presents

A WEBINAR ON

“RANGELAND, FROM DEGREDDATION TO DIGNITY: RESTORING LANDS, HEALING MINDS FOR COMMUNITY RESILIENCE”

In celebration of Rangeland and Drought Day. Join practitioners, community leaders and policymakers to learn how sustainable rangeland management can not only protect ecosystems, but also strengthen communal resilience and peaceful coexistence among farmers, herders and indigenous communities. We'll also explore the direct impact of climate action on mental health. The session will highlight practical approaches and local success stories that connect stewardship with conflict prevention, and improved psychosocial outcomes.
