

Decision 30/COP.13

Gender equality and women's empowerment for the enhanced and effective implementation of the Convention

The Conference of the Parties,

Also recalling the importance that the Convention places on the role of women in the implementation of the Convention and the actions taken by Parties to support the participation of women,

Further recalling the actions of the secretariat, at the request of Parties, to promote gender in the implementation of the Convention through its policy-advocacy framework (decision 9/COP.10) and to mainstream gender issues at various levels involving multiple stakeholders (decision 9/COP.11),

Acknowledging that gender equality and the empowerment of women and girls, particularly the poorest and most vulnerable, will make an important contribution to the effective implementation of the Convention, including the UNCCD 2018–2030 Strategic Framework, and to the achievement of the objectives of the 2030 Agenda for Sustainable Development, including target 15.3,

Reaffirming the 2030 Agenda for Sustainable Development and the Addis Ababa Action Agenda, which is an integral part of the 2030 Agenda for Sustainable Development,

Recognizing that the implementation of the UNCCD 2018–2030 Strategic Framework requires enhanced action to support women's effective participation in the implementation of the Convention, including in achieving land degradation neutrality,

Acknowledging that mainstreaming gender in the implementation of the Convention, including through voluntary land degradation neutrality target setting and implementation, decision-making and stakeholder engagement, will strengthen the effective and efficient implementation of action on the ground,

Emphasizing that the benefits gained from building and strengthening women's and girls' capacities, capabilities and awareness in order to enhance their participation at all levels, and addressing women's rights and access to, inter alia, economic and natural resources, ownership and control of land and other forms of property may foster more effective and efficient implementation of the Convention and enhance synergies and partnerships with other stakeholders,
