Each subsidiary body shall elect its own four Vice-Chairpersons, one of which shall act as Rapporteur. The Chairperson and four Vice-Chairpersons of such subsidiary bodies shall be elected with due regard to the need to ensure equitable geographical distribution and adequate representation of affected country Parties [in the regions referred to in the implementation annexes of the Convention], particularly those in Africa, and shall not serve for more than two consecutive terms.

Subject to rule 31, subsidiary bodies shall not take votes.

Matters for consideration

- (d) Make, and arrange for keeping of, sound recordings of the session;
- (e) Arrange for the custody and preservation of the documents of the session; and
- (f) Perform all other work that the Conference of the Parties may require.

IX. CONDUCT OF BUSINESS

Meetings

Rule 36

1. Meetings of the Conference of the Parties shall be held in public, unless the Conference of the Parties decides otherwise.

Quorum

Rule 37

The President shall not declare a meeting of the Conference of the Parties open or permit the debate to proceed unless at least one third of the Parties to the Convention are present. The presence of two thirds of the Parties to the Convention shall be required for any decision to be taken.

Procedures for speaking

Rule 38

1. No one may speak at a meeting of the Conference of the Parties without having previously obtained the permission of the President. Subject to rules 39, 40, 41 and 43, the President shall call upon speakers in the order in which they signify their desire to speak. The Permanent Secretariat shall maintain a list of speakers. The President may call a speaker to order if the speaker's remarks are not relevant to the subject under discussion.

2. The Conference of the Parties may, on a proposal from the President or from any Party, limit the time allowed to each speaker and the number of times each representative may speak on a question. Before a decision is taken, two representatives may speak in favour of and two against a proposal to set such limits. When the debate is limited and a speaker exceeds the allotted time, the President shall call the speaker to order without delay.

Precedence

Rule 39

The Chairperson or Rapporteur of a subsidiary body may be accorded precedence for the purpose of explaining the conclusions arrived at by that subsidiary body.

Points of order

Rule 40

During the discussion of any matter, a representative may at any time raise a point of order which shall be decided immediately by the President in accordance with the present rules. A representative may appeal against the ruling of the President. The appeal shall be put to the vote immediately and the ruling shall stand unless overruled by a majority of the Parties present and voting. A representative may not, in raising a point of order, speak on the substance of the matter under discussion.

Decisions on competence

Rule 41

Any motion calling for a decision on the competence of the Conference of the Parties to discuss any matter or to adopt a proposal or an amendment to a proposal submitted to it shall be put to the vote before the matter is discussed or a vote taken on the proposal or amendment in question.

Proposals and amendments to proposals

Rule 42

Proposals and amendments to proposals shall normally be introduced in writing, in one of the official languages, by the Parties and handed to the Permanent Secretariat, which shall circulate copies to delegations. As a general rule, no proposal shall be discussed or put to the vote at any meeting unless copies of it have been circulated to delegations in all the official languages not later than the day preceding the meeting. The President may, however, permit the discussion and consideration of proposals, amendments to proposals or of procedural motions even though these proposals, amendments or motions have not been circulated or have been circulated only the same day.

Order of procedural motions

Rule 43

1. Subject to rule 40, the following motions shall have precedence in the order indicated below over all other proposals or motions:

- (a) To suspend the meeting;
- (b) To adjourn the meeting;
- (c) To adjourn the debate on the question under discussion;
- (d) To close the debate on the question under discussion.

2. Permission to speak on a motion falling within paragraph 1 (a) to (d) shall be granted only to the proposer and, in addition, to one speaker in favour of and two against the motion, after which it shall be put immediately to the vote.

Withdrawal of proposals or motions

Rule 44

A proposal or motion may be withdrawn by its proposer at any time before voting on it has begun, provided that the proposal or motion has not been amended. A proposal or motion thus withdrawn may be reintroduced by any other Party.

Reconsideration of proposals

Rule 45

When a proposal has been adopted or rejected, it may not be reconsidered at the same session, unless the Conference of the Parties, by a two-thirds majority of the Parties present and voting, so decides. Permission to speak on a motion to reconsider shall be accorded only to the mover, to one speaker in favour of, and two against, the proposal, after which it shall be put immediately to the vote.

X. VOTING

Right to vote

Rule 46

1. Each Party shall have one vote, except as provided for in paragraph 2.

2. Regional economic integration organizations, in matters within their competence, shall exercise their right to vote with a number of votes equal to the number of their member States that are Parties to the Convention. Such an organization shall not exercise its right to vote if any of its member States exercises its right, and vice versa.

Majority required

Rule 47

1. [The Parties shall make every effort to reach agreement on all matters of substance by consensus. If all efforts to reach consensus have been exhausted and no agreement has been reached, the decision shall, as a last resort, be taken by a two-thirds majority vote of the Parties present and voting, [except for decisions taken under article 21 [and article 22 paragraph 2 (g)] of the Convention which shall be agreed upon by consensus, or] [unless otherwise provided by

(a) the Convention,

(b) the financial rules referred to in article 22, paragraph 2 (e) of the Convention, or

(c) the present rules of procedure.]]

2. Decisions of the Conference of the Parties on matters of procedure shall be taken by a majority vote of the Parties present and voting.

3. If the question arises as to whether a matter is one of a procedural or substantive nature, the President shall rule on the question. An appeal against this ruling shall be put to the vote immediately and the President's ruling shall stand unless overruled by a majority of the Parties present and voting.

4. If, on matters other than elections, a vote is equally divided, a second vote shall be taken. If this vote is also equally divided, the proposal shall be regarded as withdrawn.

Order of voting on proposals

Rule 48

If two or more proposals relate to the same question, the Conference of the Parties, unless it decides otherwise, shall vote on the proposals in the order in which they have been submitted. The Conference of the Parties may, after each vote on a proposal, decide whether to vote on the next proposal.

Division of proposals and amendments

Rule 49

1. Any representative may request that any part of a proposal or of an amendment to a proposal be voted on separately. The President shall allow the request unless a Party objects. If an objection is made to the request for division, the President shall permit two representatives to speak, one in favour of and the other against the request, after which it shall be put immediately to the vote. The President may limit the time allowed to each speaker.

2. If the request referred to in paragraph 1 is allowed or adopted, those parts of a proposal or of an amendment to a proposal which are approved shall then be put to the vote as a whole. If all the operative parts of a proposal or amendment have been rejected, the proposal or amendment shall be considered to have been rejected as a whole.

Amendment to a proposal

Rule 50

A motion is considered to be an amendment to a proposal if it merely adds to, deletes from, or revises parts of that proposal. An amendment shall be voted on before the proposal to which it relates is put to the vote, and if the amendment is adopted, the amended proposal shall then be voted on.

Order of voting on amendments to a proposal

Rule 51

If two or more amendments are moved to a proposal, the Conference of the Parties shall first vote on the amendment furthest removed in substance from the original proposal, then on the amendment next furthest removed therefrom, and so on, until all amendments have been put to the vote. The President shall determine the order of voting on the amendments under this rule.

Method of voting for general matters

Rule 52

1. Voting, except for elections, shall normally be by show of hands. A roll-call vote shall be taken if one is requested by any Party. It shall be taken in the order used or established by the rules of procedure of the General Assembly of the United Nations. However, if at any time a Party requests a secret ballot, that shall be the method of voting on the issue in question.

2. When the Conference of the Parties votes by mechanical means, a non-recorded vote shall replace a vote by show of hands and a recorded vote shall replace a roll-call.

3. The vote of each Party participating in a roll-call or recorded vote shall be included in the relevant documents of the session.

Conduct during voting

Rule 53

After the President has announced the beginning of voting, no representative shall interrupt the voting except on a point of order in connection with the actual conduct of the voting. The President may permit the Parties to explain their votes, either before or after the voting. The President may limit the time to be allowed for such explanations. The President shall not permit the proposer of a proposal or of an amendment to a proposal to explain his/her vote on his/her own proposal or amendment, except if it has been amended.

XI. ELECTIONS

Method of voting for elections

Rule 54

All elections shall be held by secret ballot, unless otherwise decided by the Conference of the Parties.

Absence of majority

Rule 55

1. If, when one person or one delegation is to be elected, no candidate obtains in the first ballot a majority of the votes cast by the Parties present and voting, a second ballot restricted to the two candidates obtaining the largest number of votes shall be taken. If in the second ballot the votes are equally divided the President shall decide between the candidates by drawing lots.

2. In the case of a tie in the first ballot among three or more candidates obtaining the largest number of votes, a second ballot shall be held. If a tie results among more than two candidates, the number shall be reduced to two by lot and the balloting, restricted to them, shall continue in accordance with the procedure set forth in paragraph 1.

Election to two or more elective places

Rule 56

1. When two or more elective places are to be filled at one time under the same conditions, those candidates, not exceeding the number of such places, obtaining in the first ballot the largest number of votes and a majority of the votes cast by the Parties present and voting shall be deemed elected.

2. If the number of candidates obtaining such majority is less than the number of persons or delegations to be elected, there shall be additional ballots to fill the remaining places, the voting being restricted to the candidates obtaining the greatest number of votes in the previous ballot, to a number not more than twice the places remaining to be filled, provided that, after the third inconclusive ballot, votes may be cast for any eligible person or delegation.

3. If three such unrestricted ballots are inconclusive, the next three ballots shall be restricted to the candidates who obtained the greatest number of votes in the third of the unrestricted ballots, to a number not more than twice the places remaining to be filled, and the following three ballots thereafter shall be unrestricted, and so on until all the places have been filled.

XII. LANGUAGES AND SOUND RECORDS

Official languages

Rule 57

The official languages of the Conference of the Parties shall be Arabic, Chinese, English, French, Russian and Spanish.

Rule 58

1. Statements made in an official language shall be interpreted into the other official languages.

2. A representative of a Party may speak in a language other than an official language if the Party provides for interpretation into one such official language.

Rule 59

Official documents of the sessions shall be drawn up in one of the official languages and translated into the other official languages.

Rule 61

The present rules of procedure may be amended by the Conference of the Parties by consensus.

TERMS OF REFERENCE AND PROPOSED ORGANIZATION OF WORK TO BE UNDERTAKEN ON NETWORKING OF INSTITUTIONS, AGENCIES AND BODIES

1. Phases

Recognizing that a complete inventory and evaluation of all networks, institutions, agencies and bodies will be a lengthy process, it is proposed that the work plan of the survey and evaluation activity of the Committee on Science and Technology will need to be broken into three phases (A/AC.241/66, para. 7), namely:

- (a) Identification of the principal potential units, particularly networks;
- (b) A pilot, in-depth survey evaluation of the potential units in a particular region and subregion;
- (c) Replication of the pilot survey and evaluation of units in other regions and subregions.

In all three phases, the units surveyed and evaluated will include governmental, intergovernmental, non-governmental, academic and other private sector entities.

Pursuant to the proposed programme of work outlined above, the Conference of the Parties, upon the recommendation of the Committee on Science and Technology, requires the contractor to carry out the preliminary survey and evaluation of potential units, particularly existing networks and to suggest a methodology for carrying out the second and third phases, for consideration at the third session of the Committee on Science and Technology.

2. Tasks expected to be completed by the contractor

(a) Identify the principal existing networks relevant to the effort to combat desertification and their role in areas such as information collection and exchange, research, technology transfer, benchmarks and indicators, capacity-building, policy formulation and local-level activities;

(b) Describe the actual components (including structure, mode of operation and willingness and capacity to contribute to the work of the Convention) as well as categories of users, and map their geographical distribution;

(c) Enumerate the information needs of actual and potential users and the extent to which such needs are being met in relation to the provision of articles 16 to 19 of the Convention;

(d) Identify and describe the linkages among the principal networks, including gaps and possible overlaps;

(e) Elaborate the purposes, methods and benefits of strengthening networks at various levels;

(f) Develop criteria by which institutions, agencies and networks will be evaluated in terms of their capacity and effectiveness in contributing to the implementation of the Convention;

(g) Suggest:

- (i) Methods and candidate regions and subregions for in-depth pilot surveys;
- (ii) A practical cost-effective methodology to permit the Committee on Science and Technology to update the inventory of networks on a regular basis;
- (iii) A strategy by which a global network of networks, institutions, agencies and bodies can be established for the purpose of supporting the implementation of the Convention.

Contract

Within the framework of these terms of reference, the head of the Convention Secretariat is authorized to conclude a contract with the organization or organizations chosen to complete the work in accordance with its or their proposal. The contract shall provide for the work to start once sufficient funds for the completion of the work have been received in accordance with the decision of the Conference of the Parties for the amount specified in the proposal. The contract shall contain such other terms and conditions, including for the supervision of the contract and the mode of payment, as the head of the Convention Secretariat shall consider appropriate.

Decision 25/COP.1Collaborative institutional arrangements in support
of the Global MechanismThe Conference of the Parties,

Having examined decision 10/18 of the Intergovernmental Negotiating Committee for the Elaboration of a Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa (INCD), taken at its resumed tenth session, which, inter alia, invites the International Fund for Agricultural Development (IFAD), the United Nations Development Programme (UNDP) and the World Bank to consult on and develop a proposal on the possible collaborative institutional arrangements for the Global Mechanism for submission to, consideration by and appropriate action by the Conference of the Parties (COP) at its first session,

Welcoming, as an important element in the successful functioning of the Global Mechanism, the agreement of IFAD, UNDP and the World Bank on collaborative institutional arrangements for the Global Mechanism, as reflected in document ICCD/COP(1)/CRP.1, annexed to this decision,

1. Decides that this agreement shall serve as the initial basis for collaborative institutional arrangements in support of the Global Mechanism by the three organizations;

2. Decides also that, in carrying out the functions of the Global Mechanism, in accordance with its decision 24/COP.1, the organization to house the Global Mechanism shall, as the lead organization, fully cooperate with the other two institutions that entered into the collaborative institutional arrangements described in document ICCD/COP(1)/CRP.1;

3. Urges the three institutions concerned to proceed with the arrangements proposed in document ICCD/COP(1)/CRP.1, including the establishment of a facilitation committee, and requests the three institutions to actively pursue and develop further those arrangements and report to the second session of the COP;

4. Invites relevant institutions, programmes and bodies of the United Nations system, including the Food and Agriculture Organization of the United Nations (FAO), the Global Environment Facility (GEF), the United Nations Environment Programme (UNEP) and the World Food Programme (WFP), regional and subregional organizations and regional development banks, as well as interested non-governmental organizations (NGOs) and the private sector, to actively support the activities of the Global Mechanism, as contemplated in paragraph 5 of the annex to document ICCD/COP(1)/CRP.1 and, in this connection, to establish and/or strengthen programmes to combat desertification in affected developing countries;

5. Requests the organization housing the Global Mechanism to report to the second session of the COP on modalities regarding collaboration between itself and the NGO community, as well as collaboration with other interested organizations, including the private sector.

ANNEX

COLLABORATIVE INSTITUTIONAL ARRANGEMENTS FOR THE GLOBAL MECHANISM OF THE UNITED NATIONS CONVENTION TO COMBAT DESERTIFICATION 19 SEPTEMBER 1997

I. Context

1. Operative paragraph 3 of the INCD 10 Resumed Session decision on the housing of the Global Mechanism (GM) invited IFAD, UNDP and the World Bank to “consult on and develop a proposal on the possible collaborative institutional arrangement for the Global Mechanism for submission to, consideration and appropriate action by the COP at its first session”.

2. Designated representatives of IFAD, UNDP and the World Bank met at IFAD headquarters in Rome on 18–19 September to discuss their response to the above invitation of the INCD. The following was agreed.

II. The Global Mechanism

3. The three institutions share the view that the objective of the Global Mechanism is to increase the flow of resources for CCD implementation, while increasing the effectiveness and efficiency of existing financial mechanisms.

4. In order to serve Parties effectively in meeting the Convention's financial provisions, the three institutions based their proposal on the following principles as embodied in the spirit of the CCD:

- demand-driven but also pro-actively responsive to the needs and priorities of Parties;
- oriented towards issues of finance (including for the transfer of technology);
- non-duplicative of existing mechanisms and facilities, but adding value to these;
- non-monopolistic, and geared towards promoting multi-source, multi-channel financing;
- highly flexible in operations, responding to emerging opportunities;
- lean and efficient, drawing on other institutions, including its housing institution, to the extent possible, as well as access to the United Nations system-wide capacities and facilities, in particular the Office of the Resident Coordinator;
- neutrality and universality will form the basis for the operations of the GM;
- the GM would have access to resources, through its host and other organizations, as outlined in paragraph 4(e) of INCD negotiating text on the functions of GM; and
- the administrative and operating budget of the GM would be financed by the COP.

III. Support for the Global Mechanism

5. The three institutions recognize that the Global Mechanism would need to draw on the support of a large number of relevant organizations. This would include IFAD, UNDP and the World Bank as well as Regional Development Banks, FAO, WFP, UNEP and other organizations, including NGOs.

6. The World Bank, while not seeking to house the GM, would actively support the GM. Regardless of whether IFAD or UNDP house the GM, and without prejudging the nature of any collaborative institutional arrangement, the three institutions would at least support the CCD and the GM in the ways outlined below.

General

7. IFAD, UNDP and the World Bank would establish a “Facilitation Committee” for the GM, to coordinate support from the three institutions, comprised initially of focal points to be designated by each institution. The functions and scope of the work of this committee would be developed by the three institutions in consultation with the institution housing the GM and the Head of the GM.

8. The three institutions will endeavour to ensure that the GEF would develop projects that address desertification, as it relates to GEF focal areas. In this context: (i) the respective focal points for GM matters within the World Bank and UNDP, as GEF Implementing Agencies, and IFAD would support the GM entity to explore possibilities for new and additional funds from GEF for CCD activities; (ii) co-financing or parallel funding arrangements with GEF funded dryland related activities would be pursued by all three institutions; and (iii) it is strongly recommended that GM be granted observer status with GEF Council.

The World Bank

9. The World Bank would support the GM, housed by IFAD and/or UNDP, as follows:

(a) The Bank through its Drylands Knowledge Node would support the GM by generating and disseminating information and knowledge on technical issues and financial resource information flows;

(b) The Bank would integrate appropriate drylands management policies in its Environmental Sector Work and Country Assistance Strategies and use these in its ongoing dialogue with affected countries to internalize drylands management issues within the countries' economic development programmes, and thus bring them forward for financing in the Bank's active portfolio and other donors' support;

(c) The Bank would participate in high-level meetings with IFAD and UNDP to facilitate activities of the GM, and provide advice and support; and

(d) The Bank would establish an institutional focal point to liaise with the GM, and with IFAD and UNDP on GM issues.

IFAD

10. IFAD's offer to house the Global Mechanism is contained in ICCD/COP(1)/5. Notwithstanding what it would offer if selected as housing institution, IFAD would nevertheless support the GM as follows:

(a) IFAD would seek to achieve optimal convergence between its financial assistance for poverty alleviation in the drylands and Affected Country priorities under the Convention;

(b) IFAD would participate in high-level meetings with UNDP and the World Bank to facilitate activities of the GM, and provide advice and support; and

(c) IFAD would establish an institutional focal point to liaise with the GM and with UNDP and the World Bank on GM issues.

UNDP

11. UNDP's offer to house the Global Mechanism is contained in ICCD/COP(1)/5. Notwithstanding what it would offer if selected as housing institution, UNDP would nevertheless support the GM as follows:

(a) Provide technical backstopping to National Action Programme (NAP)/Sub-regional Action Programme (SRAP) process;

(b) Provide technical backstopping to National Desertification Fund (NDF) establishment;

(c) Continue its work on Drought Preparedness and Mitigation (DPM), Environmental Information System (EIS)/Desertification Information System (DIS) and indicators, including monitoring and assessment linked appropriately to the work of the Committee on Science and Technology (CST);

(d) Continue its work on special thematic initiatives (water management, women, NGO participation, advocacy on drylands);

(e) Continue to mobilize seed/catalytic resources through UNDP Trust Fund for the above activities;

(f) Continue to support activities for combating drought and desertification through UNDP core and non-core system;

(g) UNDP would participate in high-level meetings with IFAD and the World Bank to facilitate activities of the GM, and provide advice and support; and

(h) UNDP would establish an institutional focal point to liaise with the GM, and with IFAD and the World Bank on GM issues.

IV. Specific Features of Collaborative Institutional Arrangements for the GM

12. The selection of the head of GM would take place through consultation between the President of IFAD and the Administrator of UNDP, keeping the President of the World Bank informed.

13. The GM would operate according to the modus operandi and procedures agreed upon in harmony with those of the GM housing institution.

14. The Administrator of UNDP and the President of IFAD would meet periodically, to agree on strategies for implementing the CCD and to harmonize their support for the work of the GM. This process would involve the President of the World Bank, as appropriate.

15. At the request of the GM, the three institutions may establish ad hoc task forces to develop ideas and work on specific issues, particularly innovative resource mobilization approaches, to help the GM entity in its work. Other organizations, including NGOs, would be associated.

16. The three institutions would advise and support the GM in developing its operational strategy, work programme and budget through the facilitation committee (referred to above).

17. The GM would report to the COP through the Head of the Housing Organization.

18. The GM would report to the COP on its activities and would also cover, in consolidated fashion, the support it receives from the three institutions and others.

V. Additional Considerations Involving IFAD–UNDP

19. It is agreed that whether UNDP or IFAD houses the GM in–depth consultations between the two agencies would be held on a number of areas that would require substantive collaboration in support of GM. This would include in particular:

(a) Consultation and agreement on the preparation and implementation on a strategic plan for collection and collation of information and its transformation into knowledge for all stakeholders, taking into account respective institutional comparative advantage;

(b) The role of the GM in relation to the role of collaborating institutions in actual project and programme development and implementation; and

(c) The possibility of drawing on existing initiatives and arrangements such as the CGIAR and NARs, and the work of the inter–agency working group on environmental funds in facilitating the work of the GM.

VI. Lead Institution Approach

20. Taking the above into account, and considering the important role that the three institutions can play in supporting the GM, it is proposed to consider support for the GM as a collaborative arrangement drawing upon the comparative advantages and commitment, as specified above, of the three institutions to the GM and the CCD process. However, in the interest of streamlining accountability, the COP may wish to select either IFAD or UNDP to assume a lead role and the responsibility for housing the GM.

Decision 26/COP.1Accreditation of non-governmental and intergovernmental organizations

The Conference of the Parties,

Recalling article 22, paragraph 7, of the Convention,

Noting rule 7 of the rules of procedure of the Conference of the Parties, which provides that any body or agency, whether national or international, governmental or non-governmental, that is qualified in matters covered by the Convention, and that has informed the Permanent Secretariat of the Convention of its wish to be represented at a session of the Conference of the Parties as an observer, may be so admitted unless at least one third of the Parties present object,

Noting also that such rule 7 also provides that such observers may, upon invitation of the President, participate without the right to vote in the proceedings of any session in matters of direct concern to the body or agency they represent, unless at least one third of the Parties present at the session object,

Decides:

(a) To accredit to the first session of the Conference of the Parties the non-governmental organizations previously accredited to sessions of the Intergovernmental Negotiating Committee for the elaboration of an International Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, particularly in Africa, as listed in annex I to the present decision;

(b) To accredit to the first and subsequent sessions of the Conference of the Parties those additional non-governmental organizations that the Permanent Secretariat may recommend for accreditation, as listed in annex I to the present decision;

(c) In deciding on the accreditation of additional non-governmental organizations to the second and subsequent ordinary or extraordinary sessions of the Conference of the Parties, the Conference of the Parties shall take account of decisions 1/1 and 2/1 concerning the participation of non-governmental organizations as adopted by the Preparatory Committee for the United Nations Conference on Environment and Development at its first and second sessions (A/45/46, annex I and A/46/48, annex I). Non-governmental organizations so accredited may participate in accordance with the rules of procedure of the Conference of the Parties;

(d) To accord observer status at the first session of the Conference of the Parties to all interested intergovernmental organizations previously accorded such status at sessions of the Intergovernmental Negotiating Committee for the Elaboration of an International Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, as listed in annex II to the present decision;

(e) In deciding on according observer status to additional intergovernmental organizations to the second and subsequent ordinary or extraordinary sessions of the Conference of the Parties, the Conference of the Parties shall bear in mind the established practice of the General Assembly of the United Nations. Organizations accorded such status may participate in accordance with the rules of procedure of the Conference of the Parties.

Decision 27/COP.1Inclusion of activities of non-governmental organizations within the official programme of work of future sessions of the Conference of the PartiesThe Conference of the Parties,

Recognizing the spirit of partnership set out in the third principle of the Convention to Combat Desertification, which states that:

“the Parties should develop, in a spirit of partnership, cooperation among all levels of government, communities, non-governmental organizations and landholders to establish a better understanding of the nature and value of land and scarce water resources in affected areas to work towards their sustainable use”,

Recalling that this principle is carried forward in the action focused sections of the Convention dealing with participation in planning and decision-making, funding, information and technology and capacity building, education and public awareness,

Noting that Article 10 of the Convention stipulates that National Action Programmes shall provide for effective participation of non-governmental organizations and local populations in all stages of the planning process and at all levels of decision-making,

Recognizing that in Article 21.1 (c) it is stipulated that “the Conference of the Parties shall consider for adoption, *inter alia*, approaches and policies that facilitate, as appropriate, mechanisms such as national desertification funds, including those involving the participation of non-governmental organizations, to channel financial resources rapidly and efficiently to the local level in affected developing country Parties”,

Noting also that in Articles 16 (Information) and 18 (Technology) it is recognized that NGOs have access to important information; that they have built up relevant expertise and that they have developed channels to reach out to the target groups so that governments have agreed that they will engage in partnerships with NGOs to make full use of their expertise in the areas of information dissemination (Article 16) and the promotion of appropriate technology (Article 18.1), in particular technology that is based on traditional and local knowledge (Article 18.2 (a)),

Recognizing also that NGOs will have a major role in informing people at the community level and mobilizing community action. Therefore capacity building, education and public awareness are other areas in which partnership arrangements between governments and NGOs are essential,

1. Requests that additional open dialogue sessions organized by NGOs occur within the official programme of work of future sessions of the Conference of the Parties and that the Permanent Secretariat of the Convention make all efforts to facilitate inclusion of at least two half-day NGO sessions within the official programme of work;

2. Requests also that NGOs give further consideration to institutional mechanisms for reinforcing partnerships, north-south partnerships, relationships with multilateral agencies, research institutions and funding mechanisms, and partnerships at the community level, which draw on local knowledge and experience, gender issues in partnership building and other critical issues in the implementation of the CCD.

Decision 28/COP.1Date and venue of the second session
of the Conference of the PartiesThe Conference of the Parties,

Recalling article 22, paragraph 4 of the United Nations Convention to Combat Desertification,

Recalling General Assembly resolutions 40/243 of 18 December 1985 and 51/180 of 16 December 1996,

1. Accepts with gratitude the generous offer of the Government of Senegal to host the second session of the Conference of the Parties to the United Nations Convention to Combat Desertification;

2. Decides that the second session of the Conference of the Parties shall be held in Dakar from 24 August to 4 September 1998;

3. Requests the Executive Secretary to consult with the Government of Senegal with a view to entering into satisfactory arrangements for that Government to host the Conference in Dakar and to meet the related costs.

Decision 29/COP.1
