General Information Section

Reporting country *	Romania
Name and surname of the person submitting the report *	Doru Leonard Irimie
Affiliation and contact details *	doru.irimie@madr.ro

Performance Indicators

C. Performance indicators

Performance indicators are for measuring progress against the five operational objectives of The Strategy, in line with decision 3/COP.8. The year 2008 (the first year of the Strategy) serves as the baseline year.

Affected country Parties are requested to report on the following fourteen performance indicators out of the eighteen consolidated performance indicators presented in ICCD/CRIC(8)/5/Add.1 and Add.2.

Reporting is guided by means of templates, one for each performance indicator. Within the templates, shaded areas contain information and explanatory texts and white areas are for reporting purposes and need to be filled in by affected country Parties with relevant quantitative data, selection of multiple choice boxes, or narrative information.

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-1 for Outcome 1.1

Number and size of information events organized on the subject of DLDD and/or DLDD synergies with climate change and biodiversity, and audience reached by media addressing DLDD and DLDD synergies.

Understanding of the indicator

At the national and local level, the indicator measures the performance of Convention-related communication strategies, in particular, whether DLDD issues and synergies are being communicated and if so, whether the communication is considered to be effective. Effectiveness is assessed through the appraisal of the media campaigns carried out; the assumption is that the stronger the media campaigns on DLDD issues and synergies, the higher the probability of passing the messages on to the target audience. The focus of the indicator is on information activities specifically dedicated to DLDD and/or DLDD synergies with climate change and biodiversity. Other reporting entities will complement the information provided by affected country Parties by reporting on Convention-related communication strategies at subregional, regional and global level.

Data needed

Information on events/media specifically addressing DLDD and/or DLDD synergies with climate change and biodiversity.

Attendance lists of events (meetings, workshops, seminars), programmes/projects' documents, estimate of target audience for major media events (campaigns, radio and television programmes, etc.).

Events organized and media produced by the UNCCD NFP or organized/produced by third parties not directly reporting to the Convention (TV channels, newspaper editors, etc.) shall be considered.

Data sources (indicative only)

International and national media (newspapers) advertising the events at national and local level, the Internet, the organizers of the events, programmes/projects' final reports.

Check the glossary for

'NFP', 'ICT', 'Information events', 'Media products', 'STIs', 'CSOs'

Media products have been grouped into: (a) Paper media products (articles, press releases, leaflets, flyers, brochures and comics, etc.); (b) radio and television programmes; (c) other ICT (websites, CDs, DVD, etc.).

Overall target

By 2018, 30 per cent of the global population is informed about DLDD and DLDD synergies with climate change and biodiversity

Number of information events

Year	Number of information events	Estimated number of participants in the information events
2008	5	10000
2009	5	10000

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **Public: Data for "Papers" collected by Internet search, using DLDD keywords. 300 resulted after "conservativeness" adjustments. For TV/Radio, there are min. 5 weekly programmes on agriculture/related issues;**

CSO: 150 env. NGOs, consid. "reached";

STI: 20, reached.

ICT: 1/4 Romanians Internet access

- **Yearly information events:**

-17 June, IDCD

-15 March-15 April, "Forest Month"

-22 March, International Day of Water

-23 March, International Day of Meteorology

-5 June, Environment Day

The former is specially dedicated to DLDD, the latter 4 are relevant for the synergies among the Rio Conventions

Attachments:

none

National contribution to the target

On the basis of the information you have provided above, estimate the proportion (%) of the population in your country which is informed about DLDD and DLDD synergies with climate change and biodiversity at the time of reporting?

Estimated share of total country population =

100 %

Qualitative assessment

Is the information you have provided on communication processes part of a national communication strategy addressing environmental issues?

No

Performance indicator CONS-O-3 for Outcome 1.3

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-3 for Outcome 1.3

Number of CSOs and science and technology institutions participating in the Convention processes.

Understanding of the indicator

At the national level, the indicator measures the level of participation of civil society organizations (CSOs) and science and technology institutions (STIs) in DLDD-related programmes and projects. The indicator will outline whether the active involvement of these stakeholders in country-based initiatives increases over time and whether programmes/projects are valid tools for the engagement of, and receiving contributions from, CSOs and STIs at the field level. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level; in particular, the secretariat and the GM will report on the involvement of CSOs and STIs at the institutional level.

Data needed

The specification of the organizations involved in the programmes/projects as reported in the PPSs.

Data sources (indicative only)

PPSs submitted to the UNCCD as part of the reporting exercise.

Check the glossary for

'STIs', 'CSOs', 'PPS', 'Convention processes'

Overall target

A steady growth in the participation of CSOs and science and technology institutions in the Convention processes is recorded along the implementation period of The Strategy.

In the PPSs you have specified the number of CSOs and the number of STIs involved in each programme/project. Add these numbers and give the totals by year in the table below.

Year	Number of CSOs involved in DLDD-related programmes/projects	Number of STIs involved in DLDD-related programmes/projects
2008	10	15
2009	10	15
2010		
2011		
2012		
2013		
2014		
2015		
2016		
2017		
2018		

Sources of information

Programme and project sheets (PPSs) submitted to UNCCD

No answer required

National contribution to the target

At the time of reporting, is your government undertaking concrete initiatives to increase the participation of CSOs and STIs in DLDD-related programmes and projects?

No

Qualitative assessment

Specify the reasons for the increasing and/or decreasing trend of the participation of CSOs and STIs to DLDD-related programmes/projects. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very important
X Increased networking and collaboration opportunities			X
X Increased access to information and to national and/or international financing opportunities		X	
X Increased willingness of the government in working with CSOs		X	
X Increased interest of donors in working with CSOs	X		
X Strengthened organizational, project management and fund-raising capacity of CSOs			X
X Increased funding opportunities requiring partnership with the STIs			X
X Strengthened organizational, project management and fund-raising capacity of the STIs			X

Other

Other (specify) (max 30 words)

No answer provided

Reasons for decreasing for CSOs

	Not important	Important	Very important
Costly participatory processes			
Low organizational, fund-raising and project management capacity of CSOs			
Government policies and/or the legal environment do not foster the engagement of CSOs			
Diminishing funding			
X Other			

Other (specify) (max 30 words)

Is seems premature to assess trend after only one session of reporting on performance indicators

Reasons for decreasing for STIs

	Not important	Important	Very important
DLDD topics are not prioritized by national STIs			
Low organizational, fund-raising and project management capacity of STIs			
Decreased networking opportunities at national and international level			
Diminishing funding			
X Other			

Other (specify) (max 30 words)

Is seems premature to assess trend after only one session of reporting on performance indicators

Performance indicator CONS-O-4 for Outcome 1.3

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-4 for Outcome 1.3

Number and type of DLDD-related initiatives of CSOs and science and technology institutions in the field of education.

Understanding of the indicator

The indicator measures the number and type of DLDD-related initiatives undertaken by CSOs and STIs in the education sector at the national level. The assumption is that the higher the number of DLDD-related education initiatives undertaken by these stakeholders, the stronger their interest in addressing DLDD problems. A distinction is made between activities carried out in the formal education sector and in the non-formal education sector. This indicator focuses on "education" because "awareness" and "advocacy" are already measured through indicators CONS-O-1 and CONS-O-2, respectively. Other reporting entities will complement the information provided by affected country Parties by reporting on the involvement of CSOs and STIs at subregional, regional and global level.

Data needed

Information on initiatives undertaken in the field of education that may be found in: written communications by CSOs and STIs to the NFP; contractual and/or programme/project-related documents; records of academic bodies and their curricula.

Only initiatives in the field of education (formal and non-formal) directly relating to DLDD issues are to be considered.

Data sources (indicative only)

CSOs and STIs operating in the country.

Check the glossary for

'CSOs', 'STIs', 'NFP', 'Formal education', 'Non-formal education'.

Overall target

A steady growth in the number of DLDD-related education initiatives undertaken by CSOs and science and technology institutions is recorded along the implementation period of The Strategy

Number of DLDD-related initiatives undertaken

Year	Number of DLDD-related initiatives undertaken by CSOs formal education	Number of DLDD-related initiatives undertaken by CSOs non-formal education	Number of DLDD-related initiatives undertaken by STIs formal education	Number of DLDD-related initiatives undertaken by STIs non-formal education
2008	15	15	0	0
2009	15	15	0	0
2010				
2011				
2012				
2013				
2014				

2015			
2016			
2017			
2018			

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

• **Assumptions/estimations:**

- Ca. 1/4 projects in the UNDP/GEF Small Grants Programme in the years 2008-2009 related to DLDD
- Ca. 70% of the 150 env. NGOs were active in "education" (RO NGOs Report 2008), i.e., ca. 100 in total
- if 1 activity/year, 1/4 DLDD, than ca. 30 education initiatives (15:15)

Attachments:

none

National contribution to the target

At the time of reporting, is your government undertaking concrete initiatives to increase the delivery of DLDD-related initiatives in the education sector by CSOs and STIs?

Yes

Qualitative assessment

Specify the reasons for the increasing and/or decreasing trend of DLDD-related education initiatives undertaken by CSOs and STIs.

(tick as many boxes as necessary and rate the level of importance)

		Not important	Important	Very important
X	Increased access to funding		X	
X	Increased awareness of DLDD-related problems and of the need for action		X	
X	Increased knowledge of DLDD-related topics and enhanced skills of trainers/teachers		X	
X	Government policies are more supportive of education initiatives	X		
X	International donors are more supportive of education-focussed initiatives.	X		
X	Other	X		

Other (specify) (max 30 words)

STI are more involved in research projects than in education. DLDD does not appear as distinct category of CSOs activity (i.e., low awareness); are rather included into rural development, climate change, sustainable use of natural resources (land). One cannot identify trend for the first 2 years!

Reasons for decreasing for CSOs

		Not important	Important	Very important
	Lack of financial resources			
	Insufficient awareness and knowledge by national CSOs of DLDD-related issues			
	Limited capillary presence of national CSOs at the grass-root level			
X	Other	X		

Other (specify) (max 30 words)

NGOs tend to concentrate on the environmental components/sectors higher on the Government agenda (e.g., climate change, waste management, biodiversity). Trend assessment after the first session of reporting in the new format seems premature .

Reasons for decreasing for STIs

		Not important	Important	Very important
	Lack of financial resources			
	National STIs are more focussed on research activities than on education and training			
X	Other	X		

Other (specify) (max 30 words)

Education and training are usually outside the preoccupation of the institutes of research & development. Trend assessment after the first session of reporting in the new format seems premature .

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Operational Objective 2: Policy framework

Performance indicator CONS-O-5 for Outcomes 2.1, 2.2 and 2.3

Number of affected country Parties, subregional and regional entities to have finalized the formulation/revision of NAPs/SRAPs/RAPs aligned to The Strategy, taking into account biophysical and socio-economic information, national planning and policies, and integration into investment frameworks.

Understanding of the indicator

At the national level, the indicator measures the performance of affected country Parties in formulating or revising their NAPs in alignment with The Strategy. While providing information on this process, the indicator also outlines whether: (a) the analysis of DLDD drivers, barriers to possible solutions, and measures that may eventually overcome these barriers, has been carried out; (b) the alignment process has been supported by biophysical and socio-economic baseline information; (c) the action programmes have been included in integrated investment frameworks; and (d) the action programmes have been integrated with other existing national plans and policies. The indicator will inform on the extent to which Parties have responded to decision 3/COP.8, paragraph 45, and on the feasibility of assessing the progress of The Strategy over its implementation period (2008–2018). Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on formulation or revision of SRAPs and RAPs in alignment with The Strategy.

Data needed

UNCCD NAP. Only a NAP formally approved by the relevant governmental authorities is to be considered as 'finalized'.

Other relevant planning documents.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'Finalized', 'NAP', 'NFP', 'driver', 'barrier', 'integrated investment framework', 'baseline'

Overall target

By 2014, at least 80 per cent of affected country Parties, subregional and regional entities have formulated/ revised a NAP/SRAP/RAP aligned to The Strategy.

NAP Adoption and Revision

Had your country already adopted a NAP prior to The Strategy?

Yes

If yes, has your country revised the NAP in alignment with The Strategy?

Yes

If you have revised the NAP in alignment with The Strategy, specify the date of its approval.

15/04/2008

If you have not revised the NAP in alignment with The Strategy, specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very Important
Not a priority for the government			
Lack of capacities			
Lack of financial resources			
Understaffing			
Lack of time			
Poor internal coordination among relevant ministries			
Other			

Other (specify) (max 30 words)

No answer provided

If your country had no NAP adopted prior to The Strategy, have you formulated an aligned NAP after The Strategy's adoption in 2008?

No answer provided

If yes, specify the date of its approval.

No answer provided

If at the time of reporting you have not formulated a NAP aligned to The Strategy specify why the process was not initiated. (tick as many boxes as necessary and rate the level of importance)

	Not important	Important	Very Important
Not a priority for the government			
Lack of capacities			
Lack of financial resources			
Understaffing			
Lack of time			
Poor internal coordination among relevant ministries			

Other

Other (specify) (max 30 words)

No answer provided

The questions below apply only to those countries having a NAP aligned to The Strategy

If you have a NAP, is it supported by biophysical and socio-economic baseline information?

Yes

If you have a NAP, does it assess DLDD drivers?

Yes

If you have a NAP, does it assess the barriers to sustainable land management?

Yes

If yes, does the NAP include recommendations to remove these barriers?

Yes

If you have a NAP, has it been included into an integrated investment framework?

Yes

If you have a NAP, has it been integrated into national development planning and relevant sectoral and investment plans and policies?

No

If yes, has the NAP been integrated into your country's Poverty Reduction Strategy Paper?

No answer provided

Did you refer to the Guidelines on the alignment of action programmes with The Strategy as proposed in ICCD/COP(9)/2/Add.1 while developing or reviewing your action plan?

No

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- http://www.madr.ro/pages/strategie/strategie_antiseceta_update_09.05.2008.pdf
The revised NAP-UNCCD, endorsed by the National Committee on DLDD (political-scientific & advisory body) on 15.04.2008, has been posted ever since on the website of the Agriculture Ministry
- The revised NAP-UNCCD has been endorsed by the National Committee on DLDD, but it was not formally approved by the Government, yet. Alignment with the Strategy was made during the NAP revision exercise in the second half of 2007, in parallel with the negotiations on the Strategy for COP 8 (sept. 2007)
- Prior to the eventual approval by the Government, the NAP revised in 2008 should be up-dated with regard to:
 - the current institutional/organisational framework;
 - reviewed funding (investment framework);
 - progress made within the UNCCD with regard to the reporting on performance & impact indicators

Attachments:

none

National contribution to the target

If you do not have an approved NAP aligned to The Strategy at the time of reporting, when do you plan to have it developed and approved?

2010-11

Qualitative assessment

Has the formulation and/or alignment of the NAP been supported by external assistance?

No

If yes, did you receive assistance from one or more of the following institutions? (more than one box can be ticked)

No answer provided

If yes, which type of assistance did you receive?

No answer provided

Identify the major difficulties experienced in the formulation/alignment process (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
X	Not a priority for the government	X		
X	Poor availability of biophysical and socio- economic baseline information		X	
X	Existing investment frameworks are not fully compatible with the NAP		X	
X	Streamlining the NAP into existing plans and policies is too time-consuming		X	
X	Other			X

Other (specify) (max 30 words)

Availability of resources and studies from partner institutions. Consultation and formal endorsement -extensive, resource-consuming process. Further approval by the Government hindered by repeated reorganisation in 2008-2009, lowering of DLDD on the political agenda and economic recession.

Performance indicator CONS-O-7 for Outcome 2.5

Understanding of the indicator

The indicator measures the existence of synergistic processes through the number of instruments (i.e. joint planning/programming and/or operational mechanisms) in place at the national level which foster the introduction of or strengthen the mutually reinforcing measures among the three Rio Conventions. The assumption is that the higher the number of enabling instruments in place, the higher the possibility of achieving synergies in implementation. This information will be complemented by the reporting of other reporting entities on synergistic processes at the subregional, regional and global level.

Data needed

Planning/programming documents and legislative/regulatory documents.

Only operational mechanisms which have the achievement of joint implementation, synergies, convergence, and the introduction or strengthening of reinforcing measures among the Rio Conventions clearly stated in their objectives shall be considered under this indicator.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

"Joint planning/programming initiatives", "Operational mechanisms for joint implementation or mutual reinforcement"

For an indicative list of activities by Parties to promote synergies among the Rio Conventions, refer to [target=blank>UNEP/CBD/COP/DC/IX/16, Annex II](#)

Overall target

By 2014, each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio Conventions

Are you implementing joint planning/programming initiatives for the three Rio Conventions?

Yes

If yes, specify the type of joint initiative(s) (tick as many boxes as necessary)

- Review of national plans and identification of gaps in synergies
- Identification of sectors and policies that could benefit from synergies and cooperation
- Review of plans and policies to enhance cooperation
- Enhancement of the institutional and scientific capacity of relevant stakeholders as well as of their awareness
- Other

Other (specify) (max 30 words)

There is currently in the implementation stage (2009-2011) a UNDP-GEF project on "Strengthening Capacity to Integrate Environment and Natural Resource Management for Global Environmental Benefits (CB2)", which includes the issues above regarding the three Rio Conventions within its main objectives.

Do operational mechanisms for joint implementation or mutual reinforcement exist in your country?

Yes

If yes, specify the type of mechanism(s) (tick as many boxes as necessary)

- Carry out of periodic meetings between focal points and focal point teams
- Other

Other (specify) (max 30 words)

NFPs for the three Rio Conventions are now within the Environment Ministry. Cooperations among them is ensured within the UNDP-GEF project Steering Committee and other meetings. A national coordination committee for the 3 Rio Conventions is under consideration by the UNDP-GEF project (CB2).

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- http://www.undp.ro/projects.php?project_id=56

Succint information on the UNDP-GEF project CB2 are available at the link above. The NFP-UNCCD in charge with the reporting is member of the Project's National Steering Committee.

Attachments:

none

National contribution to the target

If your country is not implementing joint planning/programming or does not have operational mechanisms in place at the time of reporting, when do you plan to have something ensuring synergies in place?

2012-13

Qualitative assessment

Has the establishment of synergistic processes for joint implementation of the Rio Conventions at national level been supported by the institutions of the Rio Conventions?

Yes

If yes, by which Convention? (more than one box can be ticked)

- UNCCD
- CBD
- UNFCCC

Identify the major difficulties experienced to establish synergistic planning/programming or mechanisms for joint implementation (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
X	Not a priority for the government	X		
X	Lack of capacities		X	

X	Lack of financial resources		X	
X	Understaffing		X	
X	Lack of time	X		
X	Poor internal coordination among relevant ministries	X		
X	Other		X	

Other (specify) (max 30 words)

Until January 2010, NFP-UNCCD was under the Agriculture Ministry, for CCC and CBD under the Environment Ministry.

UNDP-GEF project = framework for synergic implementation of Rio Conventions. A Joint NC for the Three Rio Convention is under consideration. NFP-CCD has now the lowest profile/resources

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-8 for Outcomes 3.1 and 3.2

Number of affected country Parties, subregional and regional entities to have established and supported a national/subregional/regional monitoring system for DLDD.

Understanding of the indicator

At the national level, the indicator measures the monitoring potential of the country by quantifying the number of monitoring systems established and supported. These monitoring systems may be specifically or partially (in the case of environmental monitoring systems) dedicated to UNCCD reporting. The indicator will inform on the extent to which it is realistic to expect more regular and coherent reporting by affected country Parties during the implementation of The Strategy and beyond. This information will be complemented by the reporting of other reporting entities on UNCCD-relevant monitoring systems established and supported at the subregional, regional and global level.

Data needed

Information on monitoring systems established within the national Ministries or other bodies/institutions.

Programmes/projects' documents, fiches and summary sheets, programmes/projects' interim or final reports.

Only those monitoring systems storing all or most of the information needed for reporting to the UNCCD shall be considered.

Data sources (indicative only)

Relevant national ministries, programme/project management units, other non-governmental initiatives.

Check the glossary for

'monitoring system', 'vulnerability'

Overall target

By 2018, at least 60 per cent of affected country Parties, subregional and regional reporting entities have established and supported national monitoring systems for DLDD

Is a monitoring system for DLDD established at the national level?

Yes

If yes, specify whether this system is: Functional

No

If yes, specify whether this system is: Regularly Updated

No answer provided

If no DLDD-specific monitoring system is in place, is an environmental monitoring system partially covering DLDD established at the national level?

No answer provided

List any monitoring system available at the sub- national level that can contribute to the UNCCD reporting (add as many rows as necessary).

- The system of monitoring/assessment of DLDD is provided by the section 1.3.13 of NAP-UNCCD 2008, including the institutes involved in the monitoring of soil-land (ICPA), soil-vegetation (ICAS), agro-meteorology (ANM), soil-water (INHGA), etc. Current challenge: integrated monitoring/assessment.

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- http://www.madr.ro/strategie_antiseceta.php

NAP-UNCCD 2008: sections regarding the state-of-the-art and actions/measures toward DLDD.

National contribution to the target

If your country does not have a national monitoring system partially or totally dedicated to DLDD in place at the time of reporting, do you plan to initiate one?

Yes

If yes, when?

2012-13

Qualitative assessment

For those countries not having a national monitoring system totally or partially dedicated to DLDD, identify the major difficulties experienced in the establishment process (tick as many boxes as necessary and rate the level of importance).

	Not important	Important	Very important
X Financial constraints		X	
X Lack of capacities		X	
X Human resources constraints	X		
X Lack of coordination among relevant ministries and unclear attribution of responsibilities		X	
X Lack of coordination among donor-led programme/project interventions	X		
X Existing initiatives are too fragmented; cannot be realistically coordinated under one umbrella.		X	
X Existing national and/or sub-national monitoring systems use different methodologies and cannot be realistically harmonised	X		
X Other		X	

Other (specify) (max 30 words)

The envisaged system of integrated monitoring/assessment can rely on studies and database of research & development institutes involved: ANM, ASAS, ICAS, ICPA, INHGA, INCDIF, INCDP, ICIM, etc.

For those countries having a national monitoring system totally or partially dedicated to DLDD, how is the system maintained? (tick as many boxes as necessary and rate the level of importance)

		Not important	Important	Very important
X	By means of national resources			X
X	By means of external support	X		
X	No maintenance is possible due to limited professional capacities	X		
X	No maintenance is possible due to limited financial resources		X	
X	Other		X	

Other (specify) (max 30 words)

"Sectoral" monitoring/assessment is supposed to be performed by the R&D Institutes mentioned above. An integrated monitoring/assessment entails the establishment of an institutional framework for cooperation, reporting to the Ministry/National Committee on DLDD, with appropriate capacity/resources.

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-9 for Outcome 3.1 and 3.2

Number of affected country Parties, subregional and regional entities reporting to the Convention along revised reporting guidelines on the basis of agreed indicators

Understanding of the indicator

The indicator measures the use of biophysical and socio-economic information at the national level in defining a commonly agreed core set of impact indicators for the UNCCD and in monitoring progress against these indicators using harmonized methodologies. The indicator will inform to what extent it is possible to compile a comparable and global assessment of UNCCD impact. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the use of impact indicators at the subregional and regional levels, if and when impact indicators for these levels will be commonly agreed upon by the Conference of the Parties.

Data needed

Reports to the UNCCD by affected country Parties in 2012 and 2016.

The information to report on this indicator will be compiled by affected country Parties every four years when reporting on the strategic objectives that require biophysical and socio-economic information (i.e. SO1, SO2 and SO3). Reporting on this indicator is due in 2012 and in 2016 only.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NFP'

Overall target

By 2018, at least 90 per cent of affected country Parties, subregional and regional reporting entities report to the Convention in compliance with the new reporting guidelines.

Has your country reported on the two impact indicators considered by decision 13/COP.9 to be the minimum reporting requirement?

No answer required for this indicator in the 2010 reporting cycle

Number of impact indicators for strategic objectives 1, 2 and 3 your country has reported on in 2012 and 2016

2012

No answer required for this indicator in the 2010 reporting cycle

2016

No answer required for this indicator in the 2010 reporting cycle

While reporting on impact indicators, did you refer to the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST?

No answer required for this indicator in the 2010 reporting cycle

Sources of information

Specify the sources used to extract the information provided above (add as many rows information as necessary). If reporting online, you may also upload relevant documents.

No answer required for this indicator in the 2010 reporting cycle

National contribution to the target

If in 2012 your country has not reported on some or all of the impact indicators for the UNCCD, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

If in 2012 your country has not complied with the reporting guidelines, i.e. using the common baselines and methodologies defined by the CST, when do you plan to do so?

No answer required for this indicator in the 2010 reporting cycle

Qualitative assessment

Identify the major difficulties experienced in reporting against the impact indicators:

No answer required for this indicator in the 2010 reporting cycle

Other (specify) (max 30 words)

No answer required for this indicator in the 2010 reporting cycle

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-10 for Outcome 3.3 and 3.4

Number of revised NAPs/SRAPs/RAPs reflecting knowledge of DLDD drivers and their interactions, and of the interaction of DLDD with climate change and biodiversity.

Understanding of the indicator

The indicator measures knowledge-transfer processes from the theoretical to the operational level. This is done through an assessment carried out by affected country Parties (self-assessment) of the levels of traditional and scientific knowledge reflected in their NAPs. The assumption is that NAPs based on sound scientific and traditional knowledge will propose more significant and effective strategies and activities for implementation at the national level, and will, ultimately, perform better than those NAPs that do not take into account available knowledge on DLDD and DLDD synergies. The indicator will inform to what extent UNCCD implementation is likely to achieve meaningful results. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on the assessment of their SRAPs and RAPs.

Data needed

NAP aligned to The Strategy.

Scientific literature consulted for the development of the NAP.

Data sources (indicative only)

UNCCD NFP.

Check the glossary for

'NAP', 'NFP', 'driver'

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

Overall target

By 2018, at least 70 per cent of revised NAPs/SRAPs/RAPs have successfully gone through a quality self-assessment.

Countries not having a NAP or not having aligned their NAP to The Strategy do not report on this indicator.

The below questions are meant to guide the country's self-assessment of its aligned NAP.

In your NAP, is the identification of biophysical and socio-economic drivers, and of their interaction, knowledge-based?

Yes

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

- Scientific literature
- Expert knowledge
- Traditional knowledge

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

- NAP 2008 relied, for identification of DLDD drivers/factors (Geomorphology, Soil, Hidrology, Climate, Vegetation/Fauna, Anthropogenic factor), besides the questionnaires (traditional knowledge, bottom-up approach) and expert knowledge, on dedicated studies by research and development institutes:
- -ANM: agro-meteorology, climate change
- -INHGA: hidrology, hidro-geology, water resources
- -ICPA: agro-chemistry, soil cultivation
- -ICAS: afforestation, f. shelterbelts
- -INCDIF: land reclamation
- -INCDP: grasslands, livestock breeding
- -ASAS: crops, vineyards, orchards, social-ec.
- -ICIM: env. protection

In your NAP, is the analysis of the interaction between drought mitigation and restoration of degraded land and climate change mitigation/ adaptation or biodiversity conservation knowledge-based?

Yes

If yes, specify upon which type of knowledge it is based (tick as many boxes as necessary and rate the level of importance).

- Scientific literature
- Expert knowledge
- Traditional knowledge

If based on scientific literature, list the main reference literature consulted (add as many rows as needed). If reporting online, you may also upload relevant documents.

- The studies mentioned above also included the interaction between DLDD on the one hand, and climate change adaptation/mitigation and biodiversity conservation.

Is drought mitigation analyzed and/or reflected in some of the actions outlined in the NAP?

Yes

Attachments:

none

Sources of information

Specify the sources used to extract the information provided above:

UNCCD National Action Programme.

National contribution to the target

If in your NAP, DLDD drivers, their interactions, and the interaction of DLDD with climate change and biodiversity, are not analyzed on the basis of relevant scientific, expert and/or traditional knowledge, such that the self-assessment process is not fully successful, when do you expect to adjust your NAP so that it can successfully go through the self-assessment?

No answer provided

Qualitative assessment

If your NAP has not been developed taking into account relevant scientific and/or traditional knowledge, identify the reasons (tick as many boxes as necessary and rate the level of importance).

	Not important	Important	Very important
X Relevant scientific literature is not available	X		
X Relevant traditional or expert knowledge is not available	X		
X Lack of financial resources to mobilise the necessary knowledge		X	
X Poor coordination among the relevant ministries prevented an internal pooling of knowledge/expertise	X		
X Relevant ministries could not contribute due to lack of time	X		
X Relevant ministries could not contribute due to lack of staff	X		
X Other			X

Other (specify) (max 30 words)

RO NAP 2008 did rely on scientific, traditional and expert knowledge. One of its main strength is the harmonization of these sources and methods of data collection/analysis thereof.

Performance indicator CONS-O-11 for Outcome 3.5

Operational Objective 3: Science, technology and knowledge

Performance indicator CONS-O-11 for Outcome 3.5

Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website.

Understanding of the indicator

The indicator measures the presence at the national level of DLDD-related knowledge-sharing processes, through the quantification of the type and number of existing knowledge-sharing systems. Effectiveness of these systems is measured through quantification of their user-base. The indicator will inform to what extent scientific and traditional knowledge, including best practices, are available to and sufficiently shared with end-users. This information will be complemented by the reporting of other reporting entities on existing UNCCD-relevant knowledge-sharing systems at the subregional, regional and global level.

Data needed

Information from websites.

Only DLDD-relevant knowledge-sharing systems and networks shall be considered.

Data sources (indicative only)

Relevant organizations at the national level, relevant national ministries hosting knowledge-sharing systems and networks within their websites.

Check the glossary for

'knowledge-sharing system', 'PRAIS'

List any DLDD-relevant 'knowledge-sharing system' at the country level you are aware of, providing an Internet link and estimated number of users per year (add as many rows as necessary)

Name of the System

There is no website comprising all information on DLDD issue available in RO. Useful information on the extent of DLDD and avenues for mitigation, prevention and combating are available at the websites of relevant authorities and R&D institutes, and a few specialised/scientific publications.

No answer provided

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Operational Objective 4: Capacity building

Performance indicator CONS-O-13 for Outcomes 4.1 and 4.2

Number of countries, subregional and regional reporting entities engaged in building capacity to combat DLDD on the basis of NCSA or other methodologies and instruments

Understanding of the indicator

At the national level the indicator measures the presence of capacity-building processes through the quantification of existing major capacity-building initiatives. The indicator will inform to what extent affected country Parties may be expected to meet their obligations foreseen by the Convention, including forthcoming ones (i.e. new reporting requirements, establishment of environmental monitoring systems, accessing new financing mechanisms). This information will be complemented by the reporting of other reporting entities on existing UNCCD-related capacity-building initiatives at the subregional, regional and global level.

Data needed

Information on DLDD-related capacity building initiatives.

Only major capacity-building plans/programmes/projects mentioned in the PPSs are to be considered.

Data sources (indicative only)

PPSs submitted to UNCCD as part of the reporting exercise

Programmes/projects' documents, fiches and summary sheets, interim or final reports of those programmes and projects identified through the PPSs as having DLDD-related capacity-building as a major objective.

Check the glossary for

'NCSA', 'PPS'

Overall target

By 2014, at least 90 per cent of affected country Parties, sub-regional and regional reporting entities implement DLDD specific capacity building plans or programs or projects.

Number of DLDD-related capacity building initiatives undertaken

Identify, if any, relevant programmes and projects through the PPSs and check corresponding programmes/projects' documents, fiches and summary sheets, and interim or final reports, to extract the information needed for completing the table below

Year	NCSA-generated	Other initiatives
2008		7
2009		7
2010		
2011		
2012		
2013		
2014		
2015		
2016		
2017		
2018		

Has your country assessed DLDD-related capacity building needs at the national level?

Yes

If yes, within the framework of which initiative?

- NCSA
- Other

Other (specify) (max 30 words)

UNDP-GEF Project on joint implementation of the Rio Conventions

If yes, do you have assessed the necessary resources for addressing capacity building needs?

Yes

Are these resource requirements included into an investment framework?

Yes

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- NAP-UNCCD (www.madr.ro)
- UNDP-GEF project (www.undp.ro)

Attachments:

none

National contribution to the target

If at the time of reporting there are no DLDD-specific capacity building plans, programmes or projects implemented in your country, when do you plan to have something in place?

2010-11

Qualitative assessment

Have you received assistance from one or more of the following institutions to build capacities to combat DLDD? (more than one box can be ticked)

No answer provided

If yes, which type of assistance have you received?

No answer provided

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other integrated financing strategies, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation.

Understanding of the indicator

At the national level, the indicator measures the presence of integrated financing processes allowing the leverage of national, bilateral and multilateral resources for combating desertification and land degradation, through the quantification of investment frameworks developed by country Parties within the IFS devised by the GM or other integrated financing strategies promoted by diverse international institutions. This information will be complemented by the reporting of other reporting entities on the establishment of integrated investment frameworks at national, subregional and regional level.

Data needed

Investment frameworks documents.

Only investment frameworks prepared along the guidelines devised within integrated financing strategies shall be considered.

Data sources (indicative only)

Relevant national ministries.

Check the glossary for

'IFS'; 'NAP' 'leveraging'; 'integrated investment framework'

Overall target

By 2014, at least 50 per cent of affected country Parties, subregional and regional entities have developed integrated investment frameworks.

Has your country developed an integrated investment framework?

Yes

If yes, specify when it was developed.

15/04/2008

The questions below apply only to those countries which have an integrated investment framework.

Is your integrated investment framework based on the NAP?

Yes

If based on the NAP, who assisted in its development?

- Other

Other (specify) (max 30 words)

The integrated investment framework is part of the NAP. This was developed following a large consultative and expertise-based process from 2nd half 2007 - 1st part 2008. NAP was drafted by a working group (6 persons) under the general guidance of the National Committee on UNCCD/DLDD.

If assisted, which type of assistance did you receive?

No answer provided

If assisted by the GM, was it devised within the IFS?

No answer provided

If your country has an integrated investment framework based on the NAP, is this framework concretely allowing the leverage of national, bilateral and multilateral resources for combating DLDD?

Yes

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- NAP-UNCCD 2008 (www.madr.ro)

Attachments:

none

National contribution to the target

If your country has not developed an integrated investment framework at the time of reporting, do you plan to do it?

Yes

If yes, when?

2010-11

Qualitative assessment

Identify the major difficulties experienced in developing an integrated investment framework (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
X	Financial constraints		X	
X	Human resources constraints	X		
X	Lack of coordination among relevant ministries and unclear attribution of responsibilities	X		
X	Lack of coordination among those providing support		X	

X	National, bilateral and multilateral resources are too diverse; cannot be realistically coordinated under one umbrella.	X		
X	Other			X

Other (specify) (max 30 words)

Integrated investment framework included in the NAP 2008 is based on 3 principles:

- efficient utilisation for DLDD actions of existing funds/programmes;
- provision of DLDD actions that may capitalise on the new financing opportunities (e.g., EU CAP);
- allocation of funding on a project basis.

Performance indicator CONS-O-16 for Outcome 5.2

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-16 for Outcome 5.2

Degree of adequacy, timeliness and predictability of financial resources made available by developed country Parties to combat DLDD.

Understanding of the indicator

This is a qualitative indicator requiring the perception-based assessment by developing affected country Parties of the adequacy, timeliness and predictability of bilateral contributions received from developed country Parties for the implementation of the Convention. "Adequate", "timely" and "predictable" resources are frequently referred to in The Strategy as being necessary to ensure proper planning and effective implementation. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on their perception-based assessments.

Data needed

-

Data sources (indicative only)

-

Check the glossary for

-

Only affected country Parties entitled to receive assistance under the UNCCD are requested to report on this indicator.

Overall target

No target has been set for this indicator

How would you rate the bilateral assistance received within the framework of UNCCD for the implementation of The Strategy and of the Convention?

Adequacy of bilateral assistance

Not adequate

Timeliness of bilateral assistance

No answer provided

Predictability of bilateral assistance

No answer provided

Provide narrative justification on your above rating (max 100 words)

RO does not receive bilateral assistance within the framework of UNCCD, and did not receive for the period the current reporting is referring to.

Qualitative assessment

Did you receive assistance in raising resources from bilateral donors?

No

If yes, from whom? (more than one box can be ticked)

No answer provided

Other (specify) (max 30 words)

No answer provided

Has the level of adequacy, timeliness and predictability of bilateral assistance constrained your country's performance in planning and implementation with respect to UNCCD?

No answer provided

Performance indicator CONS-O-17 for Outcome 5.3

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-17 for Outcome 5.3

Number of DLDD-related project proposals successfully submitted for financing to international financial institutions, facilities and funds, including the GEF.

Understanding of the indicator

The indicator measures the capacity of fund-raising at the national level, through the quantification of project proposals successfully submitted for funding to the various financing organizations. The indicator will inform to what extent affected country Parties make increasing efforts to mobilize resources. This information will be complemented by the reporting of other reporting entities on the fund-raising efforts at national, subregional and regional level.

Data needed

Information contained in the PPSs and SFAs submitted to UNCCD.

Data sources (indicative only)

PPSs and SFAs submitted to UNCCD as part of the reporting exercise.

The PPS requires specification of the project 'status' thus it allows the identification of relevant projects to be considered by this indicator and the monitoring of their approval status.

The SFA requires the specification of amounts committed to approved projects.

Check the glossary for

'PPS', 'SFA', 'Project proposals', 'currency', 'Successfully submitted proposals'

Overall target

A steady growth in the number of DLDD-related successfully submitted project proposals is recorded along the implementation period of The Strategy.

Number of project proposals submitted (pipeline) and ongoing, by biennium

Biennium	submitted (pipeline)	ongoing
2008-2009		15
2010-2011		
2012-2013		
2014-2015		
2016-2017		

Amount of funds raised, by biennium

You can find the amount of funds raised for the ongoing projects in the corresponding SFAs. Sum these amounts and give the total in the below table.

Biennium	Total amount
2008-2009	EUR762281000
2010-2011	
2012-2013	
2014-2015	
2016-2017	

Sources of information

Specify the sources used to extract the information provided above: Programme and Project Sheets and Standard Financial Annexes

No answer required

National contribution to the target

According to the information provided above, do you think that you are mobilizing enough resources from international financial institutions, facilities and funds through successfully submitted project proposals?

Yes

If no, do you plan to increase the country's efforts in presenting project proposals to international financial institutions, facilities and funds?

No answer provided

Qualitative assessment

Identify the reasons for the increasing or decreasing trend of project proposals successfully submitted to international financial institutions, facilities and funds (tick as many boxes as necessary and rate the level of importance).

Reasons for increasing

	Not important	Important	Very Important
X Easier and more transparent application procedures		X	
X Increased capacities of national stakeholders to prepare applications		X	
X Major natural hazards occurred at the national level considerably increased the level of resources made available by the international community	X		
X Access to funding is increasingly facilitated by third parties such as the private sector	X		
X Existence of a financing strategy (IFS or others)		X	
X Other		X	

Other (specify) (max 30 words)

Obs: funding raised from all sources (national European, international) have been considered, as programmes/projects are usually developed on this basis. 15 represents the number of projects/programmes in PPS/SFA. NB: 80% of funding ensured by PPS no. 3 (NRDP 2007-2013)

Reasons for decreasing

	Not important	Important	Very Important
Financing opportunities are not publicised enough, lack of access to necessary information			
Complicated application procedures, the level of complexity being worsened by the different requirements of the various donors			

	Limited financial resources are made available for DLDD-related programmes/projects, and lack of DLDD-specific allocations within donors' portfolio.			
X	Other			

Other (specify) (max 30 words)

Trend assessment seems premature at this point (first bienium reported on the new performance indicators)

Performance indicator CONS-O-18 for Outcome 5.5

Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-18 for Outcome 5.5

Amount of financial resources and type of incentives which have enabled access to technology by affected country Parties.

Understanding of the indicator

The indicator measures whether access to technology is facilitated by means of financial resources or economic and policy incentives. The indicator will inform to what extent an enabling environment for technology transfer has been created at the national level and whether sufficient resources are dedicated to technology transfer. Subregional and regional reporting entities will complement the information provided by affected country Parties by reporting on financial resources and type of incentives which have enabled access to technology at the subregional and regional level.

Data needed

Budgets of relevant programmes and projects

Information on policy/regulatory, financial and fiscal incentives. Incentives facilitating access to technology shall be those established and implemented at the national level, not necessarily within the framework of DLDD-related cooperation.

Data sources (indicative only)

Financial documents of programmes and projects submitted as PPSs to the UNCCD as part of the reporting exercise.

National policy, regulatory and economic/financial documents.

Check the glossary for

'technical support', 'incentive', 'PPS'

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Overall targets

A steady growth in the financial resources allocated to facilitate access to technology by affected country Parties is recorded along the implementation period of The Strategy.

A steady growth in the number of economic and policy incentives reported upon is recorded along the implementation period of The Strategy.

Estimate of amounts allocated to facilitate technology transfer

Check the programmes and projects financial documents (budgets) and extract amounts allocated to: (1) technical support – material aid (equipment, hardware and software, machineries, etc); and (2) technical support – knowledge aid (technical assistance and advisory services). Add these amounts to provide totals in the table below.

Refer to the programmes and projects submitted as PPSs to the UNCCD and their relating budgets

Year	Technical support – material aid	Technical support – knowledge aid
2008	EUR185000000	EUR
2009	185000000 EUR	0 EUR
2010		
2011		
2012		
2013		
2014		
2015		
2016		
2017		
2018		

Has your country established incentives intended to facilitate access to technology?

Yes

If yes, specify which types of incentives (more than one box can be ticked)

- Policy or regulatory incentives (for example, related to market requirements and regulations, import/export, foreign investment, research & development support, etc)
- Financial incentives (for example, preferential rates, State aid, subsidies, cash grants, loan guarantees, etc)

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- PPS/SFA

Attachments:

none

National contribution to the target

According to the information provided above, do you think that enough resources are allocated through DLDD-related programmes and projects to facilitate access to technology by your country?

Yes

If your country has no incentives in place or if existing incentives to facilitate the creation of an enabling environment for technology transfer do not prove to be effective, are you planning to enforce additional measures?

No answer provided**If yes, when?****No answer provided****Qualitative assessment**

If existing incentives do not prove to be effective, identify possible reasons (tick as many boxes as necessary and rate the level of importance).

		Not important	Important	Very Important
X	Policy or regulatory incentives are not enforced	X		
X	There are not enough resources to apply financial or fiscal incentives		X	
X	The national financial and credit systems (banks, credit agencies, etc) are not supportive		X	
X	Other	X		

Other (specify) (max 30 words)

Measures toward drought-resistant crops, sustainable irrigations, land-cultivation conducive to water retention etc. are provisioned in NAP, but only in part financed at this moment.

Identify the reasons for the increasing or decreasing trend of financial resources allocated through DLDD-related programmes and projects to facilitate access to technology (tick as many boxes as necessary and rate the level of importance).

Reasons for increasing

		Not important	Important	Very Important
	Access facilitated by the spreading of IT			
	More appropriate technologies available			
	Appropriateness of government incentives			
X	Other			

Other (specify) (max 30 words)

Trend assessment - premature.

Reasons for decreasing

		Not important	Important	Very Important
X	Technology sustainability is poor; technologies do not represent viable investments	X		
X	Lack of fixed infrastructure for accessing technologies (those created on an ad hoc basis disappear once the support ends)		X	
X	Lack of capacities for operation and maintenance of technologies	X		
X	Lack of enabling policy and regulatory environments	X		
X	Other			X

Other (specify) (max 30 words)

-limited financing and capacity available for research and development institutes expected to develop new technologies, adapt technologies developed elsewhere to the RO conditions and facilitate their transfer.

Standard Financial Annex

D. Standard Financial Annex

The CRIC has recommended that financial reporting be based on a standard financial reporting format to be used by affected country Parties and their development partners. It also indicated that emphasis in reports should be put on financial matters and also on an analysis of the impact of the activities undertaken (ICCD/CRIC(8)/5).

The purpose of the Standard Financial Annex (SFA) is to consolidate information on resources mobilized by affected country Parties and their development partners under the framework of relevant strategies and action programmes. It facilitates the aggregation of data on financial commitments, financial flows and resources available by all relevant funding sources for activities related to the implementation of the Convention. It also helps minimize double counting in financial statistics (ICCD/CRIC(8)/5/Add.4).

The SFA is to be used by each country Party and other reporting entities to list all financial commitments they have made during the reporting period in support of institutions, programmes, projects, as well as other relevant initiatives undertaken at national or international level for the implementation of the Convention.

More specifically, for each relevant financial commitment or allocation made in the reporting period, the SFA requires a minimum set of data grouped as follows:

Identification, i.e. data required to identify the reporting entity, the funding source and the activity financed;

Basic data, i.e. data specifying the amount and type of financial commitment made, as well as the recipient country, region, and/or organization, and the funding period, if applicable;

(c) Classification, i.e. categorization of the funded activity according to the Rio Markers for desertification, and the UNCCD Relevant Activity Codes (RACs).

The compilation of the SFA is guided by means of a template, which responds to the recommendations of CRIC 7, and builds on the GM methodological guide for financial reporting presented to CRIC 6 as part of the report of the intergovernmental Ad Hoc Working Group to improve the procedures for communication of information.

Within the template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by the reporting entities with relevant data or narrative information.

Decision 13/COP.9, paragraph 8, invites country Parties and other reporting entities to refer to common terminology and definitions. Therefore, these guidelines should be read in conjunction with the comprehensive glossary presented in a separate document.

Financial Commitment #1 — UNDP-GEF Medium-Size Project (MSP): PIMS 3069 "Strengthening Capacity to Integrate Environment and Natural Resource Management for Global Environmental Benefits"

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

No answer provided

Other

- Romania

Funding Organization

Enter the full name and acronym (if applicable) of the organization that has made the financial commitment

No answer provided

Other

- 1. Global Environmental Facility
- 2. Ministry of Environment and Forests

Name of activity funded

Enter the name or title of the activity, project, programme, organization or initiative funded with this financial commitment

UNDP-GEF Medium-Size Project (MSP): PIMS 3069 "Strengthening Capacity to Integrate Environment and Natural Resource Management for Global Environmental Benefits"

Identification code

Enter the Identification Code (ID), number or acronym given to the activity funded (if known)

PIMS 3069

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- Europe
- Eastern Europe
- Romania

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- UNDP Romania

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- Romanian Ministry of Environment and Forests

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

29/04/2009

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

1200000 US Dollar

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Grant

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

29/04/2009

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

30/06/2011

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

26

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- 2 Capacity Development and Planning
-

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Reporting Entity

Enter the name of the country or organization submitting the official report to the UNCCD to which the financial commitment will be attached in the form of a consolidated Standard Financial Annex

No answer provided

Other

- Romania
-

Funding Organization

Enter the full name and acronym (if applicable) of the organization that has made the financial commitment

No answer provided

Other

- 1. World Bank - International Bank for Reconstruction and Development (IBRD)
 - 2. Romanian Government - Ministry of Agriculture and Rural Development
-

Name of activity funded

Enter the name or title of the activity, project, programme, organization or initiative funded with this financial commitment

Modernizing Agricultural Knowledge and Information Systems (MAKIS)

Identification code

Enter the Identification Code (ID), number or acronym given to the activity funded (if known)

P086949

Recipient Country(ies) or (sub) region(s)

Enter the name of the country(ies), subregion(s) or region(s) in which the activity is taking place or is due to take place. Indicate "Global" if the activity is of global scale or has no specific geographical focus

- Romania
-

Recipient Organization(s)

Enter the full name and acronym of the organization(s) to which the funds have been or will be transferred to

No answer provided

Other

- Ministry of Agriculture and Rural Development
-

Executing Agency(ies)

Enter the full name and acronym of the Agency(ies) or Organization(s) that is/are in charge of the execution of the activity

- - Ministry of Agriculture and Rural Development
 - Research Institutes and Laboratories
 - Subordinated agencies: APIA, ANCA, APDRP
-

Commitment date (dd/mm/yyyy)

Enter the date at which the financial commitment has been formally approved by the extending organization (e.g. 15/01/2011)

16/11/2004

Currency/Amount committed

Indicate the currency denomination of the financial commitment (e.g. EUR, USD, YN, etc.). Enter the total amount of money committed as a numeric field, showing the entire figure (e.g. enter 1500000 to indicate 1.5 million). Do not use abbreviations, symbols or decimals

71370000 US Dollar

Type of funding

Indicate the type of funding provided through the financial commitment (e.g. grant, concessional loan, basket funding,

Loan (concessional)

Start date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be made available to the recipient organization (e.g. 15/01/2011)

16/11/2004

Completion date (dd/mm/yyyy)

Enter the date at which the funding has been or is expected to be utilized by the recipient organization (e.g. 15/01/2011), if applicable

30/09/2011

Duration (no. of months)

Indicate the period covered by this funding, if applicable, expressed in number of months (numeric field. Do not use abbreviations, symbols or decimals)

84

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to the funded activity by ticking only one of the boxes below (refer to the Rio Markers guidance note for more information, examples and instructions)

2

Relevant Activity Code(s) (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the funded activity (refer to the RACs guidance note for more information, examples and instructions). Add as many rows as necessary.

- **2 Capacity Development and Planning**

Programme and Project Sheets

E. Programme and Project Sheet

Programme and Project Sheets (PPS) are used to provide more detailed information on programmes or projects undertaken or completed in the reporting period. This includes programmes and projects in the pipeline, as well as final proposals submitted for funding to internal or external funding sources. All country Parties and other reporting entities involved in the financing, coordination or implementation of relevant programmes and projects are requested to prepare a PPS for each of them, and to attach them to their official report to the UNCCD.

The compilation of the PPS is guided by means of a template. These templates are intended to collect a minimum set of qualitative and quantitative data to facilitate the analysis of funding and investment flows, and the production of better financial statistics related to UNCCD implementation (ICCD/CRIC(8)/5/Add.4), with a view to enabling the CRIC to undertake an objective review of progress in the implementation of the Convention and The Strategy. The PPS also facilitate the computation of certain performance and impact indicators.

A distinctive feature of the PPS is that it allows country Parties and other reporting entities to specify which strategic and operational objectives of The Strategy are targeted by each programme or project. In addition, it allows for individual programme or project components to be categorized using the Rio Markers for desertification and Relevant Activity Codes (RACs).

Furthermore, the PPS can be used to indicate whether the objectives of other Rio Conventions (i.e. the UN Convention on Biological Diversity, CBD – and the UN Framework Convention on Climate Change, UNFCCC) are also addressed by the programme or project. This is done through the use of the biodiversity and climate change Rio Markers, respectively.

The PPS offers an opportunity to increase the visibility of relevant programmes and projects, thereby creating the conditions for a better sharing of experiences and lessons, as well as the transfer of knowledge in general. It also favours collaboration and networking by facilitating the identification of potential synergies.

Lastly, the PPS also allows country Parties and other reporting entities to provide a narrative description of the expected or achieved results. This information will facilitate the qualitative assessment of progress in the implementation of The Strategy, including on returns on investment. The CRIC will use the analysis of financial information originating from the PPS to assess results, performance and impacts.

To minimize the reporting burden and avoid discrepancies in the information annexed to the reports of different entities, it is recommended that project partners identify the most suitable ways to coordinate among themselves the preparation of PPS to ensure that consistent data are reported for the same projects. It would also be advisable to compile just one PPS for large “umbrella” programmes, instead of separate PPS for each small project stemming from them.

In the PPS template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by country Parties and other reporting entities with relevant data or narrative information.

Programme/Project #1 — UNDP-GEF Medium-Size Project (MSP): PIMS 3069 "Strengthening Capacity to Integrate Environment and Natural Resource Management for Global Environmental Benefits"

Title

Enter the Programme/Project title, and sub-title if applicable

**UNDP-GEF Medium-Size Project (MSP):
PIMS 3069 "Strengthening Capacity to Integrate Environment and Natural Resource Management for Global Environmental Benefits"**

Organization(s)

Enter the full name and acronym of the reporting organization

No answer provided

Other

- **Romanian Ministry of Environment and Forests**

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Executing Agency

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **Universitatea Ecologica Bucuresti - Implementing Agency**

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- **Europe**
- **Eastern Europe**
- **Romania**

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

23600000 Hectares

Administrative Unit

Romania

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project /programme

- **Romanian Ministry of Environment and Forests and subordinated (territorial) agencies responsible for the implementation of Rio Conventions**

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

PIMS 3069

Status

Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

29/04/2009

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

30/06/2011

Programme/Project co-financing**Source**

Programme/Project Objectives

Indicate the objectives pursued by the Programme/Project, as specified in the related documentation, choosing from the list of purpose codes provided in document (add Quick Reference Guide document title and reference code (please see footnotes above). The OECD list of purpose is also available at the following link : http://www.oecd.org/document/21/0,3343,en_2649_34447_1914325_1_1_1_1,00.html.

- 400 MULTISECTOR/CROSS-CUTTING**
- 410 General environmental protection**
- 41010 Environmental policy and administrative management**

Programme/Project Components**Programme/Project Components**

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in

the computation of performance indicator no. CONS-O-18.

Mainstreaming of Rio Conventions into national, regional and local decision-making, by:

1. Improving national institutional structures and mechanisms;
2. Strengthening policy, legislative and regulative framework;
3. Mainstreaming global environmental priorities into national policies.

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

1200000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

2

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 2 Capacity Development and Planning
- 2.2 Enabling Activities
- 2.2.1 Capacity-Building
- 2.2.7 Mainstreaming

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- 1. Enhanced institutional, legislative, policy and planning framework for implementing Rio Conventions
- 2. Improved capacity of MEF to integrate environmental and sectoral resource management

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- #32:
 - A Group of ecological vegetable gardeners
 - A Local Regulation regarding the implementation of the Good Agricultural Practices
 - A demonstration project for ecological vegetable gardening
 - An information campaign on the importance of the Good Agricultural Practices for the reduction of nitrates
- #37: The information activities developed within the project raised awareness of the local population on the climate changes and the possibilities to reduce

their causes, and on importance of the biodiversity conservation

- #39:

44 ha of grassland rehabilitated and sustainably managed.

One Management Plan for the "community owned grassland" developed.

4 km of "electric shepherd" installed.

One public awareness campaign on renewable energy sources

1 Tourism Information Center established

- #41: The project supported the locals' efforts to increase their income by:

- establishing an irrigation system for the Christmas tree plantation and arranging troughs for animals watering;

- promoting and supporting the eco-tourism development based on the local resources

- #44: 1000 representatives of the two communities participated in the project activities and were informed on the biodiversity conservation and the sustainable management of the local resources.

- #46: two local regulations regarding the management and the use of the most important natural resource in the area: the wooded grasslands, a Local Sustainable Management Plan for 2610ha of degraded grassland; and the Grazing Regulation.

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 1 Monitoring and Research
- 1.2 Knowledge, Science and Technology
- 1.2.2 Bio-physical Research and Science

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

3. Support for advisory and information system

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

9720000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

1

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 2 Capacity Development and Planning
- 2.1 Advocacy and Awareness Raising

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

4. Project management

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

3200000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

0

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 2 Capacity Development and Planning

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- To help Romania comply with the agricultural acquis communautaire and to help the agro-food sector take advantage of the benefits and opportunities arising from EU membership.

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Programme/Project #10 — Central and Eastern Europe Climate Change Impact and Vulnerability Assessment (CECILIA) (EU 6th Framework Programme: Specific targeted research project)

Title

Enter the Programme/Project title, and sub-title if applicable

**Central and Eastern Europe Climate Change Impact and Vulnerability Assessment (CECILIA)
(EU 6th Framework Programme: Specific targeted research project)**

Organization(s)

Enter the full name and acronym of the reporting organization

No answer provided

Other

- **National Institute of Hydrology and Water Management**

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Cooperating Institution

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **16 research and development institutions from 12 EU countries, including the Romanian Meteorology Administration**

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- **Europe**
- **Eastern Europe**
- **Romania**

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

23874 Hectares

Administrative Unit

Romania

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project /programme

- **Organisations involved in water resource management, drinking-water supplies, irrigation, livestock-breeding, tourism and hydropower plants**

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

2454196

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

Contract no. 037005

Status

Indicate the status of the Programme/Project at the time of completing this form.

Completed

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

01/06/2006

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

31/12/2009

Programme/Project co-financing

Source

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

European Union

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

69360 euro

Source

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

Environment Ministry

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

34680 euro

Source

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

National Institute of Hydrology and Water Management

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

34680 euro

Programme/Project Components

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Working groups:

1. Agro-climatic indices and simulation models
2. Evaluation of trends of agro-climatic indices
3. Development of scenarios at regional and local level
4. Risk assessment and vulnerability

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

0 euro

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the [Rio Markers guidance note](#) for more information, examples and instructions)

2

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)

- 2 Capacity Development and Planning
- 2.2 Enabling Activities
- 2.2.10 Resource Management Planning

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project (max 100 words).

- the evaluation of possible impacts of climate change on agriculture and the assessment of critical thresholds for various European areas. Particular attention will be devoted to the quality of production, i.e., the main goal of European agricultural policy, but also to the eco-environmental impacts

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Title

Enter the Programme/Project title, and sub-title if applicable

Sectoral Plan for Research and Development of the Ministry of Agriculture and Rural Development, 2006-2010

Organization(s)

Enter the full name and acronym of the reporting organization

No answer provided

Other

- **Romanian Ministry of Agriculture and Rural Development**

Role of the Organization(s) in the Programme/Project

Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Funder (non ODA)

Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)

Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

- **Research and Development Institutes (INCD) under the Ministry authority:**
 - **INCD on Soil Science, Agrichemistry and Environment (ICPA)**
 - **INCD on Land Improvements (INCDIF-ISPIF)**
 - **INCD on Agriculture Fundulea**
 - **ICDM on Mountain Area Cristian**
 - **SCDPP on Orchards Valcea**

Beneficiary Country(ies) or Sub Region(s)

Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- **Romania**

Target Area size / administrative unit

Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size

No answer provided

Administrative Unit

Romania

Target Group

Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project /programme

- **Ministry of Agriculture and Rural Development**
 - **Romanian Academy of Agriculture and Forest Sciences**
 - **Research and Development Institutions**
 - **Farmers**
 - **Industry/private sector (transporters, processors, etc.)**
 - **Local communities**

Beneficiaries

Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification Code

Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

No answer provided

Status

Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)

Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

02/01/2006

Completion date (dd/mm/yyyy)

Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

31/12/2010

Programme/Project co-financing

Source

Provide the full name and acronym of all co-financing organisations

No answer provided

Other

Romanian Ministry of Agriculture and Rural Development

(only from 2008-2009)

Currency, Amount

For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)

Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)

Additional Information

F. Additional information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by affected country Parties and consequently to make more targeted and specific recommendations to the COP. It allows affected country Parties to comment or report upon issues that are not covered elsewhere but that are nevertheless of importance at the national level or within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process and on the implementation of NAPs as well as lessons learnt, problems, constraints and bottlenecks faced in terms of human and financial resources. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of affected country Parties within the framework of the Convention, as requested by decision 13/COP.9, paragraph 17.

Reporting process-related issues

Financial resources

Could your country count on sufficient financial resources to meet UNCCD reporting obligations?

Yes

Provide an estimate of the amount invested from your country's national budget into the UNCCD reporting process.

1000 euro

Human resources

How many people were involved in your country in the UNCCD reporting process?

Number of people

1

Estimate the total number of person/day dedicated by these persons to the UNCCD reporting process:

Number of person/day

20

Knowledge

Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations?

Yes

Coordination

Was coordination with the relevant implementing agencies satisfactory in order to apply for necessary funds?

Yes

Was coordination at the national level with the relevant line ministries satisfactory in order to comprehensively and coherently report?

Yes

Participation and consultation

Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process?

Yes

Validation meeting

Was a validation meeting held as a tool to integrate stakeholders in the reporting process?

No

Subregional and regional processes

Did your country actively contribute to the subregional and regional reporting processes?

No

PRAIS portal

If you are reporting online, did you receive sufficient training on access and utilization of the PRAIS portal?

Yes

Accommodation of specific requests within COP decisions

Report on specific COP requests – iterative process on indicators

Decision 13/COP.9, paragraphs 2, 3 and 24, envisages an iterative process to refine the set of performance indicators provisionally adopted by the same decision. As a tool to implement this iterative process, affected country Parties can provide here their suggestions and recommendations for improvement.

Tick the cells only when you have experienced difficulties in reporting on one, or more, indicator(s). Indicate against which of the e-SMART criteria the indicator(s) needs to be improved.

Reporting on the implementation of NAP

Which is the percentage of activities included in the NAP that are currently implemented?

1-30%

Human resources

Lessons learnt (report on the 2 most important only)

1

The more inclusive (i.e., based on several approaches and relying on a large consultative process) the elaboration of NAP, the more likely to have it implemented. Implementation seems to depend more on the suitability of these actions than on the "weight" of the document adopting NAP

2

The requisition of implementation of UNCCD is an additional issue: People often undertake specific actions requested by the Conventions and the Strategy, with significant results, without knowing that they are actually implementing UNCCD. Raising awareness on UNCCD therefore becomes a crucial issue.

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

There are little professionals specially dedicated to the UNCCD implementation. NFP-UNCCD is not "institutionalised" within a special unit within the Ministry of Environment and Forests, and has additional attributions.

2

No answer provided

Financial resources

Lessons learnt (report on the 2 most important only)

1

AS UNCCD does not rely on a special fund, the implementation of NAP depends on the availability of funding from relevant development programmes: rural development, water management, afforestations, agricultural research, etc.

2

The political and economic profile of UNCCD is quite low in Romania (like in other countries too), and it only increased during prolonged, severe droughts and heat waves in the summer, such as the one in 2007. The revised NAP 2008 originated from the intense public debate during the 2007 drought.

Problems, constraints and bottlenecks currently faced by your country (report on the 2 most important only)

1

The 2008-2010 economic recession has constrained the UNCCD implementation. The funding allocated from different sources decreased even within the reporting period (from 2008-2009)

2

Addressing DLDD is a far-reaching process, which has to rely on an integrated approach developed on long-run, to be scrutinized every few years. The revision work has to consider new knowledge/technologies, challenges, and not least funding availability and investment capacity.

Any other country-specific issues

Has your country any specific issue to bring to the attention of the Conference of the Parties?

Yes

If yes, please specify under which of the following broad categories it can be classified.

Category

Other

Other (specify) (max 30 words)

Reporting: indicators, guidelines, portal, compliance

Narrative description

Standardized/comparable and relevant reporting is crucial for assessing the implementation of UNCCD. To attain this main goal, there is need for:

- Development and harmonization of joint reporting guidelines for both performance and impact indicators;
- Continuous improvement of reporting guidelines and procedure, for a more cost-effective and relevant reporting;
- Encourage development of on-line reporting for a effective and efficient compilation;
- Endorsement of reporting guidelines and reports' syntheses by CRIC/COP;
- Launch of debate on cases of non-compliance in reporting.

Best Practices

G. Best practices

According to decision 13/COP.9, Annex V, UNCCD best practices shall be collected according to seven themes: 1. SLM technologies, including adaptation; 2. Capacity building and awareness raising; 3. DLDD and SLM monitoring and assessment/research; 4. Knowledge management and decision support; 5. Policy, legislative, institutional framework; 6. Funding/resource mobilization; 7. Participation, collaboration and networking.

While themes 2 to 7 represent different elements of the enabling environment needed for the implementation and dissemination/up-scaling of sustainable land management (SLM) technologies (indirect impact), theme 1 comprises all actions on the ground that have a direct impact on desertification, land degradation and drought mitigation.

In particular, as specified in document ICCD/CRIC(8)/5/Add.5, paragraph 12, theme 1 'SLM technologies, including adaptation' refers to SLM technologies that directly contribute to the prevention, mitigation and rehabilitation of desertification and land degradation on cropland, grazing land and woodland, with the aim of improving the livelihoods of affected populations and conserving ecosystem services. Successful implementation of SLM technologies is the base for achieving strategic objectives 1, 2 and 3 of The Strategy. Theme 1 also integrates five of the strategic areas defined by decision 8/COP.4, namely: (a) sustainable land use management, including water, soil and vegetation in affected areas; (b) sustainable use and management of rangelands; (c) development of sustainable agricultural and ranching production systems; (d) development of new and renewable energy sources; and (e) launching of reforestation/afforestation programmes/ intensification of soil conservation programmes.

ICCD/CRIC(8)/5/Add.5 provides definitions for 'practice', 'good practice' and 'best practice'. These definitions are included in the common glossary that shall be referred to by Parties and other reporting entities while reporting to UNCCD, according to decision 13/COP.9, paragraph 8.

The template for reporting is based on the general structure for the documentation of best practices contained in ICCD/CRIC(8)/5/Add.5, paragraphs 40 to 43; it is tailored to the documentation of best practices related to theme 1 'SLM technologies, including adaptation'.

Best Practice #1 — Afforestation of degraded lands

Property rights

Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.

(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice

Afforestation of degraded lands

Location (if available, also include a map)

Romania, "perimeters for land reclamation"

Attachments:

none

If the location has well defined boundaries, specify its extension in hectares

Hectares (ha)

3500

Estimated population living in the location

Number of people

No answer provided

Prevailing land use within the specified location

- Grazing land
- Unproductive land

Other (specify) (max 30 words)

No answer provided

Brief description of the natural environment within the specified location

Climate: (max 50 words)

Areas affected by afforestation works on degraded lands are characterised by warm-temperate climate, low-elevated, with significant water deficit in the summer (arid)

Soil: (max 50 words)

The layer of fertile soil is usually shallow. Soils have high-clay activities, are often destructured, compacted, and sustain a low vegetal production. Sometimes there is no vegetation on these degraded lands, even under favourable rainfall.

Topography: (max 50 words)

Even though the altitude is usually low (plains or foothills), the slope is usually high, favouring soil erosion generated by unsustainable use practices (e.g., overgrazing, unsuitable ploughing). Most often, degraded lands assigned for afforestation are former forests, which suffered, during the last centuries, change in land use category from forest to agriculture.

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level: (max 50 words)

Rural communities in Romania are usually highly dependent on the agricultural production (crops and livestock). Rural communities whose lands are

significantly degraded degradation (e.g., erosion, salinization, etc.) are definitely in a less favourable position than communities succeeding to keep land productivity at high level.

Main income sources: (max 50 words)

Agriculture
Local public administration
Small enterprises, handicrafts, etc.

Land tenure and land use rights: (max 50 words)

Degraded lands eligible for financing through the national programme of afforestation (financed from the Budget and/or Land Reclamation Fund) are public lands belonging to central government (undertaken by the National Forest Administration) or communes/municipalities.
Afforestation of private degraded lands are supported, from 2010 on, by funding from two other programmes: 1. Measure 221 NRDP 2007-2013; 2. Afforestation measure supported by the National Environmental Fund.

Short description of the best practice

max 250 words

Identification and approval of degraded lands that are subject to afforestation is made by a local committee, involving all relevant stakeholders. Financing of expenditures for feasibility studies/technical projects and afforestation works is made from the National Fund for Land Reclamation and/or from specially earmarked budgetary allocations. The local forestry agencies (inspectorates) are in charge with the procedure of procurement of public works and the verification of financing claims. The plantations are established in accordance with the applicable forestry norms (i.e., Norms for afforestation of degraded lands, Ministry of Waters, Forest and Environmental Protection, 2000), following, as far as practicable, the natural type of forest. After the acknowledgment of plantation success (i.e., 5 years from establishment), afforested areas are assigned forest land use category, and are subject to forest management plans and the forestry regime.

This is the programme on which basis, in the years 2005-2006, more than 5,000 ha of degraded lands were afforested yearly. The price of afforestation (including plantation maintenance) is up to 5,000 euro/ha.

The amount of funding and the corresponding afforested areas decreased seriously in 2008-2009 (ca. 2,500 ha in 2008, 1,000 ha in 2009), in line with the economic recession. However, this is expected to increase significantly from 2010 on, due to the launching of two new afforestation programmes: Measure 221 NRDP 2007-2013 and the afforestation measure financed from the Environment Special Fund.

The afforested areas also count for the Afforestation/Reforestation (AR) activities reported under KP-LULUCF.

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as 'best'?

max 100 words

- characteristics of SLM technology and investment on the ground, directly related to DLDD mitigation;
- volume of works achieved during the last years;
- funding mobilized;
- expected results, of which some are already visible.

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:

- Rehabilitation

Main problems addressed by the best practice

(max 50 words)

- - Rehabilitation of degraded lands, i.e., regaining the productivity of lands currently unsuitable for any use;
 - Improvement of local environmental conditions, including the protection of water resource, agricultural crops, support for nutrient cycle, soil generation, etc.;
 - C sequestration in wood and other forest pools (soil, litter, underground biomass), accounted under the Kyoto Protocol;
 - On long-run, additional source of wood and income for the local population.

Outline specific land degradation problems addressed by the best practice

max 100 words

- regaining fertility by lands currently unsuitable for other uses;
- improvement of soil structure and parameters (pH, humus content, clay activity, compactness, etc.);
- increase of vegetal production and local communities' income;
- response to the decreasing livestock in rural communities and consequent decrease of demand for fodder and grazing land (i.e., land use adaptation).

Specify the objectives of the best practice

(max 50 words)

- Afforestation of degraded lands, unsuitable for other uses, and their integration into the national forest area, through public support for territorial-administrative units (communes) and the National Forest Administration.

Section 3. Activities

Brief description of main activities, by objective

Objective 1

(max 50 words)

- - inclusion of land into "reclamation perimeter";
 - financing request to the ministry;
 - verification of claim;
 - submission of technical documents;
 - approval;

- execution of works;
- reimbursement;
- control and financing of maintenance work;
- inclusion of the plantation in the national forest area

Objective 2

(max 50 words)

No answer provided

Objective 3

(max 50 words)

No answer provided

Objective 4

(max 50 words)

No answer provided

Short description of the technology

max 250 words

Plantations are made in spring or in autumn, following an appropriate preparation of the soil (usually on the plantation spot). Extensive ploughing and the use of lime amendments and fertilizers are the exceptions, not the rule (C leakage/emissions from the AR project is therefore unlikely). Seedlings used are usually 2-3 years old, belong to the natural forest type, have a density of at least 5,000/ha and follow closely the plantation scheme/formula provisioned by the forestry norms. These plantation usually occurs on degraded grazing lands. Maintenance works (i.e., weeds removal) is made 1-2 times a year, until the plantation reaches the closed forest stage (5-7 years). The land reclamation perimeter is protected against game, livestock and other biotic/abiotic factors by fence and other means (i.e., repellant substances, guard). The greatest natural hazard, particularly during the first years, is the drought in summer.

Technical specifications of the technology - if any

max 250 words

"Technical norms for afforestation of degraded lands", Ministry of Environment and Forests, 2000.

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name

- Ministry of Environment and Forests
- National Forest Administration
- Institute of Forest Research and Management Planning

Address

www.mmediu.ro
www.rosilva.ro
www.icas.ro

Was the technology developed in partnership?

No

If yes, list the partners:

No answer provided

Specify the framework within which the technology was promoted

- National initiative – government-led

Other (specify) (max 30 words)

No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology

Yes

If yes, list local stakeholders involved:

- Afforestation are popular initiatives of the public at large, promoted at most during the "Forest Month" 15 March-15 April. The territorial branches of the Forestry Department and the National Forest Administration have key role in the promotion of afforestation programme .

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.

max 250 words

- awareness on the role of forests and forest ecosystems;
- promotion of afforestation works during the "Forest Month";
- technical support for the implementation of afforestation projects.

Was the population living in the location and/or nearby involved in the development of the technology?

No

If yes, by means of what?

No answer provided

Other (specify) (max 30 words)

No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes

(more than one box can be ticked)

- 2. To improve the conditions of affected ecosystems
 - 3. To generate global benefits through effective implementation of the UNCCD
-

Describe on-site impacts (the major two impacts by category)

Production or productivity:

1. (max 50 words)

Increased soil fertility, on long run

2. (max 50 words)

Increased vegetal production

Socio-economic level (including cultural level):

1. (max 50 words)

Wood production, on long run

2. (max 50 words)

Assignment of a given use category to a waste land

Environmental level:

1. (max 50 words)

Soil generation

2. (max 50 words)

Water protection

Other (specify)

1. (max 50 words)

Carbon sequestration

2. (max 50 words)

Landscape improvement

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts

1. (max 50 words)

Protection of downstream environment components (water sources, agricultural crops, etc.)

2. (max 50 words)

Shared benefits for the local communities: wood and non-wood forest products, working places, landscape, etc.

Impact on biodiversity and climate change

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:

max 250 words

Biodiversity is better preserved (and in particular conditions enhanced) in forest, compared to wastelands (degraded lands with low vegetal production and biological activity)

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

Yes

Explain the reasons:

max 250 words

Carbon sequestration in all carbon pools:

- above ground biomass;
- below ground biomass;
- dead organic matter;
- litter;
- soil.

This capacity of C sequestration of lands affected by afforestation activities has been reflected in the recently submitted KP-LULUCF reporting.

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?

Yes

Explain the reasons:

max 250 words

- Established plantation follow, on the rule, the natural type of forest existing originally on that piece of land.

Has a cost-benefit analysis been carried out?

Yes

If yes, summarize its main conclusions:

max 250 words

Cost-benefit analysis is intrinsic part of the feasibility studies, required by the national regulations on public procurement.

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- Funding/resource mobilization
 - Participation, collaboration and networking
-

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?

Yes

If yes, where? (add as many rows as necessary)

Location:

- Romania
-

Were incentives to facilitate the take up of the technology provided?

Yes

If yes, specify which type of incentives

- Policy or regulatory incentives (for example, related to market requirements and regulations, import/export, foreign investment, research & development support, etc)
 - Financial incentives (for example, preferential rates, State aid, subsidies, cash grants, loan guarantees, etc)
-

Can you identify the three main conditions that led to the success of the presented best practice/technology?

Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)

Availability of funding through the Special Fund on Land Reclamation and earmarked budgetary allocations, in the context of a steady economic growth, high profile of afforestation in the political debate and committed management at the level of the ministry responsible for forestry (particularly from 2005-2008)

2. (max 50 words)

Involvement of forestry specialists, expertise, and the use of forestry norms for the establishment of plantations

3. (max 50 words)

Positive feedback and support on behalf of the population at large and the relevant CSOs

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?

Yes

If yes, at which level?

- International
-

Section 8. Lessons learned

Related to human resources

(max 50 words)

- - specialised unit within the ministry has been established;
 - specialised inspectors within the subordinated forestry agencies are now acquainted with the activity;
 - specialised institutes for technical documents and specialised companies for afforestation works are readily available.
-

Related to financial aspects

(max 50 words)

- Funding from two distinct sources, used to be secured in the past, but is decreasing nowadays. This decrease in available funding in the last years is projected to increase from 2010 on, with the implementation of the Measure 221 NRDP 2007-2013 and the afforestation measure supported from the Special Environmental Fund.
-

Related to technical aspects

(max 50 words)

- - the costliness of afforestation measures;
- the importance of sustainable land management;
- the bad past practice of extending agricultural production preponderantly on the expense of forestry (instead of agricultural technologies, such as the "green revolution" in the 1950's);
