD/COP/DC/IX/16, Annex II](#)

Overall target

By 2014, each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio Conventions

Are you implementing joint planning/programming initiatives for the three Rio Conventions?

No

If yes, specify the type of joint initiative(s) (tick as many boxes as necessary)

No answer provided

Other (specify) (max 30 words)

No answer provided

Do operational mechanisms for joint implementation or mutual reinforcement exist in your country?

Yes

If yes, specify the type of mechanism(s) (tick as many boxes as necessary)

- **Other**

Other (specify) (max 30 words)

communication and coordination based on the existing conventional governmental departments channels

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **China national committee for the implementation of the UNCCD**

Attachments:

none

National contribution to the target

If your country is not implementing joint planning/programming or does not have operational mechanisms in place at the time of reporting, when do you plan to have something ensuring synergies in place?

No plan exists yet

Qualitative assessment

Has the establishment of synergistic processes for joint implementation of the Rio Conventions at national level been supported by the institutions of the Rio Conventions?

Yes

If yes, by which Convention? (more than one box can be ticked)

- UNCCD

Identify the major difficulties experienced to establish synergistic planning/programming or mechanisms for joint implementation (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important

X	Lack of capacities			
X	Lack of financial resources			
	Understaffing			
	Lack of time			
X	Poor internal coordination among relevant ministries			
	Other			

Other (specify) (max 30 words)

No answer provided

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional /regional monitoring system for DLDD.

Understanding of the indicator

At the national level, the indicator measures the monitoring potential of the country by quantifying the number of monitoring systems established and supported. These monitoring systems may be specifically or partially (in the case of environmental monitoring systems) dedicated to UNCCD reporting. The indicator will inform on the extent to which it is realistic to expect more regular and coherent reporting by affected country Parties during the implementation of The Strategy and beyond. This information will be complemented by the reporting of other reporting entities on UNCCD-relevant monitoring systems established and supported at the subregional, regional and global level.

Data needed

Information on monitoring systems established within the national Ministries or other bodies/institutions.

Programmes/projects' documents, fiches and summary sheets, programmes/projects' interim or final reports.

Only those monitoring systems storing all or most of the information needed for reporting to the UNCCD shall be considered.

Data sources (indicative only)

Relevant national ministries, programme/project management units, other non-governmental initiatives.

Check the glossary for

'monitoring system', 'vulnerability'

Overall target

By 2018, at least 60 per cent of affected country Parties, subregional and regional reporting entities have established and supported national monitoring systems for DLDD

Is a monitoring system for DLDD established at the national level?

Yes

If yes, specify whether this system is: Functional

Yes

If yes, specify whether this system is: Regularly Updated

Yes

If no DLDD-specific monitoring system is in place, is an environmental monitoring system partially covering DLDD established at the national level?

No answer provided

List any monitoring system available at the sub- national level that can contribute to the UNCCD reporting (add as many rows as necessary).

- **National monitoring system for soil erosion,**
Monitoring system for grass land
-

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **State Council's Press Conference for desertification Monitoring**

Attachments:

none

National contribution to the target

If your country does not have a national monitoring system partially or totally dedicated to DLDD in place at the time of reporting, do you plan to initiate one?

No answer provided

If yes, when?

No answer provided

Qualitative assessment

For those countries not having a national monitoring system totally or partially dedicated to DLDD, identify the major difficulties experienced in the establishment process (tick as many boxes as necessary and rate the level of importance).

	Not important	Important	Very important
Financial constraints			
Lack of capacities			
Human resources constraints			
Lack of coordination among relevant ministries and unclear attribution of responsibilities			
Lack of coordination among donor-led programme/project interventions			
Existing initiatives are too fragmented; cannot be realistically coordinated under one umbrella.			
Existing national and/or sub-national monitoring systems use different methodologies and cannot be realistically harmonised			
Other			

Other (specify) (max 30 words)

No answer provided

For those countries having a national monitoring system totally or partially dedicated to DLDD, how is the system maintained? (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very important
X By means of national resources			
X By means of external support			
No maintenance is possible due to limited professional capacities			
No maintenance is possible due to limited financial resources			
X Other			

Other (specify) (max 30 words)

Internaitonal exchange and cooperation could help the affected countries to improve the accuracy system by using advancing methodologies.

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Number of affected country Parties, subregional and regional entities reporting to the Convention along revised reporting guidelines on the basis of agreed indicators

Understanding of the indicator

The indicator measures the use of biophysical and socio-economic information at the national level in defining a commonly agreed core set of impact indicators for the UNCCD and in monitoring progress against these indicators using harmonized methodologies. The indicator will inform to what extent it is possible to compile a comparable and global assessment of UNCCD impact. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the use of impact indicators at the subregional and regional levels, if and when impact indicators for these levels will be commonly agreed upon by the Conference of the Parties.

Data needed

Reports to the UNCCD by affected country Parties in 2012 and 2016.

The information to report on this indicator will be compiled by affected country Parties every four years when reporting on the strategic objectives that require biophysical and socio-economic information (i.e. SO1, SO2 and SO3). Reporting on this indicator is due in 2012 and in 2016 only.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NFP'

Overall target

By 2018, at least 90 per cent of affected country Parties, subregional and regional reporting entities report to the Convention in compliance with the new reporting guidelines.

Has your country reported on the two impact indicators considered by decision 13/COP.9 to be the minimum reporting requirement?

No answer required for this indicator in the 2010 reporting cycle

Number of impact indicators for strategic objectives 1, 2 and 3 your country has reported on in 2012 and 2016

2012

No answer required for this indicator in the 2010 reporting cycle

2016

No answer required for this indicator in the 2010 reporting cycle

While reporting on impact indicators, did you refer to the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST?

No answer required for this indicator in the 2010 reporting cycle

Sources of information

Specify the sources used to extract the information provided above (add as many rows information as necessary). If reporting online, you may also upload relevant documents.

No answer required for this indicator in the 2010 reporting cycle

National contribution to the target

If in 2012 your country has not reported on some or all of the impact indicators for the UNCCD, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

If in 2012 your country has not complied with the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

Qualitative assessment

Identify the major difficulties experienced in reporting against the impact indicators:

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity.

Understanding of the indicator

The indicator measures knowledge-transfer processes from the theoretical to the operational level. This is done through an assessment carried out by affected country Parties (self-assessment) of the levels of traditional and scientific knowledge reflected in their NAPs. The assumption is that NAPs based on sound scientific and traditional knowledge will propose more significant and effective strategies and activities for implementation at the national level, and will, ultimately, perform better than those NAPs that do not take into account available knowledge on DLDD and DLDD synergies. The indicator will inform to what extent UNCCD implementation is likely to achieve meaningful results. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the assessment of their SRAPs and RAPs.

Data needed

NAP aligned to The Strategy.

Scientific literature consulted for the development of the NAP.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NAP', 'NFP', 'driver'

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

Overall target

By 2018, at least 70 per cent of revised NAPs/SRAPs/RAPs have successfully gone through a quality self-assessment.

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

In your NAP, is the identification of biophysical and socio-economic drivers, and of their interaction, knowledge-based?

Yes

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

- Scientific literature
- Expert knowledge
- Traditional knowledge

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

- Statistics of the National Statistics Bureau
National Report on Desertification in China
Master plans of other relevant ministries including ministry of water resources
- agriculture and environment protection.

In your NAP, is the analysis of the interaction between drought mitigation and restoration of degraded land and climate change mitigation/ adaptation or biodiversity conservation knowledge-based?

Yes

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

- Scientific literature
- Expert knowledge
- Traditional knowledge

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

- National report on Climate Change
- Thematic study on the climate change of the dry land
National report on desertification monitoring

Is drought mitigation analyzed and/or reflected in some of the actions outlined in the NAP?

No

Attachments:

none

Sources of information

Specify the sources used to extract the information provided above:

UNCCD National Action Programme.

No answer required

National contribution to the target

If in your NAP, DLDD drivers, their interactions, and the interaction of DLDD with climate change and biodiversity, are not analyzed on the basis of relevant scientific, expert and/or traditional knowledge, such that the self-assessment process is not fully successful, when do you expect to adjust your NAP so that it can successfully go through the self-assessment?

2010-11

Qualitative assessment

If your NAP has not been developed taking into account relevant scientific and/or traditional knowledge, identify the reasons (tick as many boxes as necessary and rate the level of importance).

	Not important	Important	Very important
X Relevant scientific literature is not available		X	

	Relevant traditional or expert knowledge is not available			
X	Lack of financial resources to mobilise the necessary knowledge			X
	Poor coordination among the relevant ministries prevented an internal pooling of knowledge/expertise			
	Relevant ministries could not contribute due to lack of time			
	Relevant ministries could not contribute due to lack of staff			
X	Other			

Other (specify) (max 30 words)

The NAP (2005-2010) is going to be finished. The NAP (2011-2020) is in preparation.

Performance indicator CONS-O-11 for Outcome 3.5

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-11 for Outcome 3.5

Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website.

Understanding of the indicator

The indicator measures the presence at the national level of DLDD-related knowledge-sharing processes, through the quantification of the type and number of existing knowledge-sharing systems. Effectiveness of these systems is measured through quantification of their user-base. The indicator will inform to what extent scientific and traditional knowledge, including best practices, are available to and sufficiently shared with end-users. This information will be complemented by the reporting of other reporting entities on existing UNCCD-relevant knowledge-sharing systems at the subregional, regional and global level.

Data needed

Information from websites.

Only DLDD-relevant knowledge-sharing systems and networks shall be considered.

Data sources (indicative only)

Relevant organizations at the national level, relevant national ministries hosting knowledge-sharing systems and networks within their websites.

Check the glossary for

'knowledge-sharing system', 'PRAIS'

List any DLDD-relevant 'knowledge-sharing system' at the country level you are aware of, providing an Internet link and estimated number of users per year (add as many rows as necessary)

Name of the System

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of NCSA or other methodologies and instruments

Understanding of the indicator

At the national level the indicator measures the presence of capacity-building processes through the quantification of existing major capacity-building initiatives. The indicator will inform to what extent affected country Parties may be expected to meet their obligations foreseen by the Convention, including forthcoming ones (i.e. new reporting requirements, establishment of environmental monitoring systems, accessing new financing mechanisms). This information will be complemented by the reporting of other reporting entities on existing UNCCD-related capacity-building initiatives at the subregional, regional and global level.

Data needed

Information on DLDD-related capacity building initiatives.

Only major capacity-building plans/programmes/projects mentioned in the PPSs are to be considered.

Data sources (indicative only)

PPSs submitted to UNCCD as part of the reporting exercise

Programmes/projects' documents, fiches and summary sheets, interim or final reports of those programmes and projects identified through the PPSs as having DLDD-related capacity-building as a major objective.

Check the glossary for

'NCSA', 'PPS'

Overall target

By 2014, at least 90 per cent of affected country Parties, sub-regional and regional reporting entities implement DLDD specific capacity building plans or programs or projects.

Number of DLDD-related capacity building initiatives undertaken

Identify, if any, relevant programmes and projects through the PPSs and check corresponding programmes/projects' documents, fiches and summary sheets, and interim or final reports, to extract the information needed for completing the table below

Year	NCSA-generated	Other initiatives
2008		7
2009		11
2010		
2011		
2012		
2013		
2014		
2015		
2016		

2017		
2018		

Has your country assessed DLDD-related capacity building needs at the national level?

Yes

If yes, within the framework of which initiative?

- **NCSA**
- **Other**

Other (specify) (max 30 words)

NCSA

**UNDP capacity building project on the Implementation of the UNCCD in China
Sino-German desertification combating capacity project**

If yes, do you have assessed the necessary resources for addressing capacity building needs?

No

Are these resource requirements included into an investment framework?

No

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **NCSA Report, UNDP capacity building project for China Implementation of the UNCCD Report.**

On-going strategic plan for development of human resources fro desertification combating

Attachments:

none

National contribution to the target

If at the time of reporting there are no DLDD-specific capacity building plans, programmes or projects implemented in your country, when do you plan to have something in place?

No plans exist yet

Qualitative assessment

Have you received assistance from one or more of the following institutions to build capacities to combat DLDD? (more than one box can be ticked)

- **GEF**
- **Bilateral**
- **Multilateral (UN agencies, IGOs, international financing institutions, etc.)**

If yes, which type of assistance have you received?

- **Technical support**
- **Financial support**

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other integrated financing strategies, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation.

Understanding of the indicator

At the national level, the indicator measures the presence of integrated financing processes allowing the leverage of national, bilateral and multilateral resources for combating desertification and land degradation, through the quantification of investment frameworks developed by country Parties within the IFS devised by the GM or other integrated financing strategies promoted by diverse international institutions. This information will be complemented by the reporting of other reporting entities on the establishment of integrated investment frameworks at national, subregional and regional level.

Data needed

Investment frameworks documents.

Only investment frameworks prepared along the guidelines devised within integrated financing strategies shall be considered.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

'IFS', 'NAP' 'leveraging', 'integrated investment framework'

Overall target

By 2014, at least 50 per cent of affected country Parties, subregional and regional entities have developed integrated investment frameworks.

Has your country developed an integrated investment framework?

No

If yes, specify when it was developed.

No answer provided

The questions below apply only to those countries which have an integrated investment framework.

Is your integrated investment framework based on the NAP?

No answer provided

If based on the NAP, who assisted in its development?

No answer provided

Other (specify) (max 30 words)

No answer provided

If assisted, which type of assistance did you receive?

No answer provided

If assisted by the GM, was it devised within the IFS?

No answer provided

If your country has an integrated investment framework based on the NAP, is this framework concretely allowing the leverage of national, bilateral and multilateral resources for combating DLDD?

No answer provided

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **State Forestry administration**

Attachments:

none

National contribution to the target

If your country has not developed an integrated investment framework at the time of reporting, do you plan to do it?

Yes

If yes, when?

2010-11

Qualitative assessment

Identify the major difficulties experienced in developing an integrated investment framework (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
	Financial constraints			
	Human resources constraints			
X	Lack of coordination among relevant ministries and unclear attribution of responsibilities			X
X	Lack of coordination among those providing support			X
X	National, bilateral and multilateral resources are too diverse; cannot be realistically coordinated under one umbrella.	X		
	Other			

Other (specify) (max 30 words)

No answer provided

Performance indicator CONS-O-16 for Outcome 5.2

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-16 for Outcome 5.2

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD.

Understanding of the indicator

This is a qualitative indicator requiring the perception-based assessment by developing affected country Parties of the adequacy, timeliness and predictability of bilateral contributions received from developed country Parties for the implementation of the Convention. "Adequate", "timely" and "predictable" resources are frequently referred to in The Strategy as being necessary to ensure proper planning and effective implementation. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on their perception-based assessments.

Data needed

-

-

Check the glossary for

-

Only affected country Parties entitled to receive assistance under the UNCCD are requested to report on this indicator.

Overall target

No target has been set for this indicator

How would you rate the bilateral assistance received within the framework of UNCCD for the implementation of The Strategy and of the Convention?

Adequacy of bilateral assistance

Not adequate

Timeliness of bilateral assistance

Not timely

Predictability of bilateral assistance

Not predictable

Provide narrative justification on your above rating (max 100 words)

Area of Desertification in China is quite big, financial resources are less than expectation.

Bilateral cooperation project development and approval usually is time consuming, arrival of the assistance is always late.

Strategy and policy change of the foreign aid agencies could not be timely informed to the eligible local people. Scale and priorities of foreign aid project usually are not predictable in making NAP.

Qualitative assessment

Did you receive assistance in raising resources from bilateral donors?

Yes

If yes, from whom? (more than one box can be ticked)

- secretariat
- GEF
- Bilateral
- Multilateral (UN agencies, IGOs, international financing institutions, etc.)
- Other

Other (specify) (max 30 words)

private sectors

Has the level of adequacy, timeliness and predictability of bilateral assistance constrained your country's performance in planning and implementation with respect to UNCCD?

Yes

Performance indicator CONS-O-17 for Outcome 5.3

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-17 for Outcome 5.3

Number of DLDD-related project proposals successfully submitted for financing to international financial institutions, facilities and

funds, including the GEF.

Understanding of the indicator

The indicator measures the capacity of fund-raising at the national level, through the quantification of project proposals successfully submitted for funding to the various financing organizations. The indicator will inform to what extent affected country Parties make increasing efforts to mobilize resources. This information will be complemented by the reporting of other reporting entities on the fund-raising efforts at national, subregional and regional level.

Data needed

Information contained in the PPSs and SFAs submitted to UNCCD.

Data sources (indicative only)

PPSs and SFAs submitted to UNCCD as part of the reporting exercise.

The PPS requires specification of the project 'status' thus it allows the identification of relevant projects to be considered by this indicator and the monitoring of their approval status.

The SFA requires the specification of amounts committed to approved projects.

Check the glossary for

'PPS', 'SFA', 'Project proposals', 'currency', 'Successfully submitted proposals'

Overall target

A steady growth in the number of DLDD-related successfully submitted project proposals is recorded along the implementation period of The Strategy.

Number of project proposals submitted (pipeline) and ongoing, by biennium

Biennium	submitted (pipeline)	ongoing
2008-2009		15
2010-2011		
2012-2013		
2014-2015		
2016-2017		

Amount of funds raised, by biennium

You can find the amount of funds raised for the ongoing projects in the corresponding SFAs. Sum these amounts and give the total in the below table.

Biennium	Total amount
2008-2009	USD21921917344
2010-2011	
2012-2013	
2014-2015	
2016-2017	

Sources of information

Specify the sources used to extract the information provided above: Programme and Project Sheets and Standard Financial Annexes

No answer required

National contribution to the target

According to the information provided above, do you think that you are mobilizing enough resources from international financial institutions, facilities and funds through successfully submitted project proposals?

No

If no, do you plan to increase the country's efforts in presenting project proposals to international financial institutions, facilities and funds?

Yes

Qualitative assessment

Identify the reasons for the increasing or decreasing trend of project proposals successfully submitted to international financial institutions, facilities and funds (tick as many boxes as necessary and rate the level of importance).

Reasons for increasing

		Not important	Important	Very Important
X	Easier and more transparent application procedures			X
X	Increased capacities of national stakeholders to prepare applications			X
	Major natural hazards occurred at the national level considerably increased the level of resources made available by the international community			
	Access to funding is increasingly facilitated by third parties such as the private sector			
X	Existence of a financing strategy (IFS or others)		X	
X	Other			

Other (specify) (max 30 words)

Strengthening communication and coordination between governmental focal agencies for bilateral and multilateral cooperation and the focal point agency for UNCCD.

Reasons for decreasing

		Not important	Important	Very Important
X	Financing opportunities are not publicised enough, lack of access to necessary information			X
X	Complicated application procedures, the level of complexity being worsened by the different requirements of the various donors			X
X	Limited financial resources are made available for DLDD-related programmes/projects, and lack of DLDD-specific allocations within donors' portfolio.			X
X	Other			X

Other (specify) (max 30 words)

Lack of project document development fund and expertise at national and local level.

Performance indicator CONS-O-18 for Outcome 5.5

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-18 for Outcome 5.5

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties.

Understanding of the indicator

The indicator measures whether access to technology is facilitated by means of financial resources or economic and policy incentives. The indicator will inform to what extent an enabling environment for technology transfer has been created at the national level and whether sufficient resources are dedicated to technology transfer. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on financial resources and type of incentives which have enabled access to technology at the subregional and regional level.

Data needed

Budgets of relevant programmes and projects

Information on policy/regulatory, financial and fiscal incentives. Incentives facilitating access to technology shall be those established and implemented at the national level, not necessarily within the framework of DLDD-related cooperation.

Data sources (indicative only)

Financial documents of programmes and projects submitted as PPSs to the UNCCD as part of the reporting exercise.

National policy, regulatory and economic/financial documents.

Check the glossary for

'technical support', 'incentive', 'PPS'

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Overall targets

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of The Strategy.

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of The Strategy.

Question marked as 'No answer'.

Estimate of amounts allocated to facilitate technology transfer

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Year	Technical support – material aid	Technical support – knowledge aid
2008	USD	USD
2009	0 EUR	0 CNY
2010		
2011		
2012		

2013		
2014		
2015		
2016		
2017		
2018		

Has your country established incentives intended to facilitate access to technology?

Yes

If yes, specify which types of incentives (more than one box can be ticked)

- Policy or regulatory incentives (for example, related to market requirements and regulations, import/export, foreign investment, research & development support, etc)
- Financial incentives (for example, preferential rates, State aid, subsidies, cash grants, loan guarantees, etc)
- Fiscal incentives (for example, exemption from or reduction of taxes, duties, fees, etc)

Question marked as 'No answer'.

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

No answer provided

Standard Financial Annex

D. Standard Financial Annex

The CRIC has recommended that financial reporting be based on a standard financial reporting format to be used by affected country Parties and their development partners. It also indicated that emphasis in reports should be put on financial matters and also on an analysis of the impact of the activities undertaken (ICCD/CRIC(8)/5).

The purpose of the Standard Financial Annex (SFA) is to consolidate information on resources mobilized by affected country Parties and their development partners under the framework of relevant strategies and action programmes. It facilitates the aggregation of data on financial commitments, financial flows and resources available by all relevant funding sources for activities related to the implementation of the Convention. It also helps minimize double counting in financial statistics (ICCD/CRIC(8)/5/Add.4).

The SFA is to be used by each country Party and other reporting entities to list all financial commitments they have made during the reporting period in support of institutions, programmes, projects, as well as other relevant initiatives undertaken at national or international level for the implementation of the Convention.

More specifically, for each relevant financial commitment or allocation made in the reporting period, the SFA requires a minimum set of data grouped as follows:

Identification, i.e. data required to identify the reporting entity, the funding source and the activity financed;

Basic data, i.e. data specifying the amount and type of financial commitment made, as well as the recipient country, region, and/or organization, and the funding period, if applicable;

(c) Classification, i.e. categorization of the funded activity according to the Rio Markers for desertification, and the UNCCD Relevant Activity Codes (RACs).

The compilation of the SFA is guided by means of a template, which responds to the recommendations of CRIC 7, and builds on the GM methodological guide for financial reporting presented to CRIC 6 as part of the report of the intergovernmental Ad Hoc Working Group to improve the procedures for communication of information.

Within the template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by the reporting entities with relevant data or narrative information.

Decision 13/COP.9, paragraph 8, invites country Parties and other reporting entities to refer to common terminology and definitions. Therefore, these guidelines should be read in conjunction with the comprehensive glossary presented in a separate document.

Financial Commitment #1 — Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

No answer provided

Other

- National Bureau to Combat Desertification, State Forestry Administration, P.R.China

Funding Organization

Enter the full name and acronym (if applicable) of the organization that has made the financial commitment

No answer provided

Other

- Central Government and the government of Beijing Municipality, Tianjin Municipality, Hebei, Shanxi province and Inner Mongolia Autonomous Region in China.

Name of activity funded

Enter the name or title of the activity, project, programme, organization or initiative funded with this financial commitment
Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.

Question marked as 'No answer'.

Identification code

Enter the Identification Code (ID), number or acronym given to the activity funded (if known)

No answer provided

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- **China**

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **The departments of forestry, agriculture, water conservancy in the 75 counties of the program scope areas in China.**

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **The departments of forestry, agriculture, water conservancy in the 75 counties of the program scope areas in China.**

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

18/09/2000

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

4120000000 Chinese Yuan Renminbi

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,
Budget Authority (Mandatory)

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

18/09/2000

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

31/12/2012

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

144

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- 5.8 Reforestation/Afforestation
 - 3.2.3 Forest/Scrub Management
 - 3.2.5 Pasture and Range Management
 - 3.2.6 Land Conservation
 - 3.2.7 Water Conservation
 - 3.2.8 Sustainable Land Management

 - **China**
-

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **The Bureau of Three-north Shelterbelt Forest Development, the Forestry Departments (Bureau) of the 13 provinces (autonomous regions) in the three-north region, the Forestry Bureau of Xinjiang Production and Construction Corps in China.**
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **The Bureau of Three-north Shelterbelt Forest Development at national level, the Forestry Department (Bureau) of the 13 provinces (autonomous regions) in the three-north region, the Forestry Bureau of Xinjiang Production and Construction Corps at local level**
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

01/01/2001

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

2892000000 Chinese Yuan Renminbi

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Budget Authority (Mandatory)

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

01/01/2001

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

31/12/2010

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

120

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **3.2.3 Forest/Scrub Management**
 - **2.1.1 Public Awareness Campaigns**
 - **2.1.2 Publications and communication material**
 - **2.1.5 Synergies**
 - **5.8 Reforestation/Afforestation**
 - **2.2.1 Capacity-Building**
-

TA4357

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- **China**
-

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **Ministry of Finance, Central Project Management Office and the local Project Management Office of Shaanxi, Qinghai, Inner Mongolia, Xinjiang, Gansu and Ningxia in China.**
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **State Forestry Administration, Central Project Management Office and the local Project Management Office of Shaanxi, Qinghai, Inner Mongolia, Xinjiang, Gansu and Ningxia in China.**
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

2005

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

8700000 US Dollar

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Grant

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

25/01/2005

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

23/03/2010

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

62

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **2.1.1 Public Awareness Campaigns**
 - **2.1.2 Publications and communication material**
 - **2.1.4 Education**
 - **2.1.3 Consultative platforms**
 - **2.2.1 Capacity-Building**
 - **2.2.10 Resource Management Planning**
 - **2.2.6 Governance and Legislation**
-

Financial Commitment #11 — Integrated Management of Wetland in Zoige Plateau and the Altai Mountains to support biodiversity conservation and sustainable development.

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

No answer provided

Other

- **Wetlands International China**
-

Funding Organization

Enter the full name and acronym (if applicable) of the organization that has made the financial commitment

No answer provided

Other

- **EU-China Biodiversity Program (ECBP)**
-

Name of activity funded

Enter the name or title of the activity, project, programme, organization or initiative funded with this financial commitment

Integrated Management of Wetland in Zoige Plateau and the Altai Mountains to support biodiversity conservation and sustainable development.

Identification code

Enter the Identification Code (ID), number or acronym given to the activity funded (if known)

00057530

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- **Asia**
-

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **The forestry sector of Zoige, Altai in China**
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **Wetlands International China.**
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

06/07/2007

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Grant

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

28/10/2007

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

15/10/2010

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

36

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

1

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

Programme and Project Sheets

E. Programme and Project Sheet

Programme and Project Sheets (PPS) are used to provide more detailed information on programmes or projects undertaken or completed in the reporting period. This includes programmes and projects in the pipeline, as well as final proposals submitted for funding to internal or external funding sources. All country Parties and other reporting entities involved in the financing, coordination or implementation of relevant programmes and projects are requested to prepare a PPS for each of them, and to attach them to their official report to the UNCCD.

The compilation of the PPS is guided by means of a template. These templates are intended to collect a minimum set of qualitative and quantitative data to facilitate the analysis of funding and investment flows, and the production of better financial statistics related to UNCCD implementation (ICCD/CRIC(8)/5/Add.4), with a view to enabling the CRIC to undertake an objective review of progress in the implementation of the Convention and The Strategy. The PPS also facilitate the computation of certain performance and impact indicators.

A distinctive feature of the PPS is that it allows country Parties and other reporting entities to specify which strategic and operational objectives of The Strategy are targeted by each programme or project. In addition, it allows for individual programme or project components to be categorized using the Rio Markers for desertification and Relevant Activity Codes (RACs).

Furthermore, the PPS can be used to indicate whether the objectives of other Rio Conventions (i.e. the UN Convention on Biological Diversity, CBD – and the UN Framework Convention on Climate Change, UNFCCC) are also addressed by the programme or project. This is done through the use of the biodiversity and climate change Rio Markers, respectively.

The PPS offers an opportunity to increase the visibility of relevant programmes and projects, thereby creating the conditions for a better sharing of experiences and lessons, as well as the transfer of knowledge in general. It also favours collaboration and networking by facilitating the identification of potential synergies.

Lastly, the PPS also allows country Parties and other reporting entities to provide a narrative description of the expected or achieved results. This information will facilitate the qualitative assessment of progress in the implementation of The Strategy, including on returns on investment. The CRIC will use the analysis of financial information originating from the PPS to assess results, performance and impacts.

To minimize the reporting burden and avoid discrepancies in the information annexed to the reports of different entities, it is recommended that project partners identify the most suitable ways to coordinate among themselves the preparation of PPS to ensure that consistent data are reported for the same projects. It would also be advisable to compile just one PPS for large “umbrella” programmes, instead of separate PPS for each small project stemming from them.

In the PPS template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by country Parties and other reporting entities with relevant data or narrative information.

Programme/Project #1 — Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.

Title

Enter the Programme/Project title, and sub-title if applicable

Desertification Control Program for Mitigation of Dust and Sand Storm in the Vicinity of Beijing and Tianjin.

Organization(s)

Enter the full name and acronym of the reporting organization

No answer provided

Other

- State Forestry Administration, P. R. China
-

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Implementing agency

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **Sino-Japan Scientific Technology & Economic Exchange Association of the Chinese Academy of Science; Forestry Economics and Development Research Center, State Forestry Administration, P.R.China.**
-

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- **Asia**
 - **China**
 - **Japan**
 - **Democratic People's Republic of Korea**
 - **Republic of Korea**
 - **World**
-

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

17955000 Hectares

Administrative Unit

75 counties

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

- **The farmers and herders of the 75 counties of the program scope areas.**
-

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

16220000

Question marked as 'No answer'.

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

No answer provided

Status

Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

18/09/2000

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)
31/12/2012

Programme/Project co-financing**Source**

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

Central Government and the local government of Beijing Municipality, Tianjin Municipality, Hebei, Shanxi, Inner Mongolia Autonomous Region in China.

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

41200000000 Chinese Yuan Renminbi

Programme/Project Objectives

Indicate the objectives pursued by the Programme/Project, as specified in the related documentation, choosing from the list of purpose codes provided in document (add Quick Reference Guide document title and reference code (please see footnotes above). The OECD list of purpose is also available at the following link : http://www.oecd.org/document/21/0,3343,en_2649_34447_1914325_1_1_1_1,00.html.

No answer provided

Programme/Project Components

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation.

Note: This information should be taken into account in the computation of performance indicator no.

CONS-O-18.

Barren Land Afforestation, cash plant cropping for poverty reduction, integrated rural development, ecological improvement.

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 3.2.3 Forest/Scrub Management
- 3.2.5 Pasture and Range Management
- 3.2.8 Sustainable Land Management
- 5.8 Reforestation/Afforestation

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- afforestation on barren land 22650ha^{FF}_{OC} mountain and degraded land closure 12000 ha.^{FF}_{OC} Cash Forest 1020 ha

Additional Information

F. Additional information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by affected country Parties and consequently to make more targeted and specific recommendations to the COP. It allows affected country Parties to comment or report upon issues that are not covered elsewhere but that are nevertheless of importance at the national level or within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process and on the implementation of NAPs as well as lessons learnt, problems, constraints and bottlenecks faced in terms of human and financial resources. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of affected country Parties within the framework of the Convention, as requested by decision 13/COP.9, paragraph 17.

Reporting process-related issues

Financial resources

Could your country count on sufficient financial resources to meet UNCCD reporting obligations?

No

Provide an estimate of the amount invested from your country's national budget into the UNCCD reporting process.

150000 Chinese Yuan Renminbi

Human resources

How many people were involved in your country in the UNCCD reporting process?

Number of people

43

Estimate the total number of person/day dedicated by these persons to the UNCCD reporting process:

Number of person/day

150

Knowledge

Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations?

No

Coordination

Was coordination with the relevant implementing agencies satisfactory in order to apply for necessary funds?

No

Was coordination at the national level with the relevant line ministries satisfactory in order to comprehensively and coherently report?

No

Participation and consultation

Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process?

Yes

Validation meeting

Was a validation meeting held as a tool to integrate stakeholders in the reporting process?

No

Subregional and regional processes

Did your country actively contribute to the subregional and regional reporting processes?

Yes

PRAIS portal

If you are reporting online, did you receive sufficient training on access and utilization of the PRAIS portal?

Yes

Accommodation of specific requests within COP decisions

Report on specific COP requests – iterative process on indicators

Decision 13/COP.9, paragraphs 2, 3 and 24, envisages an iterative process to refine the set of performance indicators provisionally adopted by the same decision. As a tool to implement this iterative process, affected country Parties can provide here their suggestions and recommendations for improvement.

Tick the cells only when you have experienced difficulties in reporting on one, or more, indicator(s). Indicate against which of the e-SMART criteria the indicator(s) needs to be improved.

Reporting on the implementation of NAP

Which is the percentage of activities included in the NAP that are currently implemented?

91-100%

Human resources

Lessons learnt (report on the 2 most important only)

1

Professionals and technicians in this field are still not adequate.
Average education level of people involving in desertification combating is low.

Overall capacity of the people working in this field is lower.

2

Using integrated approaches, enhancing coordination and cooperation of all stakeholders, taking scientific based countermeasures. Strengthen public education on desertification combating is important.

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

Big area of desertified land, inadequate financial resources for desertification combating. Impacts of climate change on the dryland make desertification combating more difficult.
Unwise land use practices still exist and cause land degradation.

2

Awareness of public on desertification and its global impacts and links with climate change and biodiversity has not been well established. High population pressure and poor rural area.

Financial resources

Lessons learnt (report on the 2 most important only)

1

Well established public investment system for desertification combating to ensure a steadily increased, predictable investment in desertification combating.

2

Co-financing system by central and local governments in financial investment clearly identified responsibilities of various levels in ecological improvement.

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

The total governmental budget is still less comparing to the demand of a big area of desertification affecting the country.

2

The desertified area is poor and under development, the local government could not invest so much for ecological improvement.

Any other country-specific issues

Has your country any specific issue to bring to the attention of the Conference of the Parties?

Yes

If yes, please specify under which of the following broad categories it can be classified.

Category

DLDD and SLM monitoring and assessment/research

Other (specify) (max 30 words)

No answer provided

Narrative description

No answer provided

Best Practices

G. Best practices

According to decision 13/COP.9, Annex V, UNCCD best practices shall be collected according to seven themes: 1. SLM technologies, including adaptation; 2. Capacity building and awareness raising; 3. DLDD and SLM monitoring and assessment/research; 4. Knowledge management and decision support; 5. Policy, legislative, institutional framework; 6. Funding/resource mobilization; 7. Participation, collaboration and networking.

While themes 2 to 7 represent different elements of the enabling environment needed for the implementation and dissemination/up-scaling of sustainable land management (SLM) technologies (indirect impact), theme 1 comprises all actions on the ground that have a direct impact on desertification, land degradation and drought mitigation.

In particular, as specified in document ICCD/CRIC(8)/5/Add.5, paragraph 12, theme 1 'SLM technologies, including adaptation' refers to SLM technologies that directly contribute to the prevention, mitigation and rehabilitation of desertification and land degradation on cropland, grazing land and woodland, with the aim of improving the livelihoods of affected populations and conserving ecosystem services. Successful implementation of SLM technologies is the base for achieving strategic objectives 1, 2 and 3 of The Strategy. Theme 1 also integrates five of the strategic areas defined by decision 8/COP.4, namely: (a) sustainable land use management, including water, soil and vegetation in affected areas; (b) sustainable use and management of rangelands; (c) development of sustainable agricultural and ranching production systems; (d) development of new and renewable energy sources; and (e) launching of reforestation/afforestation programmes/ intensification of soil conservation programmes.

ICCD/CRIC(8)/5/Add.5 provides definitions for 'practice', 'good practice' and 'best practice'. These definitions are included in the common glossary that shall be referred to by Parties and other reporting entities while reporting to UNCCD, according to decision 13/COP.9, paragraph 8.

The template for reporting is based on the general structure for the documentation of best practices contained in ICCD/CRIC(8)/5/Add.5, paragraphs 40 to 43; it is tailored to the documentation of best practices related to theme 1 'SLM technologies, including adaptation'.

Best Practice #1 — Grass Grid Sand Barrier-implemented jointly by governments and farmer households

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Grass Grid Sand Barrier-implemented jointly by governments and farmer households

Location (if available, also include a map)

Naiman Banner, Inner Mongolia

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

81200

Estimated population living in the location

Number of people

376000

Prevailing land use within the specified location

- Cropland
- Grazing land
- Unproductive land

Other (specify) (max 30 words)

No answer provided

Brief description of the natural environment within the specified location

Climate: (max 50 words)

Annual mean temperature: 6.4 degree centigrade,

Annual mean precipitation: 362mm

Growing season: 150 days in succession, from April to September

Soil: (max 50 words)

soil suffers severe desertification,

Soil fertility: very low

Soil texture: coarse sandy

Surface stoniness: low

Topsoil organic matter: low (<1%)

Soil drainage: good

Soil erodibility: high

Soil depth: 0-20cm

Topography: (max 50 words)

Gentle hill, Sand dune

Hill slopes to foot slopes with slope degree from 2-5

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

annual average rural income 3492 CNY per capita in 2007

Main income sources: (max 50 words)

cropping, grazing and off-farm income

Land tenure and land use rights: (max 50 words)

Land ownership: State or collective, Land tenure: state or collective

Short description of the best practice

max 250 words

Under unified organization of local government, farmers and herdsman set grid or row barriers made up of wheat straw or maize stalks in movable sandlot in spring or autumn. Upon completion of the barrier, shrub trees and grass are planted in the grid for re-vegetation. Entry of outsiders and livestock to the project site are banned. The enclosure may be relieved in June to October to allow pasturing according to vegetation restoration condition. Three years after barrier constructed, the planted materials may perish into manure and vegetation is formed and plays a good sand fixation effect.

Central government and local government provide financial subsidies for the activities; farmers participate in the projects process and are subsidized for labor input in establishing, maintenance and management of

the land.

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

Ecological effectiveness: Quick and effective in fixation of the big shifting sand dunes.

Partnership building for ecological improvement: Governmental input from both central and local shares financial resources burden of local in ecological improvement, divided ecological improvement responsibilities to all possible beneficiaries both local and large public beyond.

low cost of farmer, free labour input and adequate barrier material such as wheat straw, maize stalk.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- **Prevention**
 - **Mitigation**
 - **Rehabilitation**
-

Main problems addressed by the best practice

(max 50 words)

- **- Serious land sandification and pasture degradation on-going;**
 - Sand dune encroachment to farmland, pasture, traffics and houses and emergence of ecological refugees**
 - farmers' technical knowledge of installing sand barrier is insufficient;**
 - inadequate financial support for ecological improvement;**
-

Outline specific land degradation problems addressed by the best practice

max 100 words

Drifting sand dune development, sandy desertification, wind erosion of grazing and cropping,

Specify the objectives of the best practice

(max 50 words)

- **- restrain dune movement and improve ecological quality;**
 - form steady project financing source;**
 - raise awareness of communities in the field of ecological protection;**
 - Raise the capability of community in sand control and prevention**
-

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- **1) Meeting with farmers to locate project site and mobilize local participation;**
- **2) Project design and training farmers by forestry bureau**

3) Building barriers

4) Maintenance and protection

5) Research by the work station of forestry on the effectiveness of the barriers to improve the technique

Objective 2

(max 50 words)

- -form steady project financing source;

Setting cost sharing system: 73% from Banner government, 20% from central government input through Three-North Shelterbelt Programme (Phase IV) to cover cost of seedlings, straws, transportation and maintenance, 7% provided by land users in kind of labour.

Objective 3

(max 50 words)

- - raise awareness of communities in the field of ecological protection;

Farmers meeting organized by the township government Training for local farmers by forest bureau

Objective 4

(max 50 words)

- - Raise the capability of community in sand control and prevention

Training and field technical guidance

Short description of the technology

max 250 words

The technical steps encompass: 1) set grid or row barriers made up of wheat straw or maize stalks in movable sandlot in spring or autumn. Linear barrier should be configured perpendicular to the wind direction in the sandlots where reciprocating wind or singular direction wind is prevailing; 2) upon completion of the barrier, plant trees and grass in the grid: yellow willow (*Salix gordeivii*) 0.3m×1.5m in spacing. The cuttings should be prepared before March and stored in sand, and planted immediately after being prepared in autumn. The size of cuttings is at 40cm in length. Remove dry sand and dig a hole in a depth levelling with the surface, then cuttings are planted; and 3) due protection shall be conducted after barrier is set and trees are planted to ban the entry of outsiders and livestock. Coppicing of the yellow willow is conducted five years later. The project site enclosure may be relieved in June thru October to allow pasturing according to vegetation restoration condition.

Technical specifications of the technology - if any

max 250 words

Grid barrier suit large area of movable dunes with uncertain wind directions with the size in 1.5x1.5m grid and 20cm outcropping above ground. Yellow willow (*Salix gordeivii*) 0.3m×1.5m in spacing

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

The techniques have been widely used for several decades in various forms.

It is invented by the Shapotou Experimental Station of the Chinese Academy of Science.

The case in Naiman banner is compiled by Mr. LI Chunying and Tian Lu, Forestry Department of Inner Mongolia Autonomous Region.

Address

No 23, Xinjian Dong str. Huhot city, Inner Mongolia Autonomous Region, China

Was the technology developed in partnership?

Yes

If yes, list the partners:

- Central government key program, local county government, forestry bureau, township government and local farmers

Specify the framework within which the technology was promoted

- Local initiative
- National initiative – government-led
- Programme/project-based initiative

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology

Yes

If yes, list local stakeholders involved:

- Forestry Bureau
Local forestry service station,
village Committee,
Farmers

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.

max 250 words

Forestry Bureau: Planning, designing and formulation operation manual, technical Training for farmers,
Forestry Service Station: Field technical guidance, specific study on effectiveness of the barrier and its improvement

Township government and village committee: mobilizing farmers participation and organizing implementation, consulting farmers for project site selection, barrier establishment and maintenance

Farmers: participation in planning and design of the implementation, labor input, maintenance and follow-up sustainable use of shrubs.

Was the population living in the location and/or nearby involved in the development of the technology?

Yes

If yes, by means of what?

- Consultation
- Participatory approaches

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- 1. To improve the living conditions of affected population
 - 2. To improve the conditions of affected ecosystems
 - 3. To generate global benefits through effective implementation of the UNCCD
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

has improved ecological condition enable a steady farming condition and better living condition of local residents.

2. (max 50 words)

has improved vegetation provides good basis for livestock development.

Socio-economic level (including cultural level):

1. (max 50 words)

Has increased farmers awareness of and participation in local ecological improvement.

2. (max 50 words)

Local farmers get payment for saling of straw and maintainance of the project area.

Environmental level:

1. (max 50 words)

Sand dune fixation locks encroachment of drafting sand to grassland and helps restoration of vegetation.

2. (max 50 words)

It has reduced wind erosion and dust particles in air, improved ecological condition.

Other (specify)

1. (max 50 words)

In crease of vegetation provide habitats for wild brids, insects and rodent animals. Biodiversity is improved.

2. (max 50 words)

Restored vegetation coverage has increased bio-carbon stored in shrubs and grass and made contribution to green house gas emission reduction.

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

Fixation of sand reduce physical contribution to dust and sand storm affecting northern China and beyond.

2. (max 50 words)

Provide stop stone for migratory birds.

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

The restored vegetation provide habitat for wild animals and plants.

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

No answer provided

Explain the reasons:

max 250 words

Increase of the biomass of vegetation increases carbon storage in plants above ground and under the

ground.

Reduced wind erosion reduces the soil organic carbon loss in process of land degradation

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

No answer provided

Explain the reasons:

max 250 words

No answer provided

Has a cost-benefit analysis been carried out?

Yes

If yes, summarize its main conclusions:

max 250 words

Analysis according to the land users:

It is a quick, effective and low cost technique to fix sand dune and restore vegetation with central and local governmental input.

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- Capacity-building and awareness-raising
 - Funding/resource mobilization
 - Participation, collaboration and networking
-

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

Yes

If yes, where? (add as many rows as necessary)

Location:

- Ningxia and Inner Mongolian
-

Were incentives to facilitate the take up of the technology provided?

Yes

If yes, specify which type of incentives

- Financial incentives (for example, preferential rates, State aid, subsidies, cash grants, loan guarantees, etc)
 - Fiscal incentives (for example, exemption from or reduction of taxes, duties, fees, etc)
-

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

Highly motivated local governments, farmers organized into well structured cooperatives

2. (max 50 words)

Barrier material is local produced and adequate. Weather is favorable to cuttings of Salix to generating roots.

3. (max 50 words)

Financial resources sharing among central, local governments and farmers and clear responsibility allocation of forestry department and township government.

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- **International**
-

Section 8. Lessons learned

Related to human resources

(max 50 words)

- **High labour intensity practices limited extension in less populated area. Introduce mechanical method could facilitate dissemination.**
-

Related to financial aspects

(max 50 words)

- **No direct economic returns of the technology in short term, governmental input is the key for the practices in place. In long term, revegetated land management could combined with sustainable pruning harvesting shrub twig and its processing.**
-

Related to technical aspects

(max 50 words)

- **Quick, easy and high effectiveness for sand fixation, combined with cuttings planting is even better.**
