

## Suriname-Supporting information for Strategic Objective 5

	Implementation framework	Remarks
<b>Financial and non-financial resources</b>	<ol style="list-style-type: none"> <li>1. Would you like to share an experience on how your country has increased the mobilization of resources?</li> <li>2. Would you like to share how your country has taken advantage of the LDN concept to enhance the coherence, effectiveness and multiple benefits of investments?</li> <li>3. Would you like to share an experience on how your country has improved the use of existing and/or innovative financial processes and institutions?</li> </ol>	<ul style="list-style-type: none"> <li>✓ Suriname has not yet implemented activities to increase the mobilization of resources, however Suriname does have the intension to implement activities with regard to the forehand mentioned and is currently looking for capacity strengthening opportunities in this area.</li> <li>✓ Suriname is currently in the preparation phase to set national LDN targets</li> <li>✓ Suriname does not yet has improved the use of existing and/or innovative financial processes and institutions</li> </ul>
<b>Policy and planning</b>	<ol style="list-style-type: none"> <li>1. Would you like to share an experience on how your country/subregion/region/institution has developed or helped develop, implement, revise or regularly monitor action programmes?</li> <li>2. Would you like to share an experience on how your country institution has established or helped establishing policies and enabling environments to promote and/or implement solutions to combat desertification/land degradation and mitigate the effects of drought?</li> <li>3. Would you like to share an experience on how your country has leveraged synergies and integrated DLDD into national plans related to other MEAs, in particular the other Rio conventions and other international commitments?</li> </ol>	<ul style="list-style-type: none"> <li>✓ Suriname is now in the process of writing its comprehensive national environmental policy, which sustainable land management will be an integral part of.</li> </ul>

## Suriname-Supporting information for Strategic Objective 5

	<p>4. Would you like to share an experience on how your country is mainstreaming DLDD in economic, environmental and social policies, with a view to increasing the impact and effectiveness of the implementation of the Convention?</p> <p>5. Would you like to share an experience on how your country established/is establishing national policies, measures and governance for drought preparedness and management including drought contingency plans?</p>	
<p><b>Action on the Ground</b></p>	<p>1. Would like to share experiences on how your country is implementing sustainable land management (SLM) practices to address DLDD?</p> <p>2. Would like to share experiences on how your country is involved in restoration and rehabilitation practices in order to assist with the recovery of ecosystem functions and services?</p> <p>3. Would you like to share experience on how your country is developing drought risk management, and monitoring early warning systems and safety-net programmes to address DLDD?</p> <p>4. Does your country promote alternative livelihoods practice in the context of DLDD?</p> <p>5. Has your country established systems for sharing information and knowledge and facilitating networking on best practices and approaches to drought management?</p>	<p>✓ At present there are no government-initiated SLM activities ongoing which can be counted as "action on the ground" which are specifically aimed at countering DLDD.</p> <p>✓ It is worth noting that several mini-initiatives are being undertaken by NGOs and individuals in the agricultural sector that can be counted as Sustainable Land Management activities.</p>
