## Impact indicators

### Strategic Objective 4

#### Indicator SO-4-2

Strategic Objective 4

To mobilize resources to support implementation of the Convention through building effective partnerships between national and international actors

**Impact indicator SO-4-2 for expected impact 4.1** (Increased financial, technical and technological resources are made available to affected developing country Parties, and where appropriate Central and Eastern European countries, to implement the Convention)

The share of bilateral official development assistance (BODA) supplied for Convention-related activities

#### Understanding of the indicator

It provides an indication of the financial resources supplied by developed country Parties for DLDD-related investments and other Convention-related activities as part of their bilateral development cooperation.

Data needed

- Official development assistance (ODA) from OECD/DAC member countries
- BODA marked with UNCCD Rio Markers
- DLDD-related programmes and projects using bilateral DFIs
- Convention-related financial commitments through bilateral DFIs

Data sources (indicative only)

- PRAIS (financial annexes and CONS-O-15)
- FIELD (financial data, funding trends) (to be used when data is not available in the PRAIS system, and/or for cross referencing and validity checks)
- OECD Creditor Reporting System (to be used when data is not available in the PRAIS system, and/or for cross referencing and validity checks)
- CRIC performance reviews of OO5 and analyses of financial flows
- Relevant databases and publications on bilateral DFIs and other authoritative entities (to be used when data is not available in the PRAIS system, and/or for cross referencing and validity checks)

## Indicator SO-4-6

Strategic Objective 4

To mobilize resources to support implementation of the Convention through building effective partnerships between national and international actors

**Impact indicator SO-4-6 for expected impact 4.2** (Enabling policy environments are improved for UNCCD implementation at all levels)

Number and type of legal and regulatory frameworks, economic incentives or other mechanisms securing or facilitating the transfer of funds for the implementation of the Convention at all levels.

Understanding of the indicator

It provides a measure of the efforts made by Convention stakeholders to facilitate the implementation of the Convention.

Data needed

- Laws and regulations
- Economic and financial measures (e.g. fiscal rules, tax benefits, credit lines and borrowing rules, etc.)
- Cooperation frameworks (e.g. agreements, memoranda of understanding, contracts, etc.)
- Sectoral policies (e.g. trade, marketing, property rights, business development, etc.)
- Convention-specific mechanisms

### Strategic Objective 4

To mobilize resources to support implementation of the Convention through building effective partnerships between national and international actors

**Impact indicator SO-4-7 for expected impact 4.2** (Enabling policy environments are improved for UNCCD implementation at all levels)

Clear entrusting of institutional responsibilities for UNCCD implementation, at all levels

#### Understanding of the indicator

It provides an indication of the effectiveness of institutional arrangements for the implementation of the Convention with regard to the resource mobilization process

#### Data needed

- Evidence of institutional arrangements, instruments and mechanisms that facilitate resource mobilization, or the lack thereof
- Best practices in resource mobilization

# Performance Indicators

## Operational Objective 1: Advocacy, awareness raising and education

### CONS-O-1 for Outcome 1.1

Number and size of information events organized on the subject of DLDD and/or DLDD synergies with climate change and biodiversity, and audience reached by media addressing DLDD and DLDD synergies.

**Countries being both 'affected' and 'developed' only report on this indicator as 'affected'**

Understanding of the indicator

At the national level, the indicator measures the performance of Convention-related communication strategies, in particular, whether DLDD issues and/or DLDD synergies with climate change and biodiversity are being communicated and if so, whether the communication is considered to be effective. Effectiveness is assessed through the appraisal of the media campaigns carried out; the assumption is that the stronger the media campaigns on DLDD issues and synergies, the higher the probability of passing the messages on to the target audiences. The focus of the indicator is on information activities specifically dedicated to DLDD issues and/or DLDD synergies with climate change and biodiversity. Other reporting entities will complement the information provided by developed country Parties by reporting on Convention-related communication strategies at subregional, regional and global levels.

Data needed

- Information on events/media specifically addressing DLDD and/or DLDD synergies with climate change and biodiversity; only events organized by the major national DLDD stakeholders about which NFPs have been informed should be considered.
- Media products in the five most important national TV/radio channels and the five most relevant national newspapers

Data sources (indicative only)

'How can the number of information events and estimated number of participants in information events be determined?', 'How can the number of media products be determined?', 'How can the proportion of the population which is informed about DLDD and/or DLDD synergies with climate change and biodiversity be estimated?'

Overall target

By 2018, 30 per cent of the global population is informed about DLDD and/or DLDD synergies with climate change and biodiversity.

**CONS-O-3 for Outcome 1.3**

Number of civil society organizations (CSOs) and science and technology institutions (STIs) participating in the Convention processes.

**Countries being both 'affected' and 'developed' only report on this indicator as 'affected'**

Understanding of the indicator

At the national level, the indicator measures the level of participation of CSOs and STIs in DLDD-related programmes and projects. The indicator will outline whether the active involvement of these stakeholders increases over time and whether programmes/projects are valid tools for the engagement of, and receiving contributions from, CSOs and STIs at the field level. Other reporting entities will complement the information provided by developed country Parties by reporting on the involvement of CSOs and STIs at the national, subregional, regional and global levels; additionally, the secretariat and the GM will report on the involvement of CSOs and STIs at the institutional level.

Data needed

- A list of the organizations involved in the programmes/projects in the reporting country as well as in the affected countries as reported in the PPSs

Data sources (indicative only)

- Information on CSOs and STIs involved in the DLDD-related programmes and projects in the reporting country;  
- PPSs submitted to the UNCCD as part of the reporting exercise.

Check the glossary for

'STIs', 'CSOs', 'PPS', 'Convention processes'

Check the reporting manual for

'Which civil society organizations (CSOs) involved in DLDD-related programmes/projects should be counted?'

Overall target

A steady growth in the participation of CSOs and STIs in the Convention processes is recorded along the implementation period of The Strategy.

**Number of CSOs/STIs involved in DLDD-related programmes/projects**

In the PPSs you have specified the number of CSOs and the number of STIs involved in each programme/project in affected countries. Add these numbers and give the totals by year in the table below.

Provide also the number of CSOs and STIs involved in programme/projects in reporting country.

### CONS-O-4 for Outcome 1.3

Number and type of DLDD-related initiatives of civil society organizations (CSOs) and science and technology institutions (STIs) in the field of education.

#### Countries being both 'affected' and 'developed' only report on this indicator as 'affected'

##### Understanding of the indicator

At the national level, the indicator measures the number of DLDD-related initiatives undertaken by CSOs and STIs in the education sector. The assumption is that the higher the number of DLDD-related education initiatives undertaken by these stakeholders, the stronger their interest in addressing DLDD problems. This indicator focuses on "education" because "awareness" and "advocacy" are already measured through indicators CONS-O-1 and CONS-O-2, respectively. Other reporting entities will complement the information provided by developed country Parties by reporting on the involvement of CSOs and STIs at the national, subregional, regional and global levels.

##### Data needed

- Information on initiatives undertaken in the field of education that may be found in: written communications by CSOs and STIs to the NFP; contractual and/or programme/project-related documents; records of academic bodies and their curricula, Internet resources made available by CSOs and STIs. Only initiatives in the field of education taken in the country and directly relating to DLDD issues are to be considered.

## **Operational Objective 2: Policy framework**

### **Performance indicator CONS-O-6 for Outcome 2.4**

Number of partnership agreements established within the framework of the Convention between developed country Parties/United Nations and IGOs and affected country Parties.

#### Understanding of the indicator

The indicator measures the existence of policy-enabling environments by quantifying the number of partnership agreements established between developed country Parties on one side and affected country Parties on the other, on a bilateral basis but always and only within the framework of UNCCD. Partnership agreements allow the mainstreaming of UNCCD objectives and SLM interventions into the development cooperation programmes and projects of developed country Parties; they also provide affected country Parties with a regular flow of resources according to written terms and conditions. The assumption is that the higher the number of partnerships agreements on which affected country Parties may count, the higher their chance of relying on diverse resources to tackle the objectives of the Convention. UN organizations and IGOs will complement the information provided by developed country Parties by reporting on partnership agreements established with affected country Parties on a multilateral basis. As a result of COP 10, developed country Parties have additional opportunities to provide complementary information on partnership agreements established under frameworks other than the UNCCD but nevertheless in line with the Convention goals and/or in support of the NAPs of affected country Parties (see section on complementary information).

#### Data needed

- Records of partnership agreements concluded in a written form. Only partnership agreements directly relating to the UNCCD and concluded within the framework of the Convention, and those established under other frameworks, are to be considered.
- Only agreements under implementation during the reporting period should be considered.

### **Performance indicator CONS-O-7 for Outcome 2.5**

Number of initiatives for synergistic planning/programming of the three Rio Conventions or mechanisms for joint implementation, at all levels.

Understanding of the indicator

The indicator measures the existence of synergistic processes through the number of instruments (i.e. joint planning/programming and/or operational mechanisms) in place in affected country Parties and/or at subregional/regional level which foster the introduction of, or strengthen the mutually reinforcing measures among, the three Rio Conventions, and whose establishment has been supported (technically and/or financially) by developed country Parties either within the framework of UNCCD or of other initiatives. The assumption is that the higher the number of enabling instruments in place, the higher the possibility of achieving synergies in implementation. The information provided by developed country Parties will be complemented by the reporting of other entities on synergistic processes at the national, subregional, regional and global levels.

Data needed

- Planning/programming documents; information from partnership agreements and programmes/projects
- Information on operational mechanisms explicitly aimed at achieving joint implementation, synergies and convergence, as well as at introducing or strengthening reinforcing measures among the Rio Conventions

Data sources (indicative only)

### **Operational Objective 3: Science, technology and knowledge**

#### **Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2**

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD

Understanding of the indicator

The indicator measures the monitoring potential of affected countries, subregional and regional entities by quantifying the number of monitoring systems supported by developed countries at their respective geographical levels. These monitoring systems may be specifically dedicated to DLDD or may partially cover it. The indicator will inform on the extent to which it is realistic to expect more regular and coherent reporting by affected country Parties, subregional and regional entities during the implementation of The Strategy and beyond. Developed country Parties are requested to report on monitoring systems they have supported (technically and/or financially) either within the framework of UNCCD or of other initiatives and within the timeframe of the reporting period. The information provided by developed country Parties will be complemented by the reporting of other entities on UNCCD-relevant monitoring systems established and supported at the subregional, regional and global levels.

Data needed

- Information on monitoring systems established within the national ministries or other bodies/institutions in affected country Parties and UNCCD subregions/regions.
- Programme/project documents and interim or final reports.

**Performance indicator CONS-O-11 for Outcome 3.5**

Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website

Understanding of the indicator

At the national level, the indicator measures the presence of DLDD-related knowledge-sharing processes, through the quantification of the type and number of existing knowledge-sharing systems. Effectiveness of these systems is measured through quantification of their user-base. The indicator will inform to what extent scientific and traditional knowledge, including best practices, are available to and sufficiently shared with end-users. This information will be complemented by the reporting of other reporting entities on existing UNCCD-relevant knowledge-sharing systems at the subregional, regional and global levels.

Data needed

## **Operational Objective 4: Capacity building**

### **Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2**

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of NCSA or other methodologies and instruments

Understanding of the indicator

The indicator measures the presence of DLDD-related capacity-building processes implemented in affected country Parties and/or at subregional/regional level through the quantification of existing DLDD-related capacity-building initiatives supported by developed country Parties. The indicator will inform to what extent affected country Parties, subregional and regional entities may be expected to meet their obligations foreseen by the Convention, including forthcoming ones (i.e. new reporting requirements, establishment of monitoring systems, accessing new financing mechanisms). The information provided by developed country Parties will be complemented by the reporting of other entities on capacity-building initiatives at the national, subregional, regional and global levels.

Data needed

- Information on DLDD-related capacity-building initiatives.
- Only capacity-building plans/programmes/projects mentioned in the PPS that have DLDD-related capacity-building as a major objective are to be considered.

Data sources (indicative only)

- PPSs submitted to UNCCD as part of the reporting exercise.

## Operational Objective 5: Financing and technology transfer

### Performance indicator CONS-O-14 for Outcome 5.1

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other IFSs, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation

#### Understanding of the indicator

The indicator measures the presence of integrated financing processes allowing the leverage of national, bilateral and multilateral resources for combating DLDD, through the quantification of investment frameworks financially and/or technically supported by developed country Parties in affected countries and/or in subregions/regions. Investment frameworks may be those developed within the IFS devised by the GM or other IFSs promoted by international institutions. The information provided by developed country Parties will be complemented by the reporting of other reporting entities on IIFs at national, subregional and regional levels.

#### Data needed

- Investment framework documents.
- Only investment frameworks prepared along the guidelines devised within IFSs shall be considered.
- A distinction shall be made between IIFs established within the IFS devised by the GM and those established within other IFSs.

## Qualitative assessment

**Identify the major difficulties experienced in the development process**

For those developed countries which have supported one or more IIF(s) at national and/or subregional/regional levels,

identify the major difficulties experienced in the process.

Reason	Level of importance
Lack of coordination among relevant ministries of the recipient country(ies) for the provision of needed technical and financial information	---
National bilateral and multilateral resources are too diverse; cannot be realistically coordinated under one umbrella	---
Other	---

**Other (specify)**

*No answer provided.*

**Identify the reasons that prevented the delivery of this type of support**

For those developed countries which have not supported an IIF at national and/or subregional/regional levels, identify the reasons that prevented the delivery of this type of support.

Reason	Level of importance
Lack of financial resources	5
Not requested by affected and/or subregional or regional entities	5
Exercise is too time-consuming compared to the advantages offered	5

**Performance indicator CONS-O-15 for Outcome 5.2**

Amount of financial resources made available by developed country Parties to combat DLDD

Understanding of the indicator

The indicator measures the performance of the bilateral contribution process through quantification of the flow of financial resources from developed country Parties to affected country Parties for the implementation of the Convention, in compliance of the obligation foreseen by article 6 of the Convention, paragraph (b). The level of performance will indicate whether financial resources contributed by developed country Parties in the reporting period are substantial enough. Only developed country Parties report on this indicator.

Data needed

Total amounts committed within DLDD-related programmes and projects supporting affected country Parties.

Data sources (indicative only)

- SFAs submitted to UNCCD as part of the reporting exercise.
- Only programmes/projects where the reporting developed country Party has made a financial contribution shall be considered.

Check the glossary for 'SFA', 'currency', 'RACs'

Check the reporting manual for 'What thematic areas should be considered?'

Overall target

-

**Amounts made available to affected country Parties through DLDD-related programmes and projects**

Refer to the programmes and projects submitted as SFAs to the UNCCD and for which your country has made a financial commitment. Sum the amounts committed by your country during the reporting period and give the total in the table below.

Biennium	Currency	Amounts committed
2010–2011	EUR	8360961

### Qualitative assessment

Identify the reasons for the increasing or decreasing trend of financial resources made available to affected country Parties to combat DLDD.

#### Reasons for increasing

Rate the level of importance by using a scale from 0 to 5, where 0 is not important at all and 5 is very important.

Reason	Level of importance
Increased availability of national resources for development cooperation in general	5
Improved profile of UNCCD at the global level, including monitoring of performance	3
Increased prioritization of UNCCD by developed country Parties	3
Other	---

#### Other (specify)

*No answer provided.*

#### Reasons for decreasing

Rate the level of importance by using a scale from 0 to 5, where 0 is not important at all and 5 is very important.

Reason	Level of importance
Less national resources dedicated to development cooperation in general	4
Other development cooperation frameworks are more attractive than UNCCD	4
Other	---

#### Other (specify)

## Standard Financial Annex

The CRIC has recommended that financial reporting be based on a standard financial reporting format to be used by affected country Parties and their development partners. It also indicated that emphasis in reports should be put on financial matters and also on an analysis of the impact of the activities undertaken (ICCD/CRIC(8)/5).

The purpose of the SFA is to consolidate information on resources mobilized by affected country Parties and their development partners under the framework of relevant strategies and action programmes. It facilitates the aggregation of data on financial commitments, financial flows and resources available by all relevant funding sources for activities related to the implementation of the Convention. It also helps minimize double counting in financial statistics (ICCD/CRIC(8)/5/Add.4).

The SFA is to be used by each country Party and other reporting entities to list all financial commitments they have made during the reporting period in support of institutions, programmes, projects, as well as other relevant initiatives undertaken at national or international level for the implementation of the Convention.

More specifically, for each relevant financial commitment or allocation made in the reporting period, the SFA requires a minimum set of data grouped as follows:

- a. Identification, i.e. data required to identify the reporting entity, the funding source and the activity financed;
- b. Basic data, i.e. data specifying the amount and type of financial commitment made, as well as the recipient country, region, and/or organization, and the funding period, if applicable;
- c. Classification, i.e. categorization of the funded activity according to the Rio Markers for desertification, and the UNCCD Relevant Activity Codes (RACs).

The compilation of the SFA is guided by means of a template, which responds to the recommendations of CRIC 7, and builds on the GM methodological guide for financial reporting presented to CRIC 6 as part of the report of the intergovernmental Ad Hoc Working Group to improve the procedures for communication of information.

Within the template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by the reporting entities with relevant data or narrative information.

Decision 13/COP.9, paragraph 8, invites country Parties and other reporting entities to refer to common terminology and definitions. Therefore, these guidelines should be read in conjunction with the comprehensive glossary of performance indicators for the review of implementation of The Strategy and Best Practices, common to all reporting entities and contained in a separate document (ICCD/CRIC(9)/13).

## Programme and Project Sheets

Programme and Project Sheets (PPS) are used to provide more detailed information on programmes or projects undertaken or completed in the reporting period. This includes programmes and projects in the pipeline, as well as final proposals submitted for funding to internal or external funding sources. All country Parties and other reporting entities involved in the financing, coordination or implementation of relevant programmes and projects are requested to prepare a PPS for each of them, and to attach them to their official report to the UNCCD.

The compilation of the PPS is guided by means of a template. These templates are intended to collect a minimum set of qualitative and quantitative data to facilitate the analysis of funding and investment flows, and the production of better financial statistics related to UNCCD implementation (ICCD/CRIC(8)/5/Add.4), with a view to enabling the CRIC to undertake an objective review of progress in the implementation of the Convention and The Strategy. The PPS also facilitate the computation of certain performance and impact indicators .

A distinctive feature of the PPS is that it allows country Parties and other reporting entities to specify which strategic and operational objectives of The Strategy are targeted by each programme or project. In addition, it allows for individual programme or project components to be categorized using the Rio Markers for desertification and Relevant Activity Codes (RACs).

Furthermore, the PPS can be used to indicate whether the objectives of other Rio Conventions (i.e. the United Nations Convention on Biological Diversity, UNCBD – and the United Nations Framework Convention on Climate Change, UNFCCC) are also addressed by the programme or project. This is done through the use of the biodiversity and climate change Rio Markers, respectively.

The PPS offers an opportunity to increase the visibility of relevant programmes and projects, thereby creating the conditions for a better sharing of experiences and lessons, as well as the transfer of knowledge in general. It also favours collaboration and networking by facilitating the identification of potential synergies.

Lastly, the PPS also allows country Parties and other reporting entities to provide a narrative description of the expected or achieved results. This information will facilitate the qualitative assessment of progress in the implementation of The Strategy, including on returns on investment. The CRIC will use the analysis of financial information originating from the PPS to assess results, performance and impacts.

To minimize the reporting burden and avoid discrepancies in the information annexed to the reports of different entities, it is recommended that project partners identify the most suitable ways to coordinate among themselves the preparation of PPS to ensure that consistent data are reported for the same projects. It would also be advisable to compile just one PPS for large “umbrella” programmes, instead of separate PPS for each small project stemming from them.

### Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project.

- A specific objective of the DW-E project is to develop an operational information system (DW-E IS) based on EO technology and able to support national and regional authorities of all UNCCD Parties, both in reporting commonly to the Convention and in assessing and monitoring land degradation and its trends over time. The DW-E Information System will be user-tailored software, which will implement a methodology for mapping and monitoring desertification and land degradation phenomena. Another specific objective of the project is to develop an integrated methodology, which may be commonly

accepted, even if with minor adjustments, by all UNCCD parties.

## Additional Information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by country Parties and consequently to make more targeted and specific recommendations to the COP. It allows country Parties to comment or report upon issues that are not covered elsewhere but that are nevertheless of importance within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of developed country Parties within the framework of the Convention, as requested by decision decision 13/COP.9, paragraph 17.

### Reporting process-related issues

---

#### Financial resources

*Could your country count on sufficient financial resources to meet UNCCD reporting obligations?*

Yes

*Provide an estimate of the amount invested from your country's national budget into the UNCCD reporting process.*

15000 Euro

---

#### Human resources and knowledge

*How many people were involved in your country in the UNCCD reporting process?*

25 people

*Estimate the total number of person-days dedicated by these persons to the UNCCD reporting process*

3 person-days

*Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations?*

Yes

*If no, list the main reasons and the difficulties encountered.*

No answer required.

---

#### Coordination, participation and consultation

*Was coordination at the national level with the relevant line ministries satisfactory in order to comprehensively and coherently report?*

Yes

*Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process?*

Yes

---

#### Validation meeting

*Was a validation meeting held as a part of the reporting process?*

Yes

---

#### PRAIS portal

*Did you make use of the training on access and utilisation of the PRAIS portal?*

*No answer provided.*

**Did you experience difficulties with access and utilization of the PRAIS portal?**

**Yes**

**If you experienced difficulties, identify the reasons.**

Rate the level of importance by using a scale from 0 to 5, where 0 is not important at all and 5 is very important.

Reason	Level of importance
Slow internet access	4
Complexity of the system	3
Difficulties in getting access credentials	0
Other	4

**Other (specify)**

**Several repetition and redundant questions**

---

**Accommodation of specific requests within decisions by the Conference of the Parties**

**Reporting on specific COP requests – iterative process on indicators**

Decision 13/COP.9, paragraphs 2, 3 and 4, envisages an iterative process to refine the set of performance and impact indicators. As a tool to implement this iterative process, developed country Parties can provide their suggestions and recommendations for improvement here.
