Qualitative assessment

Does your country have a national communication strategy addressing DLDD and/or DLDD synergies with climate change and biodiversity in place?

Yes

No

Operational objective 1: Advocacy, awareness raising and education

Provide any complementary information as needed (e.g., regarding the implementation of the Comprehensive Communication Strategy, activities relating to the United Nations Decade for Deserts and the Fight Against Desertification, etc.):

Mozambique is currently implementing a number of CBD and UNFCCC related activities that are directly related to UNCCD/DLDD, aiming at maximizing synergies amongst the 3 Rio Conventions.

Operational objective 1: Advocacy, awareness raising and education

CONS-O-3

Number of civil society organizations (CSOs) and science and technology institutions (STIs) participating in the Convention processes

Global target

A steady growth in the participation of CSOs and STIs in the Convention processes is recorded along the implementation period of The Strategy.

National contribution to global target: number of CSOs and STIs involved in DLDD-related programmes/projects

Year	Number of civil society organizations	Number of science and technology institutions

Voluntary national target

Percent increase in the number of CSOs and STIs participating in the Convention process at national level, per biennium %
2,6

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Is your country undertaking initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects? Yes No

Operational objective 1: Advocacy, awareness raising and education

Provide a short description of actions taken at the national level to promote participation by CSOs and STIs in the Convention processes.

A number of actions and initiatives to promote CSO and STI participation in DLDD have been taken at the national level, including information/dissemination events, awareness raising campaigns, capacity building activities (eg workshops, seminars, fairs), as well as joint (Gov/CSO/STI) implementation of projects/programs related to desertification, land degradation, mitigation of drought, adaptation to climate change and biodiversity, aiming at developing best practices that can be replicated throughout the country.

The following should also be highlighted:

- > The Presidential Initiative on Forests - 'One Leader, One Community Forest' - has continued to be implemented in the current reporting period (2012-2013) being part of the national response to DLDD issues.
- > CSOs have been participating in international and regional forums.
- > The National Fund for Research (FNI) under the Ministry of Science and Technology (MCT) promotes scientific research and technological innovation through financial support to public or private organizations focused on R&D and Technological innovation, with some of this support directed to DLDD.

Operational objective 1: Advocacy, awareness raising and education

CONS-O-4

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education

Global target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and STIs is recorded along the implementation period of The Strategy

National contribution to the global target: number of DLDD-related initiatives implemented by CSOs and STIs in the field of education

Year	Number of CSOs initiatives	Number of STIs initiatives
2008		
2009		
2010		
2011

Aro Mocambique (CSO)-Focal Point of CSO's for the UNCCD

Voluntary national target

Percent increase in the number of DLDD-related education initiatives undertaken by CSOs and STIs, per biennium

%

3,5

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Is your country undertaking initiatives to increase the number of DLDD-related initiatives in the education sector implemented by CSOs and STIs?

Yes No

Provide a short description of actions taken at the national level to increase the number of DLDD-related initiatives of CSOs and STIs in the field of education.

The Government of Mozambique, in particular the Ministry of Education and Ministry for the Coordination of Environmental Action, have been promoting the engagement of Civil Society Organizations in DLDD initiatives in the field of education. Examples of these initiatives include debates of the National Education Institute to promote greater integration of environmental themes in school curricula, joint (Gov/CSOs) organization of Essay Contest on Drought and Desertification in schools, the Presidential Initiative 'One Student, One Tree', and awareness/information campaigns in schools implemented jointly with CSOs.

Operational objective 1: Advocacy, awareness raising and education

Participation of CSOs is also encouraged by Ministry of Education through the inclusion of CSO initiatives in school curricula.

CONS-0-5 Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of national, subregional and regional action programmes (NAPs/SRAPs/RAPs) aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks

Global target Percentage of affected country Parties, subregional and regional entities that have formulated/ revised a NAP/SRAP/RAP aligned to The Strategy **≥ 80 %** **2018**

National contribution to the global target

Does your country have a NAP aligned to the Strategy? Yes No

Qualitative assessment

Is your NAP being implemented? Yes No

Please answer the following two questions only if your country has not aligned the NAP to the Strategy

Voluntary national target

When do you plan to align your NAP to the Strategy? 2014-2015
 2016-2017
 2018-2019
 No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

Qualitative assessment

Provide any complementary information as needed (e.g., national circumstances affecting the NAP alignment and implementation process)

Moz is currently developing its NAP, not having approved one yet.
 In spite of the lack of an approved NAP, a number of DLDD initiatives are taking place, with different sectors implementing DLDD activities at the national level (some in the context of the implementation of the Climate Change Strategy).
 The upcoming NAP, expected to be approved in December 2014, will be in full alignment with the UNCCD 10-Year Strategy.

Sources of information

Ministry for Coordination of Environment Action - MICOA

CONS-O-7

Number of initiatives for synergistic planning/programming of the three Rio conventions or mechanisms for joint implementation, at all levels

Global target

Each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio conventions

2014

National contribution to the global target

Was your country implementing joint planning/programming initiatives for the three Rio conventions in the current reporting period?

Yes Yes, but for only two of the Rio conventions No

Were there any operational mechanisms that facilitated joint implementation of the three Rio Conventions during the current reporting period?

Yes Yes, but for only two of the Rio conventions No

Please answer the following questions if your country has such initiatives or mechanisms in place

Qualitative assessment

If your country has initiatives for synergistic planning/programming of the three Rio conventions, specify the type of joint initiative(s):

Evaluation of national plans and identification of gaps in synergies Identification of national sectors and policies that could benefit from synergies and cooperation Review of national policies to enhance cooperation and synergies Enhancement of the institutional and scientific capacities and awareness of relevant stakeholders Other (please describe below):

Implementation of Joint Programs/Projects

Qualitative assessment

If your country has mechanisms for joint implementation, specify the type of mechanism(s):

Regular meetings between focal points and focal point teams of the Rio conventions A national coordinating committee for the implementation of the Rio conventions National coordination on synergies in reporting under the Rio conventions Other (please describe below):

Provide any complementary information as needed:

Regular (quarterly) meetings of the Focal Points of the three Rio Conventions have taken place to evaluate the joint implementation of these Conventions. Broader (annual) meetings to take stock and report on progress in the implementation of all MEAs ratified by Mozambique have counted with the participation of a wide range of stakeholders/sectors which are involved in the implementation of these conventions.

In addition, the new institutional arrangements for the coordination of the implementation of the National Climate Change Strategy (approved in November 2012) facilitate tapping into synergies between the 3 Rio Conventions by strengthening the Technical Secretariat of the National Council for Sustainable Development (ST-CONDES) with M&E Units which will monitor the Conventions' implementation and facilitate coordination and synergies.

Sources of information

Ministry for Coordination of Environmental Action - MICOA
Ministry of Agriculture - MINAG
Ministry of Science and Technology - MCT

CONS-0-8

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

Global target

Percentage of affected country Parties, subregional and regional reporting entities that have established and supported national monitoring systems for DLDD

≥ 60 %

2018

National contribution to the global target

Is a monitoring system specifically dedicated to DLDD established in your country?

Yes

No

Please answer the following questions if your country has not established and supported national monitoring systems for DLDD by the end of the current reporting period

Voluntary national target

When does your country plan to establish and support a national monitoring system for DLDD?

2014-2015

2016-2017

2018-2019

No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

--

Sources of information

- National Institute for Disaster Management - INGC
- National Directorate for Land and Forests - DNTF
- National Directorate for Water Resources - DNA
- Technical Secretariat for Food Security and Nutrition - SETSAN
- National Institute of Statistics - INE
- Ministry for Coordination of Environmental Action - MICOA
- FEWSNET

Qualitative assessment

Does your country have a monitoring system partially covering DLDD?

Yes

No

Provide any complementary information as needed (e.g., major difficulties experienced, how the system is being supported, etc.):

<p>A number of monitoring systems are being implemented by some sectors, others are being tested (validated) or under development. Examples include: the M&E System for the National Climate Change Response, currently being finalized, which integrates a component on DLDD; SISFLOF, an information system for Forestry and Wildfires; the MRV System for Carbon Stocks, being developed in the context of the REDD+ efforts in the country.</p>

Knowledge-sharing systems

List any DLDD-relevant knowledge-sharing system in your country, providing an Internet link and estimated number of users per year (add as many rows as necessary).

CONS-0-10	Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity			
Global target	<table border="1"> <tr> <td data-bbox="343 291 1212 394">Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.</td> <td data-bbox="1212 291 1356 394">≥ 70 %</td> <td data-bbox="1356 291 1552 394">2018</td> </tr> </table>	Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.	≥ 70 %	2018
Percentage of revised NAPs/SRAPs/RAPs that have successfully gone through a quality self-assessment.	≥ 70 %	2018		

CONS-O-13

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of the National Capacity Self-Assessment (NCSA) or other methodologies and instruments

Global target

Percentage of affected country Parties, subregional and regional reporting entities that implement DLDD-specific capacity-building plans or programmes/projects

≥ 90 %

National contribution to the global target

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of the NCSA?

Yes

No

Is your country implementing DLDD-specific capacity-building plans or programmes/projects on the basis of other methodologies and instruments to assess national capacity-building needs?

Yes

No

Provide any relevant information on the size, scope, effectiveness and status of the initiatives implemented, or other complementary information as needed

Although the National Capacity Self-Assessment (NCSA) was conducted in 2005, it is still providing overall guidance to the development of capacity building programs in the country. Several sector capacity assessments have been conducted since then, providing specific sector information related to DLDD capacity needs. In addition, in the context of the implementation of the national climate change strategy, the country is also conducting local development adaptation plans which include CC vulnerability and capacity assessments at the community level which are relevant to DLDD, in particular in arid and semi-arid zones.

Sources of information

Ministry for Coordination of Environmental Action - MICOA

National Institute for Disaster Management - INGC

Ministry of Agriculture - MINAG

National Directorate of Waters - DNA

Technical Secretariat for Food Security and Nutrition - SETSAN

National Meteorological Institute - INAM

Qualitative assessment

Has your country assessed DLDD-related capacity-building needs?

Yes

No

Did your country receive technical and/or financial assistance to build capacities to combat DLDD?

Yes

No

From which institutions and which type of assistance was provided?

Financial

Technical

UNCCD Secretariat

Global Mechanism

Global Environment Facility

Bilateral agencies

Other multilateral organizations

CONS-O-14 Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the integrated financing strategy (IFS) devised by the Global Mechanism (GM) or within other IFSs, reflect leveraging national, bilateral and multilateral resources to combat DLDD

Global target Percentage of affected country Parties, subregional and regional reporting entities that have developed integrated investment frameworks (IIFs) ≥ 50 % 2014

National contribution to the global target

Does your country have an integrated investment framework? Yes No

Provide any complementary information as needed (e.g. is the IIF based on the NAP; non-traditional and innovative financing targeted by the IIF; overview of the progress in implementing the IIF in your country; assistance received in the development or implementation of the IIF from the GM or other development partners, etc.)

There are a number of DLDD programmes and projects being implemented by different sectors in Mozambique which are funded both by Bilateral and Multilateral Agencies and Governments, as well as by CSOs. Although sectors may have their own IIF including investments related to DLDD, such as the case of the IIF prepared under the Strategic Plan for the Development of the Agriculture Sector (PEDSA), the country does not have an IIF for DLDD.

Sources of information

- Ministry of Agriculture - Agriculture Development Fund - FDA
- Ministry of Planning and Development - MPD
-
-
-
-
-
-
-
-
-
-

Please answer the following questions only if your country has not developed an IIF by the end of the reporting period

Voluntary national target

When does your country plan to establish an IIF? 2014-2015
2016-2017
2018-2019
No Plan Yet

Which national target your country has established to measure progress in achieving the priorities established in the national action programme, if different from the target suggested above?

CONS-O-16

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD

Rating of the bilateral assistance received for the implementation of the Convention and its Strategy during the reporting period

Adequacy of bilateral assistance received	Adequate	<input type="checkbox"/>
	Fairly adequate	<input type="checkbox"/>
	Not adequate	<input checked="" type="checkbox"/>
Timeliness of bilateral assistance received	Timely	<input type="checkbox"/>
	Fairly timely	<input type="checkbox"/>
	Not timely	<input checked="" type="checkbox"/>
Predictability of bilateral assistance received	Predictable	<input type="checkbox"/>
	Fairly predictable	<input type="checkbox"/>
	Not predictable	<input checked="" type="checkbox"/>

Provide any complementary information (e.g., additional information on other aspects beyond those mentioned above which impact proper planning and effective implementation of the Convention in your country, etc.)

The bilateral financial assistance received to date has been insufficient to effectively support the DLDD activities and to have an impact in the country's response to DLDD.

Qualitative assessment

Did your country receive assistance in raising resources from bilateral donors? Yes No

CONS-O-18

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties

Global target

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of the Strategy

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of the Strategy

National contribution to the target: estimated amount of financial resources allocated to facilitate access to technology

Year	Currency	Amount
2008		
2009		
2010		
2011		
2012	USD - US Dollar	2013279

Any other country-specific issues

Does your country have any specific issue to bring to the attention of the Conference of the Parties?

Yes No

If yes, please specify under which of the following broad categories it can be classified

- Policy, legislative and/or institutional framework
- Capacity-building and awareness-raising
- Desertification/land degradation and drought and sustainable land management monitoring and assessment/research
- Funding/resource mobilization
- Knowledge management and decision-making support
- Participation, collaboration and networking
- Reporting and review process
- Other

Please describe below:

Resource mobilization remains the biggest challenge as the continuation of national efforts targeting the integration of DLDD into policies, strategies and development plans at national, provincial, district and community levels, as well as efforts to improve the national capacity to implement the Convention's commitments requires a significant level of investment. The need to create more effective mechanisms to assist affected countries in the development of national capacity for DLDD, the promote monitoring and R&D programs, to strengthen knowledge management, as well as to promote more effective technology transfer, is also crucial for a successful implementation of UNCCD.
