

United Nations Convention to Combat Desertification

Performance Review and Assessment of Implementation System

4th Reporting and Review Cycle - 2010

Report for Lebanon

Table of Contents

- Performance Indicators
 - Operational Objective 1: Advocacy, awareness raising and education
 - Performance indicator CONS-O-1 for Outcome 1.1
 - Performance indicator CONS-O-3 for Outcome 1.3
 - Performance indicator CONS-O-4 for Outcome 1.3
 - Operational Objective 2: Policy framework
 - Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3
 - Performance indicator CONS-O-7 for Outcome 2.5
 - Operational Objective 3: Science, technology and knowledge
 - Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2
 - Performance indicator CONS-O-9 for Outcome 3.1 and 3.2
 - Performance indicator CONS-O-10 for Outcome 3.3 and 3.4
 - Performance indicator CONS-O-11 for Outcome 3.5
 - Operational Objective 4: Capacity building
 - Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2
 - Operational Objective 5: Financing and technology transfer
 - Performance indicator CONS-O-14 for Outcome 5.1
 - Performance indicator CONS-O-16 for Outcome 5.2
 - Performance indicator CONS-O-17 for Outcome 5.3
 - Performance indicator CONS-O-18 for Outcome 5.5
- Standard Financial Annex
 - Financial Commitment #1 — Mainstreaming biodiversity management into Medicinal and Aromatic Plants Production Process in Lebanon
 - Financial Commitment #2 — Toward a national plan for Forest Fire Management in Lebanon.
 - Financial Commitment #3 — Lebanese Network of Protected Areas
 - Financial Commitment #4 — GEF Small Grants Program
 - Financial Commitment #5 — Environment Fund for Lebanon (phase1)
 - Financial Commitment #6 — Environment Fund for Lebanon (phase2)
 - Financial Commitment #7 — Development of Skills and tools for the sustainable Management and Preservation of Forestry Resources and the rural communities in Syria and Lebanon (phase1)
 - Financial Commitment #8 — Development of Skills and Tools for the sustainable Management and Preservation of Forestry Resources and the rural communities in Syrian and Lebanon (phase2)
 - Financial Commitment #9 — Mainstreaming conservation of migratory soaring birds into Key Productive sectors along the Rift Valley/Red Sea flyway
 - Financial Commitment #10 — Restoration and Conservation of Sensitive Forest Areas in Lebanon.
 - Financial Commitment #11 — Management and Sustainable Development of Forest Areas in Andket North Lebanon.
 - Financial Commitment #12 — Toward a National Strategy to Combat Forest Fires.
 - Financial Commitment #13 — Local Action Plan for fire fighting.
 - Financial Commitment #14 — Developing National Mascot for Forest Conservation
 - Financial Commitment #15 — Promotion of Innovative Trade Initiatives to increase Market Opportunities for Dryland Products.
 - Financial Commitment #16 — Flood Risk Management and water harvesting for livelihood Recovery in Baalbeck-EI-Hermel (phase1)
 - Financial Commitment #17 — Flood Risk Management and Soil Conservation for Livelihood Recovery in Baalbeck-EI-Hermel (phase2)
 - Financial Commitment #18 — Integrated Forest Fires management- Forest fires prevention, forest fires fighting (control) and damaged forests assessment and rehabilitation.~~~
 - Financial Commitment #19 — Early Recovery assistance for the horticulture smallholders.
 - Financial Commitment #20 — Early Recovery assistance to war-affected, resource-poor livestock

- Keepers in South Lebanon.~~~
- Financial Commitment #21 — Sustainable Land Management Programme for Livelihood Development in Lebanon.
- Programme and Project Sheets
 - Programme/Project #1 — Mainstreaming Biodiversity Management into Medicinal and Aromatic Plants Production Process in Lebanon
 - Programme/Project #2 — Toward a national plan for forest fire management in Lebanon.
 - Programme/Project #3 — Lebanese Network of Protected Areas
 - Programme/Project #4 — GEF Small Grants Program
 - Programme/Project #5 — Environment Fund for Lebanon(phase 1)
 - Programme/Project #6 — Environment Fund for Lebanon (phase 2)
 - Programme/Project #7 — Development of Skills and Tools for the Sustainable Management and Preservation of Foresty Resources and the Rural Communities in Syria and Lebanon.(phase1)
 - Programme/Project #8 — Development of Skills and Tools for the Sustainable Management and Preservation of Forestry Resources and Rural Communities in Syria and Lebanon.(phase2)
 - Programme/Project #9 — Mainstreaming conservation of migratory soaring birds into Key Productive sectors along the Rift Valley/Red Sea flyway.
 - Programme/Project #10 — Restoration and Conservation of Sensitive Forest Areas in Lebanon.
 - Programme/Project #11 — Management and Sustainable Development of Forest Areas in Andket North Lebanon.
 - Programme/Project #12 — Toward a National Strategy to Combat Forest Fires
 - Programme/Project #13 — Local action plan for fire fighting.
 - Programme/Project #14 — Developing National Mascot for Forest Conservation.
 - Programme/Project #15 — Promotion of Innovative Trade Initiatives to Increase Market Opportunities for Dryland Products.
 - Programme/Project #16 — Flood Risk Management and Water harvesting for Livelihood Recovery in Baalbeck-El-Hermel.(phase I)
 - Programme/Project #17 — Flood Risk Management and Soil Conservation for Livelihood Recovery in Baalbeck-El-Hermel.(phase II)
 - Programme/Project #18 — Integrated Forest fires management- forest fires prevention, forest fires fighting (control) and damaged forests assessment and rehabilitation.~~~
 - Programme/Project #19 — Early recovery assistance for the horticulture smallholder.
 - Programme/Project #20 — Early Recovery assistance to war-affected, resource-poor livestock Keepers in South Lebanon.~~~
 - Programme/Project #21 — Sustainable Land Management Programme for Livelihood Development in Lebanon.
- Additional Information
 - Reporting process-related issues
 - Accommodation of specific requests within COP decisions
 - Reporting on the implementation of NAP
 - Human resources
 - Financial resources
 - Any other country-specific issues
- Best Practices
 - Best Practice #1 — Sustainable management of wild stocks of aromatic and medicinal plants (MAP) in Lebanon
 - Best Practice #2 — Promotion of industrial Hemp in the framework of Sustainable Land Management Programme for Livelihood Development in Lebanon
 - Best Practice #3 — Sustainable land management and contribution to poverty alleviation in drylands in the Baalbak-Hermel region
 - Best Practice #4 — Flood Risk Management and Water Harvesting for Livelihood Recovery in Baalback-Hermel

GENERAL INFORMATION ON THE REPORTING ENTITY	
Reporting country *	Lebanon
Name and surname of the person submitting the report *	Hussein Nasrallah
Affiliation and contact details *	studies@agriculture.gov.lb

Performance Indicators

C. Performance indicators

Performance indicators are for measuring progress against the five operational objectives of The Strategy, in line with decision 3/COP.8. The year 2008 (the first year of the Strategy) serves as the baseline year.

Affected country Parties are requested to report on the following fourteen performance indicators out of the eighteen consolidated performance indicators presented in ICCD/CRIC(8)/5/Add.1 and Add.2.

Reporting is guided by means of templates, one for each performance indicator. Within the templates, shaded areas contain information and explanatory texts and white areas are for reporting purposes and need to be filled in by affected country Parties with relevant quantitative data, selection of multiple choice boxes, or narrative information.

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Number and size of information events organized on the subject of DLDD and/or DLDD synergies with climate change and biodiversity, and audience reached by media addressing DLDD and DLDD synergies.

Understanding of the indicator

At the national and local level, the indicator measures the performance of Convention-related communication strategies, in particular, whether DLDD issues and synergies are being communicated and if so, whether the communication is considered to be effective. Effectiveness is assessed through the appraisal of the media campaigns carried out; the assumption is that the stronger the media campaigns on DLDD issues and synergies, the higher the probability of passing the messages on to the target audience. The focus of the indicator is on information activities specifically dedicated to DLDD and/or DLDD synergies with climate change and biodiversity. Other reporting entities will complement the information provided by affected country Parties by reporting on Convention-related communication strategies at subregional, regional and global level.

Data needed

Information on events/media specifically addressing DLDD and/or DLDD synergies with climate change and biodiversity.

Attendance lists of events (meetings, workshops, seminars), programmes/projects' documents, estimate of target audience for major media events (campaigns, radio and television programmes, etc.).

Events organized and media produced by the UNCCD NFP or organized/produced by third parties not directly reporting to the Convention (TV channels, newspaper editors, etc.) shall be considered.

Data sources (indicative only)

International and national media (newspapers) advertising the events at national and local level, the Internet, the organizers of the events, programmes/projects' final reports.

Check the glossary for

'NFP', 'ICT', 'Information events', 'Media products', 'STIs', 'CSOs'

Media products have been grouped into: (a) Paper media products (articles, press releases, leaflets, flyers, brochures and comics, etc.); (b) radio and television programmes; (c) other ICT (websites, CDs, DVD, etc.).

Overall target

By 2018, 30 per cent of the global population is informed about DLDD and DLDD synergies with climate change and biodiversity

Number of information events

Year	Number of information events	Estimated number of participants in the information events
2008	50	500000
2009	50	500000

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **The information is based on the number of media (newspapers, magazines, TV, radio), each media offering one yearly event on the issues related to DLDD, and on the average number of audience/users of the media. Active NGOs are organising yearly events and printing flyers and information notes.**

Attachments:

none

National contribution to the target

On the basis of the information you have provided above, estimate the proportion (%) of the population in your country which is informed about DLDD and DLDD synergies with climate change and biodiversity at the time of reporting?

Estimated share of total country population =
20 %

Qualitative assessment

Is the information you have provided on communication processes part of a national communication strategy addressing environmental issues?

No

Performance indicator CONS-O-3 for Outcome 1.3

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-3 for Outcome 1.3

Number of CSOs and science and technology institutions participating in the Convention processes.

Understanding of the indicator

At the national level, the indicator measures the level of participation of civil society organizations (CSOs) and science and technology institutions (STIs) in DLDD-related programmes and projects. The indicator will outline whether the active involvement of these stakeholders in country-based initiatives increases over time and whether programmes/projects are valid tools for the engagement of, and receiving contributions from, CSOs and STIs at the field level. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level; in particular, the secretariat and the GM will report on the involvement of CSOs and STIs at the institutional level.

Data needed

The specification of the organizations involved in the programmes/projects as reported in the PPSs.

Data sources (indicative only)

PPSs submitted to the UNCCD as part of the reporting exercise.

Check the glossary for

'STIs', 'CSOs', 'PPS', 'Convention processes'

Overall target

A steady growth in the participation of CSOs and science and technology institutions in the Convention processes is recorded along the implementation period of The Strategy.

In the PPSs you have specified the number of CSOs and the number of STIs involved in each programme/project. Add these numbers and give the totals by year in the table below.

Year	Number of CSOs involved in DLDD-related programmes/projects	Number of STIs involved in DLDD-related programmes/projects
2008	4	1
2009	4	1
2010		
2011		
2012		
2013

2015		
2016		
2017		
2018		

Sources of information

Programme and project sheets (PPSs) submitted to UNCCD

No answer required

National contribution to the target

At the time of reporting, is your government undertaking concrete initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects?

Yes

Qualitative assessment

Specify the reasons for the increasing and/or decreasing trend of the participation of CSOs and STIs to DLDD-related programmes/projects. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very important
Increased networking and collaboration opportunities			
Increased access to information and to national and/or international financing opportunities			
Increased willingness of the government in working with CSOs			
Increased interest of donors in working with CSOs			
Strengthened organizational, project management and fund-raising capacity of CSOs			
Increased funding opportunities requiring partnership with the STIs			
Strengthened organizational, project management and fund-raising capacity of the STIs			
Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for CSOs

	Not important	Important	Very important
Costly participatory processes			
Low organizational, fund-raising and project management capacity of CSOs			
Government policies and/or the legal environment do not foster the engagement of CSOs			
Diminishing funding			
Other			

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for STIs

	Not important	Important	Very important
DLDD topics are not prioritized by national STIs			
Low organizational, fund-raising and project management capacity of STIs			
Decreased networking opportunities at national and international level			
Diminishing funding			

Other (specify) (max 30 words)**No answer provided****Performance indicator CONS-O-4 for Outcome 1.3***Operational Objective 1: Advocacy, awareness raising and education**Performance indicator CONS-O-4 for Outcome 1.3**Number and type of DLDD-related initiatives of CSOs and science and technology institutions in the field of education.**Understanding of the indicator*

The indicator measures the number and type of DLDD-related initiatives undertaken by CSOs and STIs in the education sector at the national level. The assumption is that the higher the number of DLDD-related education initiatives undertaken by these stakeholders, the stronger their interest in addressing DLDD problems. A distinction is made between activities carried out in the formal education sector and in the non-formal education sector. This indicator focuses on "education" because "awareness" and "advocacy" are already measured through indicators CONS-O-1 and CONS-O-2, respectively. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level.

Data needed

Information on initiatives undertaken in the field of education that may be found in: written communications by CSOs and STIs to the NFP; contractual and/or programme/project-related documents; records of academic bodies and their curricula.

Only initiatives in the field of education (formal and non-formal) directly relating to DLDD issues are to be considered.

Data sources (indicative only)

CSOs and STIs operating in the country.

Check the glossary for

'CSOs', 'STIs', 'NFP', 'Formal education', 'Non-formal education'.

Overall target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and science and technology institutions is recorded along the implementation period of The Strategy

Number of DLDD-related initiatives undertaken

Year	Number of DLDD-related initiatives undertaken by CSOs formal education	Number of DLDD-related initiatives undertaken by CSOs non-formal education	Number of DLDD-related initiatives undertaken by STIs formal education	Number of DLDD-related initiatives undertaken by STIs non-formal education

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of NAPs/SRAPs/RAPs aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks.

Understanding of the indicator

At the national level, the indicator measures the performance of affected country Parties in formulating or revising their NAPs in alignment with The Strategy. While providing information on this process, the indicator also outlines whether: (a) the analysis of DLDD drivers, barriers to possible solutions, and measures that may eventually overcome these barriers, has been carried out; (b) the alignment process has been supported by biophysical and socio-economic baseline information; (c) the action programmes have been included in integrated investment frameworks; and (d) the action programmes have been integrated with other existing national plans and policies. The indicator will inform on the extent to which Parties have responded to decision 3/COP.8, paragraph 45, and on the feasibility of assessing the progress of The Strategy over its implementation period (2008–2018). Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on formulation or revision of SRAPs and RAPs in alignment with The Strategy.

Data needed

UNCCD NAP. Only a NAP formally approved by the relevant governmental authorities is to be considered as 'finalized'. Other relevant planning documents.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'Finalized', 'NAP', 'NFP', 'driver', 'barrier', 'integrated investment framework', 'baseline'

Overall target

By 2014, at least 80 per cent of affected country Parties, subregional and regional entities have formulated/revise a NAP/SRAP/RAP aligned to The Strategy.

NAP Adoption and Revision

Had your country already adopted a NAP prior to The Strategy?

Yes

If yes, has your country revised the NAP in alignment with The Strategy?

No

If you have revised the NAP in alignment with The Strategy, specify the date of its approval.

No answer provided

If you have not revised the NAP in alignment with The Strategy, specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

		Not important	Important	Very Important
X	Not a priority for the government	X		
X	Lack of capacities		X	
X	Lack of financial resources			X

X	Understaffing			X
X	Lack of time		X	
X	Poor internal coordination among relevant ministries			X
	Other			

Other (specify) (max 30 words)

No answer provided

If your country had no NAP adopted prior to The Strategy, have you formulated an aligned NAP after The Strategy's adoption in 2008?

No answer provided

If yes, specify the date of its approval.

No answer provided

If at the time of reporting you have not formulated a NAP aligned to The Strategy specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very Important
Not a priority for the government			
Lack of capacities			
Lack of financial resources			
Understaffing			
Lack of time			
Poor internal coordination among relevant ministries			
Other			

Other (specify) (max 30 words)

No answer provided

The questions below apply only to those countries having a NAP aligned to The Strategy

If you have a NAP, is it supported by biophysical and socio-economic baseline information?

No answer provided

If you have a NAP, does it assess DLDD drivers?

No answer provided

If you have a NAP, does it assess the barriers to sustainable land management?

No answer provided

If yes, does the NAP include recommendations to remove these barriers?

No answer provided

If you have a NAP, has it been included into an integrated investment framework?

No answer provided

If you have a NAP, has it been integrated into national development planning and relevant sectoral and investment plans and policies?

No answer provided

If yes, has the NAP been integrated into your country's Poverty Reduction Strategy Paper?

No answer provided

Did you refer to the Guidelines on the alignment of action programmes with The Strategy as proposed in ICCD/COP(9)/2/Add.1 while developing or reviewing your action plan?

No answer provided

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

No answer provided

Attachments:

none

National contribution to the target

If you do not have an approved NAP aligned to The Strategy at the time of reporting, when do you plan to have it developed and approved?

2010-11

Qualitative assessment

Has the formulation and/or alignment of the NAP been supported by external assistance?

No

If yes, did you receive assistance from one or more of the following institutions? (more than one box can be ticked)

No answer provided

If yes, which type of assistance did you receive?

No answer provided

Identify the major difficulties experienced in the formulation/alignment process (tick as many boxes as necessary and rate the level of importance).

	Not important	Important	Very Important
Not a priority for the government			
Poor availability of biophysical and socio- economic baseline information			
Existing investment frameworks are not fully compatible with the NAP			
Streamlining the NAP into existing plans and policies is too time-consuming			
Other			

Other (specify) (max 30 words)

Lebanon has benefited of financial, technical and capacity building supports during the elaboration process of the NAP, prior to 2008. A request will soon be submitted to different institutions to provide assistance for the updating of the NAP and its alignment to the Strategy.

Performance indicator CONS-O-7 for Outcome 2.5

Operational Objective 2: Policy framework

Performance indicator CONS-O-7 for Outcome 2.5

Number of initiatives for synergistic planning/programming of the three Rio Conventions or mechanisms for joint implementation, at

all levels.

Understanding of the indicator

The indicator measures the existence of synergistic processes through the number of instruments (i.e. joint planning/programming and/or operational mechanisms) in place at the national level which foster the introduction of or strengthen the mutually reinforcing measures among the three Rio Conventions. The assumption is that the higher the number of enabling instruments in place, the higher the possibility of achieving synergies in implementation. This information will be complemented by the reporting of other reporting entities on synergistic processes at the subregional, regional and global level.

Data needed

Planning/programming documents and legislative/regulatory documents.

Only operational mechanisms which have the achievement of joint implementation, synergies, convergence, and the introduction or strengthening of reinforcing measures among the Rio Conventions clearly stated in their objectives shall be considered under this indicator.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

“Joint planning/programming initiatives”, “Operational mechanisms for joint implementation or mutual reinforcement”

For an indicative list of activities by Parties to promote synergies among the Rio Conventions, refer to [target=' blank'>UNEP/CBD/COP/DC/IX/16, Annex II](#)

Overall target

By 2014, each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio Conventions

Are you implementing joint planning/programming initiatives for the three Rio Conventions?

No

If yes, specify the type of joint initiative(s) (tick as many boxes as necessary)

No answer provided

Other (specify) (max 30 words)

No answer provided

Do operational mechanisms for joint implementation or mutual reinforcement exist in your country?

No

If yes, specify the type of mechanism(s) (tick as many boxes as necessary)

No answer provided

Other (specify) (max 30 words)

No answer provided

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **Information provided by the National Focal Point of the UNCCD**

Attachments:

none

National contribution to the target

If your country is not implementing joint planning/programming or does not have operational mechanisms in place at the time of reporting, when do you plan to have something ensuring synergies in place?

No plan exists yet

Qualitative assessment

Has the establishment of synergistic processes for joint implementation of the Rio Conventions at national level been supported by the institutions of the Rio Conventions?

No

If yes, by which Convention? (more than one box can be ticked)

No answer provided

Identify the major difficulties experienced to establish synergistic planning/programming or mechanisms for joint implementation (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
X	Not a priority for the government			X
X	Lack of capacities			X
X	Lack of financial resources		X	
X	Understaffing			X
X	Lack of time	X		
X	Poor internal coordination among relevant ministries			X
	Other			

Other (specify) (max 30 words)

The UNCCD is hosted by the Ministry of Agriculture, while both the CBD and the UNFCCC are hosted by the Ministry of Environment. Coordination among both ministries at all levels and in all issues of common interest (reforestation, protected areas...)is very weak.

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional /regional monitoring system for DLDD.

Understanding of the indicator

At the national level, the indicator measures the monitoring potential of the country by quantifying the number of monitoring systems established and supported. These monitoring systems may be specifically or partially (in the case of environmental monitoring systems) dedicated to UNCCD reporting. The indicator will inform on the extent to which it is realistic to expect more regular and coherent reporting by affected country Parties during the implementation of The Strategy and beyond. This information will be complemented by the reporting of other reporting entities on UNCCD-relevant monitoring systems established and supported at the subregional, regional and global level.

Data needed

Information on monitoring systems established within the national Ministries or other bodies/institutions.

Programmes/projects' documents, fiches and summary sheets, programmes/projects' interim or final reports.

Only those monitoring systems storing all or most of the information needed for reporting to the UNCCD shall be considered.

Data sources (indicative only)

Relevant national ministries, programme/project management units, other non-governmental initiatives.

Check the glossary for

'monitoring system', 'vulnerability'

Overall target

By 2018, at least 60 per cent of affected country Parties, subregional and regional reporting entities have established and supported national monitoring systems for DLDD

Is a monitoring system for DLDD established at the national level?

No

If yes, specify whether this system is: Functional

No answer provided

If yes, specify whether this system is: Regularly Updated

No answer provided

If no DLDD-specific monitoring system is in place, is an environmental monitoring system partially covering DLDD established at the national level?

Yes

List any monitoring system available at the sub- national level that can contribute to the UNCCD reporting (add as many rows as necessary).

- **Protected Areas have established monitoring systems providing information on local fauna and flora, number of visitors, awareness raising and educational activities.**
- **The ministry of agriculture has recently launched the agricultural observatory that will be collecting and disseminating information on agriculture, land use and land cover. Information will be available as of 2011.**
- **The desertification monitoring system that was put in place in the MoA (GTZ-ACSAD-MoA) is no longer functional.**

- The National Center for Scientific Research - National Center for Remote Sensing is monitoring yearly snow packs, land slides, ground water and climate. The center's capacities in terms of dissemination of the information are limited.

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- Information on protected areas is provided by the managers of the PAs. Information on the observatory and the MoA is provided by the National Focal Point, Director of Studies and Coordination at the MoA.

Attachments:

none

National contribution to the target

If your country does not have a national monitoring system partially or totally dedicated to DLDD in place at the time of reporting, do you plan to initiate one?

Yes

If yes, when?

2010-11

Qualitative assessment

For those countries not having a national monitoring system totally or partially dedicated to DLDD, identify the major difficulties experienced in the establishment process (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very important
X	Financial constraints			X
X	Lack of capacities		X	
X	Human resources constraints		X	
X	Lack of coordination among relevant ministries and unclear attribution of responsibilities			X
X	Lack of coordination among donor-led programme/project interventions			X
X	Existing initiatives are too fragmented; cannot be realistically coordinated under one umbrella.			X
X	Existing national and/or sub-national monitoring systems use different methodologies and cannot be realistically harmonised		X	
	Other			

Other (specify) (max 30 words)

No answer provided

For those countries having a national monitoring system totally or partially dedicated to DLDD, how is the system maintained? (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very important
By means of national resources			
By means of external support			
No maintenance is possible due to limited professional capacities			

No maintenance is possible due to limited financial resources

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Number of affected country Parties, subregional and regional entities reporting to the Convention along revised reporting guidelines on the basis of agreed indicators

Understanding of the indicator

The indicator measures the use of biophysical and socio-economic information at the national level in defining a commonly agreed core set of impact indicators for the UNCCD and in monitoring progress against these indicators using harmonized methodologies.

The indicator will inform to what extent it is possible to compile a comparable and global assessment of UNCCD impact.

Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the use of impact indicators at the subregional and regional levels, if and when impact indicators for these levels will be commonly agreed upon by the Conference of the Parties.

Data needed

Reports to the UNCCD by affected country Parties in 2012 and 2016.

The information to report on this indicator will be compiled by affected country Parties every four years when reporting on the strategic objectives that require biophysical and socio-economic information (i.e. SO1, SO2 and SO3). Reporting on this indicator is due in 2012 and in 2016 only.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NFP'

Overall target

By 2018, at least 90 per cent of affected country Parties, subregional and regional reporting entities report to the Convention in compliance with the new reporting guidelines.

Has your country reported on the two impact indicators considered by decision 13/COP.9 to be the minimum reporting requirement?

No answer required for this indicator in the 2010 reporting cycle

Number of impact indicators for strategic objectives 1, 2 and 3 your country has reported on in 2012 and 2016

2012

No answer required for this indicator in the 2010 reporting cycle

2016

No answer required for this indicator in the 2010 reporting cycle

While reporting on impact indicators, did you refer to the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST?

No answer required for this indicator in the 2010 reporting cycle

Sources of information

Specify the sources used to extract the information provided above (add as many rows information as necessary). If reporting online, you may also upload relevant documents.

No answer required for this indicator in the 2010 reporting cycle

National contribution to the target

If in 2012 your country has not reported on some or all of the impact indicators for the UNCCD, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

If in 2012 your country has not complied with the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

Qualitative assessment

Identify the major difficulties experienced in reporting against the impact indicators:

No answer required for this indicator in the 2010 reporting cycle

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity.

Understanding of the indicator

The indicator measures knowledge-transfer processes from the theoretical to the operational level. This is done through an assessment carried out by affected country Parties (self-assessment) of the levels of traditional and scientific knowledge reflected in their NAPs. The assumption is that NAPs based on sound scientific and traditional knowledge will propose more significant and effective strategies and activities for implementation at the national level, and will, ultimately, perform better than those NAPs that do not take into account available knowledge on DLDD and DLDD synergies. The indicator will inform to what extent UNCCD implementation is likely to achieve meaningful results. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the assessment of their SRAPs and RAPs.

Data needed

NAP aligned to The Strategy.

Scientific literature consulted for the development of the NAP.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NAP', 'NFP', 'driver'

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

Overall target

By 2018, at least 70 per cent of revised NAPs/SRAPs/RAPs have successfully gone through a quality self-assessment.

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

In your NAP, is the identification of biophysical and socio-economic drivers, and of their interaction, knowledge-based?

No

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

No answer provided

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

No answer provided

In your NAP, is the analysis of the interaction between drought mitigation and restoration of degraded land and climate change mitigation/ adaptation or biodiversity conservation knowledge-based?

No

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

No answer provided

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

No answer provided

Is drought mitigation analyzed and/or reflected in some of the actions outlined in the NAP?

No

Attachments:

Performance indicator CONS-O-11 for Outcome 3.5

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-11 for Outcome 3.5

Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website.

Understanding of the indicator

The indicator measures the presence at the national level of DLDD-related knowledge-sharing processes, through the quantification of the type and number of existing knowledge-sharing systems. Effectiveness of these systems is measured through quantification of their user-base. The indicator will inform to what extent scientific and traditional knowledge, including best practices, are available to and sufficiently shared with end-users. This information will be complemented by the reporting of other reporting entities on existing UNCCD-relevant knowledge-sharing systems at the subregional, regional and global level.

Data needed

Information from websites.

Only DLDD-relevant knowledge-sharing systems and networks shall be considered.

Data sources (indicative only)

Relevant organizations at the national level, relevant national ministries hosting knowledge-sharing systems and networks within their websites.

Check the glossary for

'knowledge-sharing system', 'PRAIS'

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of NCSA or other methodologies and instruments

Understanding of the indicator

At the national level the indicator measures the presence of capacity-building processes through the quantification of existing major capacity-building initiatives. The indicator will inform to what extent affected country Parties may be expected to meet their obligations foreseen by the Convention, including forthcoming ones (i.e. new reporting requirements, establishment of environmental monitoring systems, accessing new financing mechanisms). This information will be complemented by the reporting of other reporting entities on existing UNCCD-related capacity-building initiatives at the subregional, regional and global level.

Data needed

Information on DLDD-related capacity building initiatives.

Only major capacity-building plans/programmes/projects mentioned in the PPSs are to be considered.

Data sources (indicative only)

PPSs submitted to UNCCD as part of the reporting exercise

Programmes/projects' documents, fiches and summary sheets, interim or final reports of those programmes and projects identified through the PPSs as having DLDD-related capacity-building as a major objective.

Check the glossary for

'NCSA', 'PPS'

Overall target

By 2014, at least 90 per cent of affected country Parties, sub-regional and regional reporting entities implement DLDD specific capacity building plans or programs or projects.

Number of DLDD-related capacity building initiatives undertaken

Identify, if any, relevant programmes and projects through the PPSs and check corresponding programmes/projects' documents, fiches and summary sheets, and interim or final reports, to extract the information needed for completing the table below

Year	NCSA-generated	Other initiatives
2008	0	0
2009	0	0
2010		
2011		
2012		
2013		
2014		
2015		
2016		

2017		
2018		

Has your country assessed DLDD-related capacity building needs at the national level?

Yes

If yes, within the framework of which initiative?

- NCSA

Other (specify) (max 30 words)

The NCSA was undertaken by an independent consultant. No DLDD-related capacity building initiatives were undertaken afterward.

If yes, do you have assessed the necessary resources for addressing capacity building needs?

No

Are these resource requirements included into an investment framework?

No

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Have you received assistance from one or more of the following institutions to build capacities to combat DLDD? (more than one box can be ticked)

No answer provided

If yes, which type of assistance have you received?

No answer provided

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other integrated financing strategies, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation.

Understanding of the indicator

At the national level, the indicator measures the presence of integrated financing processes allowing the leverage of national, bilateral and multilateral resources for combating desertification and land degradation, through the quantification of investment frameworks developed by country Parties within the IFS devised by the GM or other integrated financing strategies promoted by diverse international institutions. This information will be complemented by the reporting of other reporting entities on the establishment of integrated investment frameworks at national, subregional and regional level.

Data needed

Investment frameworks documents.

Only investment frameworks prepared along the guidelines devised within integrated financing strategies shall be considered.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

'IFS', 'NAP' 'leveraging', 'integrated investment framework'

Overall target

By 2014, at least 50 per cent of affected country Parties, subregional and regional entities have developed integrated investment frameworks.

Has your country developed an integrated investment framework?

No

If yes, specify when it was developed.

No answer provided

The questions below apply only to those countries which have an integrated investment framework.

Is your integrated investment framework based on the NAP?

No answer provided

If based on the NAP, who assisted in its development?

No answer provided

Other (specify) (max 30 words)

No answer provided

If assisted, which type of assistance did you receive?

No answer provided

If assisted by the GM, was it devised within the IFS?

No answer provided

If your country has an integrated investment framework based on the NAP, is this framework concretely allowing the leverage of national, bilateral and multilateral resources for combating DLDD?

No answer provided

	Not important	Important	Very Important
Financial constraints			
Human resources constraints			
Lack of coordination among relevant ministries and unclear attribution of responsibilities			
Lack of coordination among those providing support			
National, bilateral and multilateral resources are too diverse; cannot be realistically coordinated under one umbrella.			
Other			

Other (specify) (max 30 words)

No answer provided

Performance indicator CONS-O-16 for Outcome 5.2

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-16 for Outcome 5.2

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD.

Understanding of the indicator

This is a qualitative indicator requiring the perception-based assessment by developing affected country Parties of the adequacy, timeliness and predictability of bilateral contributions received from developed country Parties for the implementation of the Convention. "Adequate", "timely" and "predictable" resources are frequently referred to in The Strategy as being necessary to ensure proper planning and effective implementation. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on their perception-based assessments.

Data needed

-

-

Check the glossary for

-

Only affected country Parties entitled to receive assistance under the UNCCD are requested to report on this indicator.

Overall target

No target has been set for this indicator

How would you rate the bilateral assistance received within the framework of UNCCD for the implementation of The Strategy and of the Convention?

Adequacy of bilateral assistance

Fairly adequate

Timeliness of bilateral assistance

Not timely

Predictability of bilateral assistance

Not predictable

Provide narrative justification on your above rating (max 100 words)

Lebanon is not a priority country for donors, in terms of land degradation, desertification, drought and poverty. Most of the assistance is being oriented towards the reconstruction of the country and the rehabilitation of other economic sectors. The war of 2006 has resulted in a flow of emergency assistance for the reconstruction of the affected territories. In addition to the fact that efforts addressing DLDD are scattered among the different institutions with no national strategy adopted and agreed upon among all actors. Bilateral assistance for DLDD is therefore very limited and unpredictable.

Qualitative assessment

Did you receive assistance in raising resources from bilateral donors?

Yes

If yes, from whom? (more than one box can be ticked)

- GM

Other (specify) (max 30 words)

No answer provided

Has the level of adequacy, timeliness and predictability of bilateral assistance constrained your country's performance in planning and implementation with respect to UNCCD?

Yes

Performance indicator CONS-O-17 for Outcome 5.3

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-17 for Outcome 5.3

Number of DLDD-related project proposals successfully submitted for financing to international financial institutions, facilities and funds, including the GEF.

Understanding of the indicator

The indicator measures the capacity of fund-raising at the national level, through the quantification of project proposals successfully submitted for funding to the various financing organizations. The indicator will inform to what extent affected country Parties make increasing efforts to mobilize resources. This information will be complemented by the reporting of other reporting entities on the

fund-raising efforts at national, subregional and regional level.

Data needed

Information contained in the PPSs and SFAs submitted to UNCCD.

Data sources (indicative only)

PPSs and SFAs submitted to UNCCD as part of the reporting exercise.

The PPS requires specification of the project 'status' thus it allows the identification of relevant projects to be considered by this indicator and the monitoring of their approval status.

The SFA requires the specification of amounts committed to approved projects.

Check the glossary for

'PPS', 'SFA', 'Project proposals', 'currency', 'Successfully submitted proposals'

Overall target

A steady growth in the number of DLDD-related successfully submitted project proposals is recorded along the implementation period of The Strategy.

Number of project proposals submitted (pipeline) and ongoing, by biennium

Biennium	submitted (pipeline)	ongoing
2008-2009		21
2010-2011		
2012-2013		
2014-2015		
2016-2017		

Amount of funds raised, by biennium

You can find the amount of funds raised for the ongoing projects in the corresponding SFAs. Sum these amounts and give the total in the below table.

Biennium	Total amount
2008-2009	USD25000000
2010-2011	
2012-2013	
2014-2015	
2016-2017	

Sources of information

Specify the sources used to extract the information provided above: Programme and Project Sheets and Standard Financial Annexes

No answer required

National contribution to the target

According to the information provided above, do you think that you are mobilizing enough resources from international financial institutions, facilities and funds through successfully submitted project proposals?

Yes

If no, do you plan to increase the country's efforts in presenting project proposals to international financial

institutions, facilities and funds?**No answer provided****Qualitative assessment**

Identify the reasons for the increasing or decreasing trend of project proposals successfully submitted to international financial institutions, facilities and funds (tick as many boxes as necessary and rate the level of importance).

Reasons for increasing

	Not important	Important	Very Important
Easier and more transparent application procedures			
Increased capacities of national stakeholders to prepare applications			
Major natural hazards occurred at the national level considerably increased the level of resources made available by the international community			
Access to funding is increasingly facilitated by third parties such as the private sector			
Existence of a financing strategy (IFS or others)			
Other			

Other (specify) (max 30 words)**No answer provided****Reasons for decreasing**

	Not important	Important	Very Important
Financing opportunities are not publicised enough, lack of access to necessary information			
Complicated application procedures, the level of complexity being worsened by the different requirements of the various donors			
Limited financial resources are made available for DLDD-related programmes/projects, and lack of DLDD-specific allocations within donors' portfolio.			
Other			

Other (specify) (max 30 words)**No answer provided****Performance indicator CONS-O-18 for Outcome 5.5***Operational Objective 5: Financing and technology transfer**Performance indicator CONS-O-18 for Outcome 5.5**Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties.**Understanding of the indicator*

The indicator measures whether access to technology is facilitated by means of financial resources or economic and policy incentives. The indicator will inform to what extent an enabling environment for technology transfer has been created at the national

level and whether sufficient resources are dedicated to technology transfer. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on financial resources and type of incentives which have enabled access to technology at the subregional and regional level.

Data needed

Budgets of relevant programmes and projects

Information on policy/regulatory, financial and fiscal incentives. Incentives facilitating access to technology shall be those established and implemented at the national level, not necessarily within the framework of DLDD-related cooperation.

Data sources (indicative only)

Financial documents of programmes and projects submitted as PPSs to the UNCCD as part of the reporting exercise.

National policy, regulatory and economic/financial documents.

Check the glossary for

'technical support', 'incentive', 'PPS'

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Overall targets

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of The Strategy.

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of The Strategy.

Estimate of amounts allocated to facilitate technology transfer

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Year	Technical support – material aid	Technical support – knowledge aid
2008	USD1000000	USD5000000
2009	1000000 USD	5000000 USD

Standard Financial Annex

D. Standard Financial Annex

The CRIC has recommended that financial reporting be based on a standard financial reporting format to be used by affected country Parties and their development partners. It also indicated that emphasis in reports should be put on financial matters and also on an analysis of the impact of the activities undertaken (ICCD/CRIC(8)/5).

The purpose of the Standard Financial Annex (SFA) is to consolidate information on resources mobilized by affected country Parties and their development partners under the framework of relevant strategies and action programmes. It facilitates the aggregation of data on financial commitments, financial flows and resources available by all relevant funding sources for activities related to the implementation of the Convention. It also helps minimize double counting in financial statistics (ICCD/CRIC(8)/5/Add.4).

The SFA is to be used by each country Party and other reporting entities to list all financial commitments they have made during the reporting period in support of institutions, programmes, projects, as well as other relevant initiatives undertaken at national or international level for the implementation of the Convention.

More specifically, for each relevant financial commitment or allocation made in the reporting period, the SFA requires a minimum set of data grouped as follows:

Identification, i.e. data required to identify the reporting entity, the funding source and the activity financed;

Basic data, i.e. data specifying the amount and type of financial commitment made, as well as the recipient country, region, and/or organization, and the funding period, if applicable;

(c) Classification, i.e. categorization of the funded activity according to the Rio Markers for desertification, and the UNCCD Relevant Activity Codes (RACs).

The compilation of the SFA is guided by means of a template, which responds to the recommendations of CRIC 7, and builds on the GM methodological guide for financial reporting presented to CRIC 6 as part of the report of the intergovernmental Ad Hoc Working Group to improve the procedures for communication of information.

Within the template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by the reporting entities with relevant data or narrative information.

Decision 13/COP.9, paragraph 8, invites country Parties and other reporting entities to refer to common terminology and definitions. Therefore, these guidelines should be read in conjunction with the comprehensive glossary presented in a separate document.

Financial Commitment #1 — Mainstreaming biodiversity management into Medicinal and Aromatic Plants Production Process in Lebanon

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **Ministry of Environment - Lebanon**
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **Association for Forests, Development and Conservation - AFDC**
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

No answer provided

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use

abbreviations, symbols or decimals

2600000 US Dollar

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Grant

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g.

15/01/2011)

06/2008

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

06/2010

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

24

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **2 Capacity Development and Planning**
 - **2.2 Enabling Activities**
 - **2.2.4 Action Programmes**
-

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

2006

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

05/2008

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **2 Capacity Development and Planning**
 - **2.1 Advocacy and Awareness Raising**
 - **2.1.1 Public Awareness Campaigns**
 - **3 Resource Management**
 - **3.1 Production Systems**
 - **3.1.2 Forestry**
 - **3.2.2 Biodiversity Conservation**
 - **3.2.3 Forest/Scrub Management**
 - **3.2.8 Sustainable Land Management**
-

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **AFDC fact sheets**

Financial Commitment #11 — Management and Sustainable Development of Forest Areas in Andket North Lebanon.

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

- **Lebanon - CCD Focal Point - Ministry of Agriculture**

Other

No answer provided

Funding Organization

Enter the full name and acronym (if applicable) of the organization that has made the financial commitment

No answer provided

Other

- **WWF Italy and the Italian Cooperation (ROSS II)**
-

Name of activity funded

Enter the name or title of the activity, project, programme, organization or initiative funded with this financial commitment

Management and Sustainable Development of Forest Areas in Andket North Lebanon.

Identification code

Enter the Identification Code (ID), number or acronym given to the activity funded (if known)

No answer provided

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- **Asia**
 - **Western Asia**
 - **Lebanon**
-

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- **Association for Forests Conservation and Development - AFDC**
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- **Association for Forests Development and Conservation - AFDC**
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

No answer provided

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use

abbreviations, symbols or decimals

500000 euro

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Grant

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g.

15/01/2011)

03/2009

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

12/2009

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

9

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **2 Capacity Development and Planning**
 - **2.2 Enabling Activities**
 - **2.2.1 Capacity-Building**
 - **2.2.10 Resource Management Planning**
 - **2.2.4 Action Programmes**
-

Programme and Project Sheets

E. Programme and Project Sheet

Programme and Project Sheets (PPS) are used to provide more detailed information on programmes or projects undertaken or completed in the reporting period. This includes programmes and projects in the pipeline, as well as final proposals submitted for funding to internal or external funding sources. All country Parties and other reporting entities involved in the financing, coordination or implementation of relevant programmes and projects are requested to prepare a PPS for each of them, and to attach them to their official report to the UNCCD.

The compilation of the PPS is guided by means of a template. These templates are intended to collect a minimum set of qualitative and quantitative data to facilitate the analysis of funding and investment flows, and the production of better financial statistics related to UNCCD implementation (ICCD/CRIC(8)/5/Add.4), with a view to enabling the CRIC to undertake an objective review of progress in the implementation of the Convention and The Strategy. The PPS also facilitate the computation of certain performance and impact indicators.

A distinctive feature of the PPS is that it allows country Parties and other reporting entities to specify which strategic and operational objectives of The Strategy are targeted by each programme or project. In addition, it allows for individual programme or project components to be categorized using the Rio Markers for desertification and Relevant Activity Codes (RACs).

Furthermore, the PPS can be used to indicate whether the objectives of other Rio Conventions (i.e. the UN Convention on Biological Diversity, CBD – and the UN Framework Convention on Climate Change, UNFCCC) are also addressed by the programme or project. This is done through the use of the biodiversity and climate change Rio Markers, respectively.

The PPS offers an opportunity to increase the visibility of relevant programmes and projects, thereby creating the conditions for a better sharing of experiences and lessons, as well as the transfer of knowledge in general. It also favours collaboration and networking by facilitating the identification of potential synergies.

Lastly, the PPS also allows country Parties and other reporting entities to provide a narrative description of the expected or achieved results. This information will facilitate the qualitative assessment of progress in the implementation of The Strategy, including on returns on investment. The CRIC will use the analysis of financial information originating from the PPS to assess results, performance and impacts.

To minimize the reporting burden and avoid discrepancies in the information annexed to the reports of different entities, it is recommended that project partners identify the most suitable ways to coordinate among themselves the preparation of PPS to ensure that consistent data are reported for the same projects. It would also be advisable to compile just one PPS for large “umbrella” programmes, instead of separate PPS for each small project stemming from them.

In the PPS template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by country Parties and other reporting entities with relevant data or narrative information.

Programme/Project #1 — Mainstreaming Biodiversity Management into Medicinal and Aromatic Plants Production Process in Lebanon

Title

Enter the Programme/Project title, and sub-title if applicable

Mainstreaming Biodiversity Management into Medicinal and Aromatic Plants Production Process in Lebanon

Organization(s)

Enter the full name and acronym of the reporting organization

- **Lebanon - CCD Focal Point - Ministry of Agriculture**

Other

- **Lebanese Agriculture Research institute-LARI**

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Executing Agency

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **Lebanese Agricultural Research Institute (LARI) - Executing agency**

Title

Enter the Programme/Project title, and sub-title if applicable

Flood Risk Management and Water harvesting for Livelihood Recovery in Baalbeck-EI-Hermel.(phase I)

Organization(s)

Enter the full name and acronym of the reporting organization

- **United Nations Development Programme**
- **Lebanon - CCD Focal Point - Ministry of Agriculture**

Other

No answer provided

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Executing Agency

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- **Asia**
 - **Western Asia**
 - **Lebanon**
-

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

No answer provided

Administrative Unit

Hermel region

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

- **Farmers, municipalities and rural local communities of the target area.**
-

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

No answer provided

Status

Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

01/01/2008

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

31/12/2010

Programme/Project co-financing**Source**

Programme/Project #21 — Sustainable Land Management Programme for Livelihood Development in Lebanon.

Title

Enter the Programme/Project title, and sub-title if applicable

Sustainable Land Management Programme for Livelihood Development in Lebanon.

Organization(s)

Enter the full name and acronym of the reporting organization

- **Lebanon - CCD Focal Point - Ministry of Agriculture**

Other

No answer provided

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Executing Agency

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **Local communities in the regions where the project is implemented**
-

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- **Asia**
 - **Western Asia**
 - **Lebanon**
-

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

No answer provided

Administrative Unit

Bekaa - Lebanon

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

- **Farmers, public at large and rural local communities.**
-

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

00058344

Status

Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

1/10/2007

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

31/12/2010

Programme/Project co-financing

Source

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

No answer provided

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

UN Conventions' Rio Markers

Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

UNCCD

2

UNFCCC adaptation

0

UNFCCC mitigation

1

CBD

1

Strategic objectives

Indicate which strategic objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project

- **1**
 - **2**
 - **4**
-

Operational objectives

Indicate which operational objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project

- **1**
- **2**

- 3
- 4
- 5

Programme/Project Objectives

Indicate the objectives pursued by the Programme/Project, as specified in the related documentation, choosing from the list of purpose codes provided in document (add Quick Reference Guide document title and reference code (please see footnotes above). The OECD list of purpose is also available at the following link : http://www.oecd.org/document/21/0,3343,en_2649_34447_1914325_1_1_1_1,00.html.

- **311 AGRICULTURE**
 - **31120 Agricultural development**
 - **31162 Industrial crops/export crops**
 - **31165 Agricultural alternative development**
-

Programme/Project Components

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation.

Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

- Sustainable natural resource management with better alternatives in agriculture production.
- Enhancing proper market linkages.
- Reducing land degradation.
- Technical capacity building.

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

155930 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

2

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- **2 Capacity Development and Planning**
 - **2.1 Advocacy and Awareness Raising**
 - **2.2 Enabling Activities**
 - **2.2.1 Capacity-Building**
 - **3 Resource Management**
 - **3.1 Production Systems**
 - **3.2.8 Sustainable Land Management**
 - **2.2.13 Resource Mobilization**
-

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- **.Providing advisory services and coordination.**
- **.Udergo resource mobilization.**
- **.Technical capacity building to produce and market Industrial Hemp.**

.Selection of hemp variety and farming areas.

.Implementation of Industrial Hemp.

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **UNDP fact sheets**

Additional Information

F. Additional information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by affected country Parties and consequently to make more targeted and specific recommendations to the COP. It allows affected country Parties to comment or report upon issues that are not covered elsewhere but that are nevertheless of importance at the national level or within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process and on the implementation of NAPs as well as lessons learnt, problems, constraints and bottlenecks faced in terms of human and financial resources. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of affected country Parties within the framework of the Convention, as requested by decision 13/COP.9, paragraph 17.

Reporting process-related issues

Financial resources

Could your country count on sufficient financial resources to meet UNCCD reporting obligations?

Yes

Provide an estimate of the amount invested from your country's national budget into the UNCCD reporting process.

2000 US Dollar

Human resources

How many people were involved in your country in the UNCCD reporting process?

Number of people

3

Estimate the total number of person/day dedicated by these persons to the UNCCD reporting process:

Number of person/day

45

Knowledge

Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations?

Yes

Coordination

Was coordination with the relevant implementing agencies satisfactory in order to apply for necessary funds?

Yes

Was coordination at the national level with the relevant line ministries satisfactory in order to comprehensively and coherently report?

No

Participation and consultation

Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process?

No

Validation meeting

Was a validation meeting held as a tool to integrate stakeholders in the reporting process?

No

Subregional and regional processes

Did your country actively contribute to the subregional and regional reporting processes?

Yes

PRAIS portal

If you are reporting online, did you receive sufficient training on access and utilization of the PRAIS portal?

Yes

Accommodation of specific requests within COP decisions

Report on specific COP requests – iterative process on indicators

Decision 13/COP.9, paragraphs 2, 3 and 24, envisages an iterative process to refine the set of performance indicators provisionally adopted by the same decision. As a tool to implement this iterative process, affected country Parties can provide here their suggestions and recommendations for improvement.

Tick the cells only when you have experienced difficulties in reporting on one, or more, indicator(s). Indicate against which of the e-SMART criteria the indicator(s) needs to be improved.

Reporting on the implementation of NAP

Which is the percentage of activities included in the NAP that are currently implemented?

31-60%

Human resources

Lessons learnt (report on the 2 most important only)

1

This reporting process shows the importance of mainstreaming DLDD issues into other policies, strategies and programs at the national level, in order to increase the efficiency of the implementation

2

It also shows the importance of implementing a permanent and national monitoring system, collecting all relevant data, all year round. The data would be collected and stored on the basis of the Strategy, thus allowing for a better alignment of the NAP and a more efficient reporting in the future.

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

The NAP should be updated and aligned to the Strategy. It should also be brought to a higher level of concern, first within the MoA, then at the national level (Prime Minister's Office). Financial, technical and human resources are necessary.

2

The coordination among the different institutions and organisations involved in DLDD and in the implementation of the 3 Rio conventions, is very difficult to implement (The NCSA was developed and never implemented)

Financial resources

Lessons learnt (report on the 2 most important only)

1

The financial resources provided for the first reporting process are sufficient. However, further reporting exercises will necessitate more funding, as a larger team should be involved in order to better capture all activities related to DLDD at the national level.

2

No answer provided

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

The administrative setting did not allow for a direct contribution of the Government to the reporting process. The contribution was through the time allocated by the Focal Point and his team to assist the consultant (paid by UNDP) in order to achieve the report.

2

No answer provided

Any other country-specific issues

Has your country any specific issue to bring to the attention of the Conference of the Parties?

No

If yes, please specify under which of the following broad categories it can be classified.

Category

No answer provided

Other (specify) (max 30 words)

No answer provided

Narrative description

No answer provided

Best Practices

G. Best practices

According to decision 13/COP.9, Annex V, UNCCD best practices shall be collected according to seven themes: 1. SLM technologies, including adaptation; 2. Capacity building and awareness raising; 3. DLDD and SLM monitoring and assessment/research; 4. Knowledge management and decision support; 5. Policy, legislative, institutional framework; 6. Funding/resource mobilization; 7. Participation, collaboration and networking.

While themes 2 to 7 represent different elements of the enabling environment needed for the implementation and dissemination/up-scaling of sustainable land management (SLM) technologies (indirect impact), theme 1 comprises all actions on the ground that have a direct impact on desertification, land degradation and drought mitigation.

In particular, as specified in document ICCD/CRIC(8)/5/Add.5, paragraph 12, theme 1 'SLM technologies, including adaptation' refers to SLM technologies that directly contribute to the prevention, mitigation and rehabilitation of desertification and land degradation on cropland, grazing land and woodland, with the aim of improving the livelihoods of affected populations and conserving ecosystem services. Successful implementation of SLM technologies is the base for achieving strategic objectives 1, 2 and 3 of The Strategy. Theme 1 also integrates five of the strategic areas defined by decision 8/COP.4, namely: (a) sustainable land use management, including water, soil and vegetation in affected areas; (b) sustainable use and management of rangelands; (c) development of sustainable agricultural and ranching production systems; (d) development of new and renewable energy sources; and (e) launching of reforestation/afforestation programmes/ intensification of soil conservation programmes.

ICCD/CRIC(8)/5/Add.5 provides definitions for 'practice', 'good practice' and 'best practice'. These definitions are included in the common glossary that shall be referred to by Parties and other reporting entities while reporting to UNCCD, according to decision 13/COP.9, paragraph 8.

The template for reporting is based on the general structure for the documentation of best practices contained in ICCD/CRIC(8)/5/Add.5, paragraphs 40 to 43; it is tailored to the documentation of best practices related to theme 1 'SLM technologies, including adaptation'.

Best Practice #1 — Sustainable management of wild stocks of aromatic and medicinal plants (MAP) in Lebanon

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Sustainable management of wild stocks of aromatic and medicinal plants (MAP) in Lebanon

Location (if available, also include a map)

100 villages and communities in Lebanon

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

No answer provided

Estimated population living in the location

Number of people

7000

Prevailing land use within the specified location

- Grazing land
- Woodland

Other (specify) (max 30 words)

No answer provided

Brief description of the natural environment within the specified location

Climate: (max 50 words)

Medicinal and aromatic plants are very abundant in forests, woodlands and shrublands, extending from lower altitudes to high mountains, in the different bioclimates of Lebanon.

Soil: (max 50 words)

Mostly red mediterranean soil

Topography: (max 50 words)

Mainly mountains and hills

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

Low to middle income communities, mainly rural based. Available access to basic health, sanitation and education. Several villages were affected by the successive war events, some communities have migrated, and are returning to the villages. Youth are migrating to cities or abroad, looking for better living conditions. Women are mainly home based, participating in the agricultural activities. Some are involved in local agricultural and production cooperatives or teaching in local schools.

Main income sources: (max 50 words)

Agriculture and various rural jobs. Teaching in local schools. Taxi drivers. Army/internal security. Small shops. Money transfer from family members living abroad or in cities.

Land tenure and land use rights: (max 50 words)

Land may be privately owned. Community owned lands (usually religious communities) and public lands (municipal or governmental) may be rented to various uses.

Short description of the best practice

max 250 words

Lebanon lies within an important centre of flowering plant biodiversity, with approximately 2,600 species and an endemism rate of 12%. Around 365 medicinal and aromatic plants (MAPs) are found and utilised in Lebanon. The MAP and herb domestic markets are worth approximately US\$35 millions per year and wild stocks supply approximately 98% of the MAP markets. The collection of wild stocks now threatens the conservation of globally significant MAP biodiversity. The project idea is that non-destructive harvests, together with income generated by MAP business opportunities for local people, will maintain the wild stocks of at least 6 globally significant MAP species that are commercially traded and threatened by current harvesting practices.

The project will create incentives for local communities to sustainably manage the wild stocks by ensuring the increased financial returns flow to the guardians of wild MAP stocks and are directly linked to sustainable harvest and management practices. The project will introduce a sustainable management

regime for 800 tons annually of the target species. For this purpose, the project will support both the establishment of 7-10 community-based MAP-MSEs, and value-added production systems. At the end of the project, over 8 value-added products made from sustainably harvested MAPs will be available, using at least 300 tons of raw materials.

Outputs:

- Appropriate collection methods ensure a viable long-term supply of raw materials of globally significant MAP species.
- Value-added processing and product improvement result in increased value of globally significant MAPs harvested in biodiversity-friendly manner.
- Supply chain framework strengthened for sustainable harvest of globally significant MAP species and awareness promoted for conservation-friendly MAP products.

Expected Results:

- Establishment of community-based pre-processing Small Enterprises (SE) for MAPs.
- Development and implementation of a certification system for sustainable wild harvesting.
- Development and implementation of sustainable wild harvesting standards that incorporate ecological, social and economic aspects.
- Training for local collectors on sustainable harvesting techniques of MAPs.
- Regulative framework put in place for MAP collection, processing and trade.
- Consumer awareness enhanced on the importance of certified MAP products.
- Increased awareness at the national level on the importance of MAP conservation and sustainable use.

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

The collection of MAPs may be very aggressive and destructive to the ecosystems and may lead to land degradation and loss of biodiversity. The proposed practice/project aims at the conservation of the MAPs in Lebanon, while providing local communities with a good source of income from sustainably managed collection sites.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- Prevention
- Mitigation
- Adaptation

Main problems addressed by the best practice

(max 50 words)

- Depletion of forests and woodlands from excessive and unsustainable collection of MAPs.
Low income of local communities despite their diversified activities.
Increase in forest fires onsets, mainly because of the increase in forest biomass and unsustainable forest practices.

Outline specific land degradation problems addressed by the best practice

max 100 words

Unsustainable and uncontrolled collection of MAPs is leading to the degradation of soil and vegetation cover.

Unsustainable management of forests and rangelands will lead to an increase in forest fires and soil erosion.

Specify the objectives of the best practice

(max 50 words)

- **1- Appropriate collection methods ensure a viable long-term supply of MAP raw materials.**
 - 2- Value-added processing and product improvement result in increased value of globally significant MAPs harvested in biodiversity-friendly manner**
 - 3- Supply chain framework strengthened for sustainable harvest of globally significant MAP species and awareness promoted for conservation-friendly MAP products**
 - 4- Learning, evaluation and adaptive management achieved**
-

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- **1.1 Community-based MSEs for MAP collecting and primary processing established.**
- 1.2 Collectors trained in MAP identification and sustainable harvesting methods.**
- 1.3 Certification system for sustainable harvest applied.**
- 1.4 Community-based resource use plans set up.**

Objective 2

(max 50 words)

- **2.1 Manufacturing and trading companies upgraded.**
- 2.2 Locally processed MAP products branded.**
- 2.3 Innovative MAP based products developed and introduced into the market.**

Objective 3

(max 50 words)

- **3.1 National MAP Association established as private-sector entity.**
- 3.2 Guidelines on sustainable harvesting practices agreed, training modules developed and widely applied.**
- 3.3 Certification system developed, agreed and put into practice.**
- 3.4 Regulative framework on collection, processing as well as**

Objective 4

(max 50 words)

- **4.1 Monitoring programme established;**
 - 4.2 Adaptive management and strategic planning system established;**
 - 4.3 Lessons learned and impact data are gathered, documented and disseminated to key internal and external audiences.**
-

Short description of the technology

max 250 words

Transforming the MAP industry as a means of maintaining the conservation status of globally significant MAP species is a new and bold approach. It has not been tried in the Arab region before and it faces a number of barriers and risks. There are doubts whether value-added MAP products can create sufficient economic incentives to induce the desired behavioural change within the industry and establish the self-enforcement mechanisms necessary to “crowd out” non-complying industry participants. Income derived from MAPs will not be large and revenues generated will be seasonal supplements to household

income. Nevertheless, business feasibility and economic comparative studies, as well as stakeholder surveys, indicate it can be possible. Certainly in comparison to alternatives conservation strategies, the approach promises to be the most cost-effective, self-sustaining and the most likely to achieve the desired long-term behavioural changes.

Technical specifications of the technology - if any

max 250 words

No answer provided

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

Lebanese Agricultural Research Institute - LARI

Address

LARI - Fanar - Lebanon

Was the technology developed in partnership?

No

If yes, list the partners:

No answer provided

Specify the framework within which the technology was promoted

- National initiative – government-led
- Programme/project-based initiative

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology

Yes

If yes, list local stakeholders involved:

- All local communities living in the regions where the project is implemented and benefiting of the use, harvest and transformation of MAPs
-

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.

max 250 words

The local communities are in charge of the forests and woodlands where the collection of MAPs is taking place. They will have to manage and maintain the sites for the sustainability of the initiative. The species were selected on the basis of traditional uses and traditional (sometimes not sustainable) harvesting and transformation techniques.

Was the population living in the location and/or nearby involved in the development of the technology?

Yes

If yes, by means of what?

- Participatory approaches

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- 1. To improve the living conditions of affected population
 - 2. To improve the conditions of affected ecosystems
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Socio-economic level (including cultural level):

1. (max 50 words)

Increased income to local communities generated by the transformation and branded marketing of the products

2. (max 50 words)

No answer provided

Environmental level:

1. (max 50 words)

Improved management of the sites and hence decrease in the risk of forest fires

2. (max 50 words)

Conservation of the biological diversity through the sustainable exploitation and management of the selected species

Other (specify)

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

Replicability of the activities in surrounding villages

2. (max 50 words)

No answer provided

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

The sustainable harvesting of the MAPs promotes the conservation of the species. The economic benefits that are expected through the sustainable management and branded marketing of the products will encourage the local communities to protect the species and the ecosystems they grow in.

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

Yes

Explain the reasons:

max 250 words

The sustainable management of the forests and terrestrial ecosystems contributes to the climate change mitigation

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

Yes

Explain the reasons:

max 250 words

The species selected grow in a wide range of climatic conditions and are usually tolerant to occasional droughts and changes in temperature

Has a cost-benefit analysis been carried out?

Yes

If yes, summarize its main conclusions:

max 250 words

Mainstreaming MAP conservation considerations into the private sector represents a far more cost effective approach than the classical approach, which involves the establishment of protected areas in which MAP harvest is prohibited. By mainstreaming conservation, the recurrent costs will be virtually eliminated, with conservation supported by self-financing incentive systems that generate financial benefits for MAP collectors and processors who conserve. Driven by market incentives created by this project, MAP-MSEs will undertake investments into their own business to expand and to become eligible for certification. For the MAP industry as a whole, the voluntary, participatory approach of the project is cost-effective when compared to involuntary regulatory and enforcement measures, reducing the need, and therefore the costs, of interventions.

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- **Capacity-building and awareness-raising**
- **DLDD and SLM monitoring and assessment/research**
- **Knowledge management and decision support**
- **Funding/resource mobilization**

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

No

If yes, where? (add as many rows as necessary)

Location:

No answer provided

Were incentives to facilitate the take up of the technology provided?

No

If yes, specify which type of incentives

No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

The project will help develop win-win opportunities resulting in both, livelihood and biodiversity gains, as well as getting stakeholders to accept trade-offs and internalize costs related to biodiversity in their production activities. It will help establish a new generation of entrepreneurs who will have a continuing stake in the sustainable use of MAPs.

2. (max 50 words)

The project will test an innovative approach towards dealing with the threats to globally significant MAPs arising from human consumption, by mainstreaming biodiversity conservation into day-to-day business operations. This project will work in Lebanon on national scale, and aims at exerting influence on the MAP industry as a whole.

3. (max 50 words)

The business model pursued by the project combines income generation with global conservation benefits, and may thus serve as a model for similar economics in the Middle East and elsewhere. Results from the project will be disseminated within and beyond the project intervention zone through a number of existing information sharing networks and fora.

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- Local
 - Sub-national
 - National
 - Subregional
 - Regional
 - International
-

Section 8. Lessons learned

Related to human resources

(max 50 words)

- The project is still ongoing and no lessons can be drawn yet
-

Related to financial aspects

(max 50 words)

- The project is still ongoing and no lessons can be drawn yet
-

Related to technical aspects

(max 50 words)

- **The project is still ongoing and no lessons can be drawn yet**

Best Practice #2 — Promotion of industrial Hemp in the framework of Sustainable Land Management Programme for Livelihood Development in Lebanon

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Promotion of industrial Hemp in the framework of Sustainable Land Management Programme for Livelihood Development in Lebanon

Location (if available, also include a map)

Bekaa Valley - Lebanon

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

No answer provided

Estimated population living in the location

Number of people

No answer provided

Prevailing land use within the specified location

- Cropland
- Human settlement

Other (specify) (max 30 words)

No answer provided

Brief description of the natural environment within the specified location

Climate: (max 50 words)

The Bekaa valley is the most important agricultural region in Lebanon. The Northern Bekaa is a semi-arid region

Soil: (max 50 words)

Mainly Mediterranean red soil

Topography: (max 50 words)

Mainly plain, with some slopes and mountains

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

Traditionally and for several years, production of illicit crops, mainly cannabis and poppy. Poverty signs started to show once the illicit crops were stopped.

Main income sources: (max 50 words)

Agriculture.

Land tenure and land use rights: (max 50 words)

Private and public lands (including lands owned by religious communities) with user rights through rent

Short description of the best practice

max 250 words

The Sustainable Land Management Programme for Livelihood Development in Lebanon will assist the Lebanese Government in identifying the specific problems and obstacles encountered in the long-term process of reducing land degradation and achieving sustainable land management. The programme will focus on integrated rural livelihood development by integrating sustainable natural resource management with better alternatives in agricultural production and enhancing proper market linkages. The programme will explore industrial hemp, which does not require pesticide applications, as an alternative to the high THC cannabis plant in the Bekaa for improving the livelihood of rural communities and reducing land degradation.

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

The war situation, which prevailed in Lebanon for decades, has negatively affected the livelihood of local communities mainly in remote rural areas. Environmental degradation causes additional socio-economic burden on the livelihood of rural communities. The illicit production of cannabis and poppys has severely affected the social structure in the region. The project is proposing the replacement of cannabis plantations, by industrial hemp which is very adapted to the local conditions. The income generated by this industrial crop may somehow compensate for the loss occurred after the cannabis cultivation was banned.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- **Prevention**
 - **Mitigation**
 - **Adaptation**
 - **Rehabilitation**
-

Main problems addressed by the best practice

(max 50 words)

- **Drylands with low potential for conventional agricultural production.**
Poor socio-economic conditions with local communities severely affected by successive war events and by drylands and drought.
-

Outline specific land degradation problems addressed by the best practice

max 100 words

Severe land degradation and soil erosion caused by unsustainable land use practices

Specify the objectives of the best practice

(max 50 words)

- **Industrial hemp promoted as a potential alternative to narcotic plants in the Bekaa for improving the livelihood of rural communities**

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- **Technical capacity building to produce and market Industrial Hemp.**
Selection of hemp variety and farming areas.
Implementation of Industrial Hemp.

Objective 2

(max 50 words)

No answer provided

Objective 3

(max 50 words)

No answer provided

Objective 4

(max 50 words)

No answer provided

Short description of the technology

max 250 words

Test the production of industrial hemp on 2,000du. Develop links with the private sector in order to market the products and to finance further development of the production. Provide financial and technical support to farmers to continue the production beyond the end of the project.

Technical specifications of the technology - if any

max 250 words

No answer provided

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

Ministry of Agriculture

Address

**Ministry of Agriculture/ Director of Studies and Coordination
Bir Hassan - Beirut - Lebanon**

Was the technology developed in partnership?

Yes

If yes, list the partners:

- **Local farmers**
-

Specify the framework within which the technology was promoted

- **National initiative – government-led**
- **Programme/project-based initiative**

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology
Yes

If yes, list local stakeholders involved:

- Local farmers
-

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.

max 250 words

The local farmers are in charge of the production and maintenance of the industrial hemp and of the maintenance and sustainability beyond the life span of the project.

Was the population living in the location and/or nearby involved in the development of the technology?
No

If yes, by means of what?

No answer provided

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- 1. To improve the living conditions of affected population
 - 2. To improve the conditions of affected ecosystems
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

Provision of an economical alternative to illicit crops

2. (max 50 words)

Development of a new line of a products in the drylands of Lebanon

Socio-economic level (including cultural level):

1. (max 50 words)

Shifting from illicit crops to legal and productive crops in a region where agricultural production is becoming a major challenge

2. (max 50 words)

development of a good source of income and access to credits and investment facilities

Environmental level:

1. (max 50 words)

Sustainable agricultural production in the drylands

2. (max 50 words)

Prevention of erosion and further land degradation

Other (specify)

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

Provision of an alternative production in region where agricultural production is challenging

2. (max 50 words)

No answer provided

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

The sustainable management of the natural resources and the sustainable management of the drylands contributes to the conservation of the local biodiversity, through the conservation of soils and water and prevention of erosion

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

No

Explain the reasons:

max 250 words

No answer provided

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

Yes

Explain the reasons:

max 250 words

Hemp is tolerant to drought and offers a good alternative to agricultural crops in dry areas and areas affected by drought

Has a cost-benefit analysis been carried out?

No

If yes, summarize its main conclusions:

max 250 words

No answer provided

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- **Capacity-building and awareness-raising**
- **Knowledge management and decision support**
- **Funding/resource mobilization**

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

No

If yes, where? (add as many rows as necessary)

Location:

No answer provided

Were incentives to facilitate the take up of the technology provided?

No

If yes, specify which type of incentives

No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

The programme focuses on integrated rural livelihood development by integrating sustainable natural resource management with better alternatives in agricultural production and enhancing proper market linkages.

It explores industrial hemp, which does not require pesticide applications, as an alternative to the high THC cannabis plant in the Bekaa for improving the livelihood of rural communities and reducing land degradation.

2. (max 50 words)

It explores industrial hemp, which does not require pesticide applications, as an alternative to the high THC cannabis plant in the Bekaa for improving the livelihood of rural communities and reducing land degradation.

3. (max 50 words)

No answer provided

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- Local
 - Sub-national
 - National
 - Subregional
 - Regional
 - International
-

Section 8. Lessons learned

Related to human resources

(max 50 words)

- **The project is not finished and no lessons can be drawn yet**
-

Related to financial aspects

(max 50 words)

- **The project is not finished and no lessons can be drawn yet**
-

Related to technical aspects

(max 50 words)

- **The project is not finished and no lessons can be drawn yet**

Best Practice #3 — Sustainable land management and contribution to poverty alleviation in drylands in the Baalbak-Hermel region

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Sustainable land management and contribution to poverty alleviation in drylands in the Baalbak-Hermel region

Location (if available, also include a map)

Baalbak-Hermel, Bekaa Valley - Lebanon

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

No answer provided

Estimated population living in the location

Number of people

No answer provided

Prevailing land use within the specified location

- Cropland
- Grazing land
- Woodland
- Human settlement

Other (specify) (max 30 words)

The existing woodlands are very degraded

Brief description of the natural environment within the specified location

Climate: (max 50 words)

Degraded drylands with low rainfall (200-300mm) long, dry and hot summers, cold winters

Soil: (max 50 words)

Sandy; red mediterranean

Topography: (max 50 words)

Plains and mountains

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

Poor livelihood systems; affected by successive war events and by land degradation; access to basic

social, educational and medical needs

Main income sources: (max 50 words)

Agriculture; livestock (mainly sheep)

Land tenure and land use rights: (max 50 words)

Private and public lands (religious communities and government or communal lands) with user property rights through rent

Short description of the best practice

max 250 words

Improvement of the livelihood systems through reforestation, replacement of existing fruit trees with more adapted cultivars, vaccination of livestock and empowerment of youth and women groups

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

The practice is strongly contributing to the improvement of the very degraded surrounding lands, and to the improvement of income and livelihoods of the local population. The target populations and ecosystems are showing signs of improvement.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- Prevention
 - Mitigation
 - Adaptation
 - Rehabilitation
-

Main problems addressed by the best practice

(max 50 words)

- Severe land degradation; unadapted fruit trees; unsustainable livelihood systems
-

Outline specific land degradation problems addressed by the best practice

max 100 words

Desertification and land degradation (including woodlands and grazing lands); agricultural lands and orchards affected by drought; poor livelihoods

Specify the objectives of the best practice

(max 50 words)

- Improvement of the ecosystems, poverty alleviation and improvement of livelihood systems
-

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- Production and distribution of forest seedlings (1 million seedlings/year: 750000 forest; 250000 fruit trees); reforestation and range enrichment campaigns

Objective 2

(max 50 words)

- Provision of extension services on sustainable land management and combating desertification; awareness raising on importance of contour plowing and water harvesting and other sustainable practices; training of trainers on environmental awareness; provision of services such as water analysis

Objective 3

(max 50 words)

- Empowerment of women and youth groups; capacity building on food processing; vocational training (hairdressing, handicrafts, computer...)

Objective 4

(max 50 words)

- Marketing of agricultural, food products and handicrafts through an annual fair gathering producers from the different parts of the country (mainly dryland products)
- Improvement of livestock production; animal health; vaccination

Short description of the technology

max 250 words

No answer provided

Technical specifications of the technology - if any

max 250 words

No answer provided

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

Jihad el Binaa - Lebanon

Address

info@jbf-lb.org

Was the technology developed in partnership?

Yes

If yes, list the partners:

- Local farmers

Specify the framework within which the technology was promoted

- Local initiative
- National initiative – non-government-led

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology

Yes

If yes, list local stakeholders involved:

- Local office of Jihad el Binaa; local farmer groups

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the

technology, if any.

max 250 words

Needs assessment; development of production nursery; distribution of seedlings; maintenance of planted forests and orchards; awareness raising and capacity building; animal health

Was the population living in the location and/or nearby involved in the development of the technology?

Yes

If yes, by means of what?

- **Consultation**
- **Participatory approaches**

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- **1. To improve the living conditions of affected population**
 - **2. To improve the conditions of affected ecosystems**
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Socio-economic level (including cultural level):

1. (max 50 words)

Improvement of livelihood conditions through marketing of agricultural and food products and handicrafts and through provision of health and sanitation services such as water analysis and animal vaccination

2. (max 50 words)

Creation of new jobs through vocational training

Environmental level:

1. (max 50 words)

Improvement of ecosystems through reforestation of degraded lands

2. (max 50 words)

Promotion of sustainable agricultural practices

Other (specify)

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

Marketing of agricultural and food products and handicrafts from the different parts of the country in the

annual fair

2. (max 50 words)

Adoption of sustainable agricultural practices in surrounding areas

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

Conservation of local biodiversity through reforestation using local species from local provenances

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

No answer provided

Explain the reasons:

max 250 words

Contribution to climate change adaptation and mitigation through reforestation and sustainable land use practices

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

No answer provided

Explain the reasons:

max 250 words

No answer provided

Has a cost-benefit analysis been carried out?

No

If yes, summarize its main conclusions:

max 250 words

No answer provided

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- Capacity-building and awareness-raising
 - Knowledge management and decision support
 - Funding/resource mobilization
 - Participation, collaboration and networking
-

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

Yes

If yes, where? (add as many rows as necessary)

Location:

- Different regions in Lebanon

Were incentives to facilitate the take up of the technology provided?

No

If yes, specify which type of incentives

No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

Local communities living in poor livelihood systems and in need of any support that can lead to the improvement of the conditions

2. (max 50 words)

Highly degraded ecosystems requiring rehabilitation

3. (max 50 words)

Consultation and coordination with local communities, prior and during implementation; practice based on a demand driven approach and on a need assessment

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- **Local**
 - **Sub-national**
 - **National**
 - **Subregional**
-

Section 8. Lessons learned

Related to human resources

(max 50 words)

- **The participation of the local communities in the planning and implementation processes insure the success of the interventions**
-

Related to financial aspects

(max 50 words)

- **The improvement of the economical conditions of the local communities is maximised by building the capacities of the different groups and the creation of new jobs; direct financial assistance is minimized and replaced by inputs, marketing facilities and services**
-

Related to technical aspects

(max 50 words)

- **High quality production techniques and technical assistance provided insure the success of the operation**

Best Practice #4 — Flood Risk Management and Water Harvesting for Livelihood Recovery in Baalback-Hermel

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Flood Risk Management and Water Harvesting for Livelihood Recovery in Baalback-Hermel

Location (if available, also include a map)

Baalback-Hermel

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

94000

Estimated population living in the location

Number of people

No answer provided

Prevailing land use within the specified location

- **Cropland**
- **Grazing land**
- **Unproductive land**
- **Human settlement**

Other (specify) (max 30 words)

No answer provided

Brief description of the natural environment within the specified location

Climate: (max 50 words)

Semi-arid climate with low rainfall (200-300mm) frequently occurring in intensive showers causing flooding of rivers and gullies. Dry, hot and long summers.

Soil: (max 50 words)

friable

Topography: (max 50 words)

Mountainous region overlooking the plain

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

Low income

Main income sources: (max 50 words)

Agriculture, livestock (range), divers rural jobs

Land tenure and land use rights: (max 50 words)

Private and public (including religious communities and government) with user rights through rent

Short description of the best practice

max 250 words

Assisting the Government of Lebanon in its recovery efforts in the conflict-affected and high-poverty region of Baalbeck-Hermel through land management practices, namely flood risk reduction and improved access to irrigation water and networks to achieve crop diversification and improve productivity

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

The problem of floods in the target region is severely affecting the livelihoods as it destroys the agricultural lands, the crops, the terraces and the infrastructures. The techniques utilized to control the flood through micro dams were found to be most efficient in such a situation.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- Prevention
 - Mitigation
 - Adaptation
 - Rehabilitation
-

Main problems addressed by the best practice

(max 50 words)

- Flash floods caused by heavy rains in May-June or in October - November causing severe erosion and substantial damages to agriculture and livelihood systems
-

Outline specific land degradation problems addressed by the best practice

max 100 words

Land degradation; land use management, including water; soil conservation

Specify the objectives of the best practice

(max 50 words)

- - Establishment and Implementation of a flood risk management plan over an area of 94 km² in Aarsal and Fakhe region.
 - Water harvesting in North Bekaa and installation of efficient irrigation networks.
 - Crop diversification and improved land cover in North Bekaa.
 - Improved public awareness on flood risks management and training of the target municipality on maintenance of flood management structures.
-

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- **Establishment and construction of collection lakes, stone walls and contour bunds; reforestation and restoration of ranges; capacity building**

Objective 2

(max 50 words)

- **Construction of water harvesting reservoirs for irrigation**

Provision of extension services

Objective 3

(max 50 words)

- **Establishment of nurseries for seeds and seedlings**

Crop diversification and increased farm productivity

Forestation and cultivation of forage crops in vulnerable areas

Objective 4

(max 50 words)

- **Empowerment of local communities**

Alternative sources of income

Short description of the technology

max 250 words

The project works in partnership with concerned stakeholders and in cooperation and in collaboration with other on-going projects to ensure proper management and to avoid duplication. The project is building upon the previous 18km² executed by the GTZ and the MOA in the Qaa region. It covers a watershed of approximately 100km², which is half the area under risks of floods in the Bekaa. Check dams, contour bunds and stone walls are built. Large safety reservoirs (hafaers) are made for collection of flood water. Restoration of vegetation cover, mainly with wild fruit trees (pistchios, pears and almonds); rehabilitation of ranges

Awareness raising and training sessions

Technical specifications of the technology - if any

max 250 words

No answer provided

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

GTZ- (CoDeL Project) Beirut office/ MoA

UNDP

MoA

Address

c/o CCD Focal Point

Ministry of Agriculture - Bir Hassan - Beirut - Lebanon

Was the technology developed in partnership?

Yes

If yes, list the partners:

- GTZ - ACSAD - MoA
-

Specify the framework within which the technology was promoted

- National initiative – non-government-led
- International initiative
- Programme/project-based initiative

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology

Yes

If yes, list local stakeholders involved:

- Local community groups/ local municipalities
-

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.

max 250 words

The local stakeholders are in charge of the maintenance of the structures and the rehabilitated forests and rangelands. The techniques were developed based on traditional experience in building stone walls.

Was the population living in the location and/or nearby involved in the development of the technology?

Yes

If yes, by means of what?

- Consultation
- Participatory approaches

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- 1. To improve the living conditions of affected population
 - 2. To improve the conditions of affected ecosystems
 - 3. To generate global benefits through effective implementation of the UNCCD
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

The soils are maintained and protected; Floods no longer threaten the agricultural lands

2. (max 50 words)

Production is improved through the improved irrigation structures

Socio-economic level (including cultural level):

1. (max 50 words)

Local capacities are built

2. (max 50 words)

Livelihood systems are improved

Environmental level:

1. (max 50 words)

Reforestation and protection of vegetation cover

2. (max 50 words)

Conservation and sustainable management of resources

Other (specify)

1. (max 50 words)

No answer provided

2. (max 50 words)

No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

The surrounding regions are protected from floods and their effects

2. (max 50 words)

The rehabilitation of forests and rangelands contributes to the improvement of the forest and range services in all the region

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

The reforestation and rehabilitation of ranges and vegetation cover with local species contributes to the protection of the biodiversity.

The control of floods reduces the risk of soil and land degradation

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

No answer provided

Explain the reasons:

max 250 words

The retention of water and soils and the reforestation contribute to the mitigation of climate change

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

No answer provided

Explain the reasons:

max 250 words

No answer provided

Has a cost-benefit analysis been carried out?

No

If yes, summarize its main conclusions:

max 250 words

No answer provided

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- Capacity-building and awareness-raising
 - DLDD and SLM monitoring and assessment/research
 - Knowledge management and decision support
 - Participation, collaboration and networking
-

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

No

If yes, where? (add as many rows as necessary)

Location:

No answer provided

Were incentives to facilitate the take up of the technology provided?

No

If yes, specify which type of incentives

No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

Highly motivated farmers; replicable elsewhere

2. (max 50 words)

Highly motivated partners; replicable elsewhere

3. (max 50 words)

Local topography and climatic conditions; replicable elsewhere with some adaptation

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- Local
- Sub-national
- Subregional

Section 8. Lessons learned

Related to human resources

(max 50 words)

- **No lessons learned yet**
-

Related to financial aspects

(max 50 words)

- **No lessons learned yet**
-

Related to technical aspects

(max 50 words)

- **No lessons learned yet**
